24TH APRIL 1884, No. 1042 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following letter from J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Masulipatam, 3rd April 1884, No. 25 K.S. :—

I have the honor to request that Government will be pleased to authorise a stock account being opened in the Gudiváda division under "building materials" to a limit of Rs. 5,000.

2. In February 1882, the Executive Engineer applied to me for permission to open out a stock account to the extent of Rs. 10,000; but I refused to apply for sanction, because all materials to be obtained would be for sanctioned works, and should be charged off directly to the works for which they were got down.

3. Mr. Hannan now explains that owing to his carrying on a number of small works with an imperfect system of canals, where materials cannot as a rule be sent directly to the works, there have been frequent transfers of materials from one work to another, and that it would simplify the accounts if he charged materials, when received, to "stock," and then issued them to the various works.

4. Under these circumstances, I beg to recommend that authority be given to open a stock account, and that the reserve limit be fixed at Rs. 5,000.

5. There will be only one sub-head, "building materials."

ORDER—dated 24th April 1884, No. 1042 W., Public Works.

The limit of reserve stock in the Gudiváda division, Kistna district, is fixed at Rs. 5,000 for building materials.

The Chief Engineer
for Irrigation
Madras.

Sir,

I have the honor to request
that Government will be pleased to
authorize a stock account being opened
in the Gudivada Division under Building
materials to a limit of Rs 5,000.

2. In February 1882, the Executive
Engineer applied to me for permission
to open out a stock account to the
extent of Rs 10,000; but I refused to
apply for sanction, because all mater-
ials to be obtained would be for
sanctioned works, and should be
charged off directly to the works for
which they were got down. 2

3. Mr. Hannan now explains that

Small works with an imperfect system of Canals, where materials cannot as a rule be sent directly to the works, there have been frequent transfers of materials from one work to another and that it would simplify the accounts if be charged materials when received to stock, and then issued them to the various works.

4. Under these circumstances, I beg to recommend that authority be given to open a Stock account, and that the Reserve limit be fixed at Rs 5000.

5. There will be only one sub Head, Building materials.

I have the honor to be,
Sir,

Your most Obedient servant,

J. W. Ramsall
Superintending Engineer,
2nd Circle.
