10TH JANUARY 1883, No. 88 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

No. 91.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Ootacamund, 26th December 1882, No. 561:—

In G.O., No. 1451 W., of 10th June 1882, two estimates for the manufacture of stock during the current official year were sanctioned. One of these, amounting to Rs. 1,316, for the stock manufacture

at Wellington, has been found to need some revision, in consequence of the omission from it by oversight of certain materials that remained unburnt on the 31st March 1882, and some arrears of last year. Besides which, the stock of pantiles, ridge, and chimney tiles in hand at the time that estimate was submitted has proved insufficient.

2. A revised estimate has therefore become necessary to provide for the above omissions and an additional supply of tiles. This is now submitted for sanction with a comparative statement and amounts to Rs. 2,160, being in excess of the original estimate by Rs. 844.

No. 92.

ORDER—dated 10th January 1883, No. 88 W., Public Works.

The revised estimate, amounting to Rs. 2,160, for the manufacture of stock materials at the Wellington brickfield, in the Nilgiri Division, is sanctioned.

2. The excess of Rs. 844 over the original estimate for Rs. 1,316, sanctioned in G.O., No. 1451 W., dated 10th June 1882, is explained in the Superintending Engineer's letter above recorded.

3. This sanction has been registered as Provincial No. 195 W. of 1882-83, and cancels No. 27 W. of the same year.

10TH JUNE 1882, No. 1451 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

No. 63.

READ—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 13th May 1882, No. 182 :—

I have the honor to submit for sanction the accompanying four estimates, with reports for manufacture of stock materials in the West Coast Division, and to request that you will be so good as to let me know whether any limit for "Reserve Stock" for the division has been sanctioned with reference to paragraph 1601 of the Code; if so, what limit, and in what authority, so that I may know what estimates for the purpose can be approved of by me and what require sanction of Government. I request also to be informed whether the limit, if any, would be an aggregate sum for the division for a whole year, or it is with reference to each estimate to be sanctioned as the occasion may require.

2. I have authorised the Executive Engineer to proceed with the work for 1882-83 in anticipation of sanction, to take advantage of the dry weather which is now passing away.

No. 64.

From the same Officer, dated 13th May 1882, No. 186.

Report on the accompanying Estimate of Rs. 5,080 for Manufacture of Stock Materials at Ootacamund.

It has been a necessary practice on the Hills to manufacture departmentally bricks and other articles, charging the expenditure to stock and using the bricks, &c., on the works as required.

Estimate Rs. 5,080.

The materials are much wanted to meet the requirements of works, as they cannot be purchased on the Hills when wanted, and can only be made at certain season. It is therefore thought necessary to manufacture bricks, &c., departmentally; an estimate of Rs. 5,080 has been prepared for the current official year 1882-83, and it is requested that it may be sanctioned under paragraphs 1600 and 1601 of the Code.

As the dry weather suitable for the progress of the works is now passing away, the Executive Engineer has been ordered to proceed with the work in anticipation of sanction.

No. 65.

ORDER—dated 10th June 1882, No. 1451 W., Public Works.

The Superintending Engineer submits two estimates for the manufacture of stock during the current official year, amounting to Rs. 6,396, and three estimates for stock

manufactured from November 1880 to March 1882, amounting to Rs. 5,664, for sanction, from the West Coast Division. The three latter estimates, the reports state, have been prepared as the Examiner objects to pass the outlay already incurred for want of estimate and authority.

2. The five estimates submitted are sanctioned and registered as noted below. The manufacture during 1882-83 should be closed within the official year and not tend to increase the reserve stock of the West Coast Division, which has been fixed by Government in G.O., No. 915 W., dated 4th April 1881, at Rs. 2,000 :—

Letter No. 561

Dated the 26th December 1882

From the Supr. Engineer, South Island

NOTE OF REMARKS.

The Revised Estimate & Comparative Statement for the manufacture of stock materials at the Wallington Brickfield on the Tairāwhiti during the year 1882-83 amounts to Rupees 2160 or Rs 844 in excess of the Original Estimate Rs 1316 sanctioned in G.O. No 1457 W of 10th June 1882.

The cause of excess is explained in the Supr. Engr's letter & in the Remarks column of comparative statement.

The rates entered are considered fair.
