Repayment of loan for covering deficit ..	1,725	..	..
Balances—			
Road fund	19,014	4,300	4,480
Endowment fund	2,998	3,620	4,860
General fund	7,671	4,320	..
Total ..	1,42,861	1,64,380	1,46,330

2. *Revised estimate for* 1883-84.—The land-cess is expected to yield Rs 20,000 less than the amount shown in the budget. No satisfactory explanation has been furnished for this decrease. The President's report on the subject, called for by the Board of Revenue, is awaited. About 50 per cent. of this decrease is covered by the enhanced revenue from tolls.

	New roads.	Repairs.	Total.
	Rs.	Rs.	Rs.
Budget	4,100	47,920	52,020
Revised estimate ..	8,627	60,568	69,195
Increase ..	4,527	12,648	17,175

3. For roads the Board of Revenue sanctioned during the year Rs. 17,175 in excess of the budget provision, while the road fund reserve amounted to only Rs. 8,570. This excess allotment added to short receipts under Land-cess has led to the reduction of the closing balance from Rs. 18,220 to Rs. 4,300.

4. *Budget estimate for* 1884-85.—The estimated receipts under the various heads exhibit but few fluctuations as compared with those of the revised estimate except under Miscellaneous, Market fees, and Private contributions for sanitary purposes. The latter include collections from five sanitary associations, which, unlike those in the Madura

circle, are credited to the Local funds. Of a total grant of Rs. 9,250 under Grant III (*c*), Rs. 7,900 are entered as contributions to sanitary associations. The particulars of the proposed expenditure are not given.

5. The provision for public works is only just sufficient to meet the immediate and necessary wants of the circle. Any excess over the budget estimate which the land-cess may realize in the course of the year should be set aside to pay in part the famine debt of Rs. 24,976 which, it is understood, does not include Rs. 10,000 provided for payment during the current year.

6. The educational provision requires revision with reference to the remarks of the Director of Public Instruction. The provision for combined system schools should be restored, and the pay of the inspecting schoolmasters should not be reduced as proposed by the circle board in the face of the cogent reasons advanced by the Director. This will reduce the general fund reserve by about Rs. 1,300. It is presumed the local board do not approve the recommendation made in paragraph 6 of the Director's letter.

7. The provision for vaccination should be raised with reference to the remarks of the Sanitary Commissioner and batta should be restored to the vaccinators.

8. The budget is passed subject to the foregoing remarks.

9. It is not understood how Rs. 12,081, Local Fund Engineer's cheques, struck out by the Board, can find a place in the receipts of either an ordinary or a suspense account.

(True Extract.)

2. *Regular Estimate for* 1882-83.—As directed in paragraph 7 of G.O., dated 22nd July 1882, No. 754, a revised budget for 1882-83 is submitted which takes the place of the regular estimate for that year. The President's opening balance not agreeing with that advised by the Accountant-General, the Board have adopted the figures communicated by the latter officer. With reference to paragraph 3 of the President's letter printed in Board's Proceedings, 31st May 1883, No. 1511, the actual receipts under Land-cess are adopted in the abstract at the head of these Proceedings in lieu of the estimated figures. The increased revenue under this head, as compared with the original budget, is ascribed to the raising of the rate of cess from nine pies to one anna, and to the transfer to Road-cess of Rs. 16,950 erroneously credited to Land Revenue in previous years. Excluding the latter sum, the actual collections would appear to have amounted to Rs. 1,07,310 against a demand, current and arrears, of Rs. 1,36,960, leaving a balance uncollected at the close of the year of Rs. 29,650, or 21·6 per cent. of the demand. In consideration of the comparative paucity of funds under the General Fund, the Board's proposal to transfer to it the receipts from Fisheries, amounting to Rs. 8,000, is sanctioned. In other respects the Board's review of the revised budget for 1882-83 is approved.

3. *Budget Estimate for* 1883-84.—With reference to Board's Proceedings, dated 31st May 1883, No. 1511, the estimate of receipts from Land-cess will be raised to Rs. 1,20,000 representing 86 per cent. of the demand, and those from Pound Fund

reduced to Rs. 440. The necessary alterations have accordingly been made in the abstract at the head of these Proceedings. Statements of the demand, collection, and balance under Land-cess have been furnished with the Regular and Budget Estimates, but not in the form of foot-notes as required in paragraph 3 of G.O., dated 22nd July 1882, No. 754. The course therein prescribed should be followed in future. Under Charges, the allotments for Public Works appear to have been judiciously made, but the cost of the Engineering establishment is excessive and must be reduced without delay. From the detailed statement of charges on account of Engineering establishment, the explanation contained in paragraph 18 of the enclosure to the President's letter would appear to be inaccurate, as well as barely intelligible, no provision being made in the statement for any charges outstanding from a previous year. In any case it is not easy to see why, if the Engineer and Overseer had omitted to draw their pay in the beginning of 1882-83, they should not have drawn it when the regular estimate was submitted. The President will explain what was meant. The provision for Tools and Plant, calculated at $1\frac{1}{2}$ per cent. on the Public Works expenditure, should be Rs. 810, and the Road Fund share of it Rs. 780, and not Rs. 1,350 and Rs. 1,300 as shown in Statements I-B. and II. No provision has been made for refund of famine debt, but, in view of the present improved position of the circle, the opening balance exceeding the budget by Rs. 7,130 and the Land-cess estimate being raised by Rs. 20,000, the Government are inclined to think that a sum of Rs. 10,000 may be allotted for this purpose. The Board of Revenue will report on the subject.

4. As regards education, the assignment now made will be allowed to stand, pending the receipt of the further information called for in Board's Proceedings, dated 12th June 1883, No. 1711. In regard to other items, the revision of the Board being complete is accepted.

5. With these remarks the Right Honorable the Governor in Council passes the Local Fund Budget of the Dindigul Circle for 1883-84.

(True Extract.)

2. *Regular Estimate for* 1882-83.—As directed in paragraph 7 of G.O., dated 22nd July 1882, No. 754, a revised budget for 1882-83 is submitted which takes the place of the regular estimate for that year. The President's opening balance not agreeing with that advised by the Accountant-General, the Board have adopted the figures communicated by the latter officer. With reference to paragraph 3 of the President's letter printed in Board's Proceedings, 31st May 1883, No. 1511, the actual receipts under Land-cess are adopted in the abstract at the head of these Proceedings in lieu of the estimated figures. The increased revenue under this head, as compared with the original budget, is ascribed to the raising of the rate of cess from nine pies to one anna, and to the transfer to Road-cess of Rs. 16,950 erroneously credited to Land Revenue in previous years. Excluding the latter sum, the actual collections would appear to have amounted to Rs. 1,07,310 against a demand, current and arrears, of Rs. 1,36,960, leaving a balance uncollected at the close of the year of Rs. 29,650, or 21·6 per cent. of the demand. In consideration of the comparative paucity of funds under the General Fund, the Board's proposal to transfer to it the receipts from Fisheries, amounting to Rs. 8,000, is sanctioned. In other respects the Board's review of the revised budget for 1882-83 is approved.

3. *Budget Estimate for* 1883-84.—With reference to Board's Proceedings, dated 31st May 1883, No. 1511, the estimate of receipts from Land-cess will be raised to

Rs. 1,20,000 representing 86 per cent. of the demand, and those from Pound Fund reduced to Rs. 440. The necessary alterations have accordingly been made in the abstract at the head of these Proceedings. Statements of the demand, collection, and balance under Land-cess have been furnished with the Regular and Budget Estimates, but not in the form of foot-notes as required in paragraph 3 of G.O., dated 22nd July 1882, No. 754. The course therein prescribed should be followed in future. Under Charges, the allotments for Public Works appear to have been judiciously made, but the cost of the Engineering establishment is excessive and must be reduced without delay. From the detailed statement of charges on account of Engineering establishment, the explanation contained in paragraph 18 of the enclosure to the President's letter would appear to be inaccurate, as well as barely intelligible, no provision being made in the statement for any charges outstanding from a previous year. In any case it is not easy to see why, if the Engineer and Overseer had omitted to draw their pay in the beginning of 1882-83, they should not have drawn it when the regular estimate was submitted. The President will explain what was meant. The provision for Tools and Plant, calculated at $1\frac{1}{2}$ per cent. on the Public Works expenditure, should be Rs. 810, and the Road Fund share of it Rs. 780, and not Rs. 1,350 and Rs. 1,300 as shown in Statements I-B. and II. No provision has been made for refund of famine debt, but, in view of the present improved position of the circle, the opening balance exceeding the budget by Rs. 7,130 and the Land-cess estimate being raised by Rs. 20,000, the Government are inclined to think that a sum of Rs. 10,000 may be allotted for this purpose. The Board of Revenue will report on the subject.

4. As regards education, the assignment now made will be allowed to stand, pending the receipt of the further information called for in Board's Proceedings, dated 12th June 1883, No. 1711. In regard to other items, the revision of the Board being complete is accepted.

5. With these remarks the Right Honorable the Governor in Council passes the Local Fund Budget of the Dindigul Circle for 1883-84.

(True Extract.)

(Signed) C. BOWEN, Major, R.E.,

" President, Municipal Commissions, Madura District.

RESOLUTION—dated 9th August 1883, No. 2304.

The Local Fund Budget Estimate of the Dindigul Circle for 1883-84 is herewith circulated to all officers concerned.

2. *Paragraph 3 of the Government Order.*—The President is requested to report at an early date on the Order of Government directing a reduction in the Local Fund Engineering Establishment. With reference to the remarks on the reason alleged by the President for the increase in the cost of the Engineering Establishment as compared with the provision in the revised budget for 1882-83, it is observed that the assignment for the purpose in the original budget of 1882-83 is the same as that now entered in the current year's budget, viz., Rs. 14,430. But in the revised budget, owing to savings caused by the non-appointment of a separate Engineer during the first six months of 1882-83 and by the suspension of an Overseer, the allotment was reduced to Rs. 12,260, that is Rs. 2,170 less than the original provision. This is clearly

explained in the remark column of the revised budget. As such savings will not in all probability occur in the current year, the full cost of the Engineering Establishment, viz., Rs. 14,430 is provided in the budget. This was the meaning the Board attached to paragraph 18 of the enclosure to the President's letter, printed in Board's Proceedings, dated 29th January 1883, No. 228. The paragraph is not properly worded, and the President will report whether he has been correctly understood. As regards the provision for tools and plant, the Board have already, in paragraph 8 of their review of the budget, remarked that the provision on this account should on the average be about 1½ per cent.; but they did not alter the Circle Board's figure which they understood was based on the requirements of the circle. Funds being now available, the Board see no objection to the sum of Rs. 10,000 being set apart to meet the famine debt. The amount has been accordingly entered as a charge in the budget.

3. *Paragraph 4 of the Government Order.*—The further information called for by the Board has since been received from the President and the Director of Public Instruction, and submitted to Government with Board's Proceedings, dated 26th July and 2nd August 1883, Nos. 2140 and 2225.

APPENDIX.

1.—Budget Estimate of the Local Funds of the Dindigul Circle, Madura District, for the Official Year 1883-84.

Circulating to all officers concerned the *Local Fund Budget Estimate of the Dindigul Circle*, in Madura District, for 1883-84.

S. E. 6th Circle
Exam. Pub. Accts

PROCEEDINGS OF THE BOARD OF REVENUE.

Read—the following letter from C. S. CROLE, Esq., President, Local Fund Boards, Madura, to the Secretary to the Board of Revenue, dated 27th October 1883, No. 81 :—

1. Regular Estimate.
2. Budget Estimate.
3. Explanatory Memorandum.
4. Local Fund Board's Proceedings.

I have the honor to submit the Budget Estimates of Receipts and Charges of the Dindigul Circle, for the official year 1884-85, and to offer the following remarks :—

2. Regular Estimate for 1883-84—*Statement I-A, Revenues and Receipts.*—The contribution from Pound Funds is expected to exceed the budget, for the same reasons as those given for the increase in the Madura Circle. The amount credited up to end of August last was Rs. 546 against Rs. 440 in the budget.

3. Land-cess collections are estimated at Rs. 1,00,000 against Rs. 1,20,000 in the budget. The actual arrears at the close of the last official year amounted to Rs. 8,600 against an estimate of Rs 15,000 in the budget. Again, of this sum of Rs. 8,600, it is reported that Rs. 3,362 are irrecoverable. The arrear demand of the year should, therefore, be taken to be Rs. 5,238. The current demand calculated at the rate of one anna per rupee of assessment amounts to Rs. 1,04,000. Thus, the total demand, arrears and current, will be Rs. 1,09,238. The collections are estimated to be Rs. 1,00,000 or 91 per cent.

4. The other items of receipts have been sufficiently explained by the Vice-President.

5. *Statement I-B, Expenditure.*—The budget allotment under all the heads will be utilized as also the subsequent appropriations.

6. The expenditure on account of the unendowed chuttrams at Periyakulam and Shembaganur has been erroneously debited to the Endowment Fund. It should be charged to the General Fund. The closing balances will have to be altered accordingly.

7. The current year will close with a balance of Rs. 18,798 as shown below :—

	Rs.
Road Fund	9,832
Endowment Fund	4,156
General Fund	4,810
Total ..	18,798

8. Of the Road Fund Balance of Rs. 9,832, the Local Fund Board have allotted a sum of Rs. 9,000 for repairs of roads most necessarily required. Hence there is only a sum of Rs. 832 to be taken to the Road Fund Budget for 1884-85.

9. Budget for 1884-85—*Statement I-A, Revenues and Receipts.*—The opening balance for the budget of the ensuing year will be Rs. 9,800 in round numbers.

10. With reference to paragraph 10 of my letter, No. 72, dated 30th September 1883, the contribution from Pound Funds for 1884-85 may be expected to be Rs. 860. The budget estimate of Rs. 800 may therefore stand as entered by the Circle Board.

11. The current demand of land-cess is estimated with reference to the regular estimate for the current year (*vide* paragraph 3 *supra*). The collections from this are estimated to be Rs. 92,000 or 88 per cent. The arrear demand excluding the irrecoverable portion amounts to Rs. 9,238, and it is expected that Rs. 8,000 will be recovered, which is 87 per cent. The budget estimate under this head is therefore correct.

12. The annual contribution of Rs. 240, being the moiety of the cost of maintaining a Minor Dispensary at Vallanadi has been sanctioned by the Court of Wards in

their Proceedings, Mis. No. 8585, dated 16th October 1883. This is erroneously shown under "6, Receipts from Endowments, &c." itstead of under "7, Miscellaneous."

13. The other items of receipts do not call for special mention.

14. The total receipts, including balance, amount to Rs. 1,43,830. This should be distributed among the minor funds as shown in the margin, the distribution made by the Circle Board being incorrect owing to their having evidently misunderstood the Proceedings of the Board of Revenue, dated 22nd August 1883, No. 2466, which is not applicable to the circle. The receipts from fisheries may be credited to General Funds, under G.O., No. 1519, dated 17th July 1883, Financial Department, but not the contribution from Pound Fund.

	Rs.
Road Fund	82,180
General Fund	52,190
Endowment Fund	9,460
Total ..	1,43,830

15. *Statement I-B, Expenditure.*—The expenditure under Grant I, Public Works, has been estimated with reference to the actual requirements and does not appear to call for any special notice. The cost of the Local Fund Engineering establishments and contingencies amounts to Rs. 13,830, which is 24 per cent. of the proposed outlay on works, or 20 per cent. when the unallotted reserve is also taken into account. As regards the construction of Road No. 5, Madura to Allinagaram, provided for in the budget, I have to remark that the road is in a bad condition and is engaging my attention.

16. *Grant II, Education.*—The provision under this head for "Inspection" has, in my opinion, been made without mature consideration. The change proposed to be introduced in the scale of pay of the Inspecting Schoolmasters is new and tends to affect the system hitherto in force. The views of the Deputy Inspector alone will not suffice. There are at present three Inspecting Schoolmasters as detailed in the margin at a monthly cost of Rs. 95. In paragraph 40 of the Vice-President's memorandum, it is stated that provision is made for four Inspecting Schoolmasters on a salary of Rs. 17½ each per mensem for the ensuing year, instead of the two on Rs. 35. The existence of a third man on Rs. 25 is apparently ignored. At any rate, the matter requires reconsideration and this portion of the budget will, therefore, have to be modified.

Two on Rs. 35 each.
One on Rs. 25.

17. *Grant III, Sanitation and Medical Services, &c.*—The provision for Hospitals and Dispensaries is made with reference to actual requirements. Some of the Medical Subordinates earned their salaries and allowances at increased rates for a portion of the current official year, while provision is made in the budget at increased rates for the whole of the next official year. The provision for the minor dispensary at Thangachiammapatti in the budget of 1884-85 falls short of the current year's allotment, because it is intended to put in charge of the dispensary, during the next year, an Hospital Assistant who is not entitled to pay at increased rate, while the budget of the current year provides for one entitled to the same. Again, the difference between the current and the ensuing year's provision for the pay of the two passed Hospital Assistants employed as Sanitary Inspectors, &c., is due to the fact that the next year's budget provides for their pay for the whole year, while the current year's provision is for only eight months.

18. The provision for Contribution to Provincial Services on account of Madras Medical College and Vaccine Inspecting Agency should be calculated at ·5 per cent. of receipts, and it should accordingly be entered at Rs. 670 for each item.

19. The total expenditure under "Choultries Establishments" does not tally with the details in Statement No. IV, as the expenditure on account of the two unendowed choultries at Periyakulam and Shembaganur has been included under "Choultries Establishments" in Statement I-B.

20. A sum of Rs. 360 has been provided for "Travelling Allowance to Zillah Surgeon." This is no longer necessary under G.O., No. 391, dated 22nd February 1883, Public Department. It may therefore be struck off.

21. *Sanitation.*—Provision is made, so far as funds permit, for the improvement of village-sites, &c. The Circle Board promises to provide for "water-supply" from the General Reserve as applications are received. The total allotment proposed for sanitation is nearly 18 per cent. of the General Fund Assets.

22. The other items of expenditure do not call for special remarks.

23. The Road Fund Reserve has been fully provided.

24. The General Reserve will have to be reduced with reference to paragraphs 12, 16 and 18 *supra*.

25. The Vice-President has been requested to submit the statement showing the detail of establishments in the prescribed form, as also the list of appropriations, and they will be forwarded as soon as they are received.

ENCLOSURE.

Explanatory Memorandum.

REGULAR ESTIMATE OF 1883-84.—*Receipts—Opening Balance.*—The final audit of the accounts of 1882-83 showed a closing balance of Rs. 30,152, as particularized below :—

	Rs.
Road Fund	19,483
Endowment Fund	2,998
General Fund	7,671
Total ...	30,152

These balances are carried forward to the regular estimate of 1883-84.

2. *Surplus Pound Fund.*—The contribution under this head amounted to Rs. 546-14-6 during the first five months of the official year, and about Rs. 253-1-6 are expected to be realized during the remaining months. The total would thus come to Rs. 800 or about Rs. 360 more than the budget estimate. On consideration of the collections of the three previous years and those of the first five months of this year, this excess over the budget estimate may, I think, fairly be expected. Further, this was the sum entered in the manuscript budget first submitted, but the Revenue Board in their review of the same reduced it to Rs. 440, so as to make this item correspond with that in the Special Fund Budget.

3. *Land-cess.*—From the statement furnished by the Treasury Deputy Collector, it will be observed that Rs. 98,621 may be expected to be realised under this head, against Rs. 1,20,000 entered in the budget. The collections for the first five months of the year amount to Rs. 41,218-5-4, and Rs. 58,781-10-8 may fairly be expected to be collected during the remaining months of this year, when we take into account the actuals of the last seven months of the previous year which were about 73,000. Further, the Deputy Collector's estimate for 1884-85 shows a total of Rs. 1,00,000. Hence, a similar amount may be counted on this year also. The receipts have been over-estimated in this year's budget.

4. The Demand, Collection and Balance Statement is given below :—

Particulars.	Demand.	Actual Collections of the first five Months of 1883-84.	Probable Collections during the last seven Months of 1883-84.	Total Collections.	Balance.	Remarks.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	
Arrears	8,600	3,701	1,537	5,238	3,362	
Current	1,04,000	37,517	57,245	94,762	9,238	
Total ..	1,12,600	41,218	58,782	1,00,000	12,600	

5. *Tolls.*—The increase of Rs. 9,500 over the budget estimate is attributable to the fact that the collections of the four * toll-gates newly established in the circle since April last were not taken into credit when the circle budget of the current year was submitted, the Government having sanctioned the entertainment of these gates only in February last.

* 1. Batlagundu.
2. Pulkanuth.
3. Adalur.
4. Shembaganur.

6. *Contributions—Dindigul Municipality for Educational Inspection.*—No credit is taken under this head as the Municipal Commissioners have already employed an Inspecting Schoolmaster of their own.

7. *Receipts from Endowments—Markets.*—The credit under this head shows an excess of Rs. 500 over the budget estimate This is due to the fact that the receipts of the new five * markets recently sanctioned were not taken into account when the budget was first framed.

* 1. Chinnammanúr.
2. Uttamapálaiyam.
3. Cumbum.
4. Tevaram.
5. Gandamanáyakanúr.

8. "7, *Miscellaneous*"—(*g*) *Contributions.*—The same remark applies to the excess under this head over the budget estimate. Three† new Sanitary Associations in the towns as per margin have recently been started. The Presidents of these estimate the collections from the ryots at Rs. 1,200. Hence the increase.

† 1. Cumbum
2. Uttamapálaiyam.
3. Tirumangalam.

9. The other items of receipts do not call for notice as the figures in the printed budget are expected to be collected.

10. The total receipts including the opening balance and those entered for purposes of adjustment, *i.e.*, "Engineer's Cheques," are expected to come to Rs. 1,77,030 against 1,74,030 in the budget and are distributed as under :—

	Rs.
Road Fund	1,13,804
Endowment Fund	7,898
General Fund	55,328
Total ...	1,77,030

11. *Expenditure—Grant I, Public Works.*—The budget allotments under new works and repairs are expected to be fully spent.

12. (*c*) *Establishment—Local Fund Engineer's Office.*—The debit under this head shows a decrease of Rs. 300 as compared with the entry in the current year's budget. This is attributable to the fact that Mr. Hardy, the permanent Engineer, took leave for three months on medical certificate. He is entitled to half-pay, *i.e.*, Rs. 200 per mensem, and his "*locum tenens*" is only entitled to Rs. 100 under the rules, making a total of Rs. 300 out of Rs. 400, the total of Engineer's monthly salary budgetted. Hence this saving for three months comes to Rs. 300.

13. (*d*) *Establishment on Tolls* —The sum of Rs. 1400 sanctioned for the new four toll-gates in Revenue Board's Proceedings, No. 3183 dated 16th April 1883, is debited under this head. Hence the increase on the budget grant.

14. *Grants II, III, IV.*—The budget allotments are expected to be fully spent under these heads, except in the case of those noted below :—

15. *Grant II—Payment for Inspection.*—The debit under this head shows a decrease of Rs. 450 as compared with the budget, due to the non-entertainment of the fourth Inspecting Schoolmaster in the circle, on account of the Director's proposal to appoint an additional Deputy inspector, in which case the fourth Inspecting Schoolmaster will be unnecessary.

16. *Grant III—Market.*—The outlay on five new weekly markets was not taken to account when the budget was framed, and hence the increase to the budget estimate under this head.

17. The total expenditure under the four grants is expected to be Rs. 1,58,232, which is distributed as under :—

	Rs.
Road Fund	1,03,972
Endowment Fund	3,850
General Fund	50,410
Total ...	1,58,232

18. This would result in the year closing with a balance of Rs. 18,798, as detailed below :—

	Rs.
Road Fund	9,832
Endowment Fund	4,048
General Fund	4,918
Total ...	18,798

19. The Road Fund closes with a credit balance of Rs. 9,832; from this, a sum of Rs. 9,000 will be reserved for further allotment toward's certain important road works, as the road fund reserve has been fully allotted. On consideration of the heavy balance shown in the printed budget, the President suggested that a supplemental budget should be prepared in view to the utilisation of this on important and emergent road works, for which estimates had been submitted by the Engineer, but execution of which was deferred owing to want of funds. Taking into account the present bad state of some of the roads, the Circle Board allotted about Rs. 7,000 in their September meeting from this balance. Hence, deducting this Rs. 9,000 from the Road Fund Balance, the remainder will be carried forward to the budget of 1884-85.

20. *Budget of* 1884-85.—*Receipts Balances.*—The opening balance will be Rs. 9,800 as shown below :—

	Rs.	Or in round numbers. Rs.
Road Fund	832	830
Endowment Fund	4,048	4,050
General Fund	4,918	4,920
	9,798	9,800

21. *Special Funds—Surplus Pound Fund.*—A sum of Rs. 800 is expected to be realised during the next official year. This is calculated with reference to the actuals of the previous years.

22 *Fish-rent.*—Rs. 7,000 is expected under this head. This is also estimated with reference to the actuals of the previous years.

23. *Land-cess.*—Land-cess is expected to yield Rs. 1,00,000 as shown in the regular estimate of the current year. The Demand, Collection and Balance Statement is given below :—

—	Demand.	Collections.	Balance.
	Rs.	Rs.	Rs.
Current	1,04,000	92,000	12,000
Arrears	12,600	8,000	4,600
Total ...	1,16,600	1,00,000	16,600

The percentage of total collections to the entire demand is about 86.

24. *Tolls.*—Rs. 13,670 is credited, of which Rs. 12,000 are receipts from Local Fund tolls, and the balance is the contribution from the Dindigul Municipality during the next official year. The former is made up as fallows :—

		Rs.
(1)	Toll-gate a Andiputty	3,500
(2)	,, Batlagundu	4,500
(3)	,, Palakanuthu	3,000
(4)	,, Shembaganur	500
(5)	,, Audalore	500
	Total ...	12,000

25. *Receipts from Endowments.*—Rs. 3,300 under *choultries* and Rs. 2,000 under *markets* are expected to be realised. These are estimated with reference to the actuals of the previous years. The sum of Rs. 240 under "*miscellaneous*" is the contribution promised by the Manager of Gandamanáyakanúr Estate towards the upkeep of a Branch Minor Dispensary at Vallanady, being a moiety of the total cost of a Minor Dispensary per annum.

26. *Sale-proceeds of Books.*—A sum of Rs. 500 against Rs. 400 in the current year's budget is credited under this head. When an additional Deputy Inspector is appointed, there will probably be an excess in the number of schools and an increased demand for books is anticipated.

27. *Contributions for Works.*—Rs. 4,000 is expected to be realised. This is made up as follows:—

		Rs.
(1)	Collections from the Sanitary Association, Periyakulam ...	1,550
(2)	Do. do. do. Palni ...	500
(3)	Do. do. do. Cumbum ...	1,000
(4)	Do. do. do. Uttamapálaiyam ...	500
(5)	Do. do. do. Tirumangalam	400
(6	Contribution from the Zemindar of Porayúr for half the cost of scavengering establishment.	50
	Total ...	4,000

28. *Avenues.*—A sum of Rs. 1,500 is expected to be realised from the sale-proceeds of loppings and produce of avenues during the next official year.

29. The other items of receipts do not call for any special notice, as they have all been estimated with reference to the actuals of the previous years.

30. Thus, the total receipts, including balance, are estimated at Rs. 1,43,830 which is distributed as under:—

	Rs.
Road Fund	81,380
Endowment Fund	9,350
General Fund	53,100
Total ...	1,43,830

The receipts of Fisheries and Pound Fund are credited under General Fund as per Revenue Board's Proceedings, No. 2466, dated 22nd August 1883.

31. *Grant I, Public Works.*—A sum of Rs. 6,540 is provided under *New Works, Communications*, for construction of Road No. 5, Checkanuruny to Allinagaram. This is one of the most important roads, for the construction of which a sum of Rs. 98,580 was sanctioned in G.O., No. 664 W., dated 16th March 1882. A sum of Rs. 64,752 has been already spent on the road, including Rs. 3,000 provided for the work during the current year. The Engineer has submitted an estimate for Rs. 10,000 for this work, which, however, could not be granted owing to want of funds.

32. *Repairs, Communications.*—Rs. 50,320 against an estimate of Rs. 47,920 is provided under this head. The excess is due to the fact that some of the roads which were constructed during the famine in 1877 were not brought under maintenance at all ever since that time. The ryots of the villages adjacent to these roads presented a mahazarnamah requesting that these roads might be kept up, and this was referred to the Circle Engineer whose recommendation has been adopted. The particulars of excess are as under:—

		Rs.
(1)	Railway feeder at Kalligudy	150
(2)	Road from Dindigul to Palni	150
(3)	Do. Uppiliaputty to Vedasundur	228
(4)	Do. Valamputty to Appianputty, 9 miles at Rs. 100 ...	900
(5)	Do. Kallimandayum to Kutbumpundy, 6 miles at Rs. 75 ...	450
(6)	Do. do. to Kondarangi Keeranur, 3 miles at Rs. 75.	225
(7)	Do. Kongaputty to Kallimandayum, 4 miles at Rs. 75 ...	300
	Total ...	2,403

No. 1 is the feeder constructed by the Local Fund Board in 1881-82 as desired by the Revenue Board. No. 3 is already provided for in the current year's budget. The extent of the line is 13 miles, of which 10 miles only have been brought under maintenance. Hence the excess provision for the remaining 3 miles at Rs. 76 per mile as in the budget of the current year. No. 2 is one of the most important roads in the circle. Its length has been found to be thirty-six miles, whilst provision for maintenance has been made for only thirty-five miles. Hence the excess on this road for 1 (one) mile.

33. The Engineer has submitted his estimates for Rs. 65,867-8-0, or an increase of Rs. 17,947-8-0 over the budget estimate of 1883-84, for maintenance of all roads, and represents that the amount entered in his estimate is "absolutely necessary to keep the roads in fair order." The Board regret, however, that the funds at their disposal do not admit of their complying with the Engineer's demand in its entirety. Statement No. II A, Part II, gives the particulars of allotment for the several roads in the circle.

34. *Avenues.*—Rs. 1,370 only can be provided under this head against the Engineer's estimate of Rs. 3,000, owing to the same reason as noted in the concluding portion of the preceding paragraph.

35. *Local Fund Engineer's Establishment.*—The cost of Local Fund Engineer's Establishment is estimated at Rs. 13,830. The Establishment stands the same as in the current year, but the decrease of the estimated amount as compared with the Budget Grant of 1883-84 by Rs. 600 is due to the decrease in the daily allowance of the Engineer from Rs. 5 to 4 in accordance with the rules in the new Travelling Code, and to the reduction of the Engineer's Head Clerk's pay from Rs. 50 to 30.

36. *Establishment on Tolls.*—No allotment is made under this head as the Board have resolved to lease out the right of collecting the tolls during the next year.

37. *Tools and Plant.*—The debit under this head is calculated at 1½ per cent. on expenditure on works, under Section 220 of the Draft Local Fund Code. The Engineer submitted a request that this might be increased to 3 per cent. as a special case, as the present tools and plant were old and worn out, but the Board considered it better to adhere to the precentage laid down in the Draft Code, and, if it were subsequently found that a special grant was required, special application for funds should be made.

38. *Road Fund Reserve.*—This is calculated at 10 per cent. of the total assets of Road Fund.

39. Thus Grant I is:—

	Rs
Road Fund	79,680
General Fund	1,390
Total ...	81,070

40. *Grant II, Education—Payment for Inspection.*—The outlay under this head shows a decrease of Rs. 820 as compared with the budget grant of the current year. The Board has resolved to entertain four Inspecting Schoolmasters on Rs. 17½ each, instead of two on Rs. 35, at the suggestion of the Deputy Inspector of Schools, *i.e.*, two for each of the Deputy Inspectors (including the one proposed to be entertained) and batta at annas 4 per diem, in accordance with the new Travelling Allowance rules has been provided for these.

41. *Local Fund Schools.*—No debit is entered under this head as the Board has unanimously resolved to abolish the combined system schools from the beginning of next official year. The Board has repeatedly considered the question of continuing these schools, and has, as I said, unanimously come to the conclusion that "the principle is unsound and ineffective" and is unwilling to continue the schools after the expiry of the current year.

42. *Results Grant.*—The allotment under this head may be expected to increase when an additional Deputy Inspector is appointed. Hence Rs. 9000 is entered.

43. *Provincial Service—Contribution.*—Rs. 750 is provided being the contribution towards the entertainment of an additional Deputy Inspector of Schools sanctioned in G.O., No. 1757, dated 15th August 1883. This is simply a moiety of the Deputy Inspector's pay, and it being understood that the remaining half will be met from Provincial Funds. A further sum of Rs. 1,000 is provided as contribution towards the upkeep of the Madura Normal School recently established. The Madura Circle Budget has been framed in anticipation of this contribution.

44. *Commission on Sale of Books.*—Rs. 75 is debited under this head, being 15 per cent. of the outlay on purchase of books.

Thus, the total allotment under this Grant II amounts to Rs. 12,610.

45. *Grant III—Salaries of Medical Subordinates.*—A sum of Rs. 825 against Rs. 600 in the current year's budget is entered against Periyakulam Dispensary. This increase is on account of a charge allowance of Rs. 25 to be paid to the present Civil Apothecary, who will be entitled to it from the 1st July 1884. The entry of Rs. 900 against Rs. 825 under Kodaikánal is attributable to the fact that the Apothecary at that place will have to draw his charge allowance of Rs. 25 per mensem throughout the whole year, whereas in 1883-84 he commenced to draw it from 1st July only; hence the increase; similarly, the Medical Subordinates of the Minor Dispensaries * are entitled each to Rs. 20 per mensem during the whole year. Provision for the whole year is also made for the two Minor Dispensaries at Kannivadi and Vallanady sanctioned by the Circle Board at their August meeting. Rs. 180 against Rs. 205 are provided against Thangachimmaputty. This is explainable by the fact that provision for a Hospital Assistant on Rs. 15 per mensem is made for the whole year. The same remarks apply to the excess provision of Rs. 360 against Rs. 240 for two passed pupils as village Sanitary Inspectors. These changes result in an excess of the provision under head over the budget grant of the current year.

* 1. Tirumangalam. 2. Bodináyakanúr. 3. Batlagundu. 4. Vedasundur.

46. *Clerks and Servants.*—Rs. 2,100 against Rs. 2,000 is debited under this head. The excess is due to the provision made for servants in Kannivady and Vallanady Dispensaries. The

pay of Kodaikánal compounder has been raised to Rs. 12 as a special case, on account of the difficulty experienced in procuring a competent man to proceed to the hills on the present pay; viz., Rs. 10, and the increased cost of clothing and living there.

47. *Medicines and Apparatus.*—The increase of Rs. 100 against Periyakulam is owing to a second-class indent having been sanctioned for this dispensary by the Revenue Board. Provision for the two Minor Dispensaries of Kannivady and Vallanady under this head and sundries necessitates an increase in the allotment. Details of these charges are given in Statement No. IV.

48. *Vaccination.*—A sum of Rs. 4,830 against Rs. 5,040 in the current year is debited under this head. As per estimate of the District Sanitary Officer, batta to the Deputy Inspector is entered as 8 annas per diem, against Re. 1 (one) in the current year's budget. Owing to want of funds, batta to vaccinators has been struck out in this as in the two previous years. Details of the outlay under this head are given in Statement No. 7.

49. *Sanitation.*—This item shows an increase of Rs. 1,250 over the grant of the current year. Voluntary contributions from ryots having been entered as Rs. 4,000 under the head of receipts; the refund of this sum with an equal amount as Local Fund contribution comes to Rs. 8,000. The remaining sum of Rs. 1,250 against Rs. 4,000 in the current year are allotted to miscellaneous sanitary charges. Owing to want of funds, no provision has been made for water-supply, but the Board have resolved to meet this charge from General Reserve as applications are received. Statement No. IV-B shows details of the whole outlay under this head.

50. *Bungalows and Choultries.*—The current year's grant is repeated for the next. Hence no remark.

51. *Markets.*—The debit under this item shows an increase of Rs. 510 over the current year's grant due to provision being made for establishment and contingencies for the existing markets in the circle, a detail of which is given in Statement No. IV. The pay of the market gumastah and peon at Nelacottah has been increased from Rs. 7 and 4 to Rs. 8 and 5 respectively, and an additional peon on Rs. 5 has also been provided; the Deputy Tahsildar of Nelacottah represented the necessity of this increase to the staff, as also that, with the increased staff, higher collections could be made. The increase has been duly sanctioned by the Circle Board.

52. *Contribution.*—The amount of the proportion to be contributed by this circle to the Madras Medical College and Sanitary Inspection not having been as yet advised by the Treasury Deputy Collector, the current year's grant is repeated.

53. *Municipalities, &c.*—Rs. 610 debited under this head is made up as follows:—

	RS.
1. Contribution to the Madura Municipality for the cost of dieting and lying-in charges of patients of this circle treated in the Madura Civil Dispensary as sanctioned by Government	400
2. Contribution to the Madura Circle, being moiety of the cost of the District Medical and Sanitary Officer's establishment excluding the portion of the writer's pay borne by the Madura Municipality	210
Total ...	610

54. *Other.*—The current year's grant as contribution to Dr. Chester's Dispensary at Dindigul is repeated for the next, and amounts to Rs. 1,850, which is provided under this head.

55. (*h*) *Miscellaneous—Medical Class at Dindigul.*—The debit under this head is arrived at on the following basis:—

	RS.
Ten students in the senior class at Rs. 7 each	840
Ten students in the middle class at Rs. 6 each	720
Ten students in the junior class at Rs. 5 each	600
Eight passed students attending for a year's residence in larger hospitals for hospital practice, at Rs. 8 each per mensem	768
Teaching allowance of the Assistant Superintendent at Rs. 75 per mensem	900
Pay of the Native Assistant at Rs. 20 per mensem who has completed a three years' course	240
Travelling expenses of medical students going to Madras for final examination	160
Other contingencies	240
Total ...	4,468

Two-fifths of this sum is Rs. 1,787 or 1,790 in round numbers.

56. Rs. 100 against Rs. 80 in the current year is allotted for transit charges of medicines for minor dispensaries, as there will probably be an excess outlay on account of the two minor dispensaries added to the circle.

57. The other items of this grant need no special remarks, as the grant of the current year is repeated for the next. The same remark applies to the outlay under Grant IV.

58. Thus Grant III is—

	RS.
Endowment Fund	4,020
General Fund	32,690
Total ...	36,710

and Grant IV is—

	RS.
Road Fund...	1,680
General Fund	1,100
Total ...	2,780

59. *General Reserve.*—This is calculated at 10 per cent. of the total assets of the General Fund as usual.

60. *Balances.*—The budget thus closes with no balances under Road and General Funds, and with Rs. 5,350 in favor of Endowment Fund.

READ—the following letter from Surgeon A. J. STURMER, Secretary to the Surgeon-General with the Government of Madras, to the Secretary to the Board of Revenue, dated 6th December 1883, No. 6224:—

I have the honor, by desire of the Surgeon-General, to report to your Board that the sum set apart in Grant III of the 1884-85 Local Fund Budget Estimate of the Dindigul Circle for the maintenance of the dispensaries is adequate and calls for no remarks save in the items of "Medical Subordinate" and "Provincial Contribution."

2. The pay of a Civil Apothecary, viz., Rs. 600, is provided for the Uttamapálaiyam dispensary, but the medical subordinate now in charge is a First-class Hospital Assistant whose pay and allowance amount to Rs. 780 per annum. A man of the former grade will be available in July next.

3. *Contribution, Provincial.*—In paragraph 18 of the President's letter to your Board, it is stated that contribution "on account of Madras Medical College and Vaccine Inspecting Agency should be calculated at 0·5 per cent. of receipts, and it should accordingly be entered at Rs. 670 for each item;" but the figure shown in expenditure statement is Rs. 620.

No. 81, of 27th October 1883.

4. The entry "Vaccine Inspecting Agency" in the body of the budget remarks and in the expenditure statement should be altered to "Sanitary Inspection."

READ—the following letter from Deputy Surgeon-General M. C. FURNELL, M.D., F.R.C.S., Sanitary Commissioner for Madras, to the Secretary to the Board of Revenue, dated 14th December 1883, No. 1563:—

I have the honor to report, for the information of the Board of Revenue, that the sanitary provision made by the Dindigul Local Fund Board for the year 1884-85 amounts to Rs. 9,250, or 27·7 per cent. of available income. This is an improvement

over the grant for the current year by Rs. 1,250 and may be accepted. It is proposed to distribute the grant as follows :—

	Rs.
Conservancy	650
Improvement of Village-sites	400
Contribution to Sanitary Associations	7,900
Fairs and festivals	300
Total ...	9,250

The vaccination grant amounts to Rs. 4,830 against Rs. 5,040 for the current year. The allotment is made on the estimate framed by the District Medical and Sanitary Officer. The decrease is owing principally to the Deputy Inspector's batta having been reduced from 1 rupee to 8 annas a day according to the Travelling Allowance Code. Owing to want of funds, I observe that the batta to vaccinators has been disallowed this year also, which is very much to be regretted.

The additional Deputy Inspector of Vaccination sanctioned for the district appears to have been lost sight of, as no provision has been made to meet the cost that would thus arise.

The present second-class appointment in the circle will be made a first-class one, and also the Local Board may have to meet part of the salary of the new Second-class Deputy, if his duties extend to any portion of the circle by a re-arrangement of the present vaccine ranges. Some provision should therefore be made to meet these changes.

RESOLUTION—dated 11th January 1884, No. 69.

The Local Fund Budget Estimate of the Dindigul Circle for 1884-85 is herewith submitted for the orders of Government.

REGULAR ESTIMATE FOR 1883-84.

2. *Statement I-A—Revenue and Receipts.*—The President's opening balance is larger than that recently communicated by the Accountant-General by Rs. 469. The latter, which is as follows, will be adopted :—

	Rs.
Road Fund	19,014
Endowment Fund	2,998
General Fund	7,671
Total ...	29,683

The differences between these and the balances anticipated in the budget are small and call for no remark. The Pound Fund contribution will be reduced to Rs. 700, so that the sum of the entries under this head in the regular estimates of the two circles of the district may tally with the amount provided for the whole district in the Special Funds regular estimate. The collections from Land-cess are expected to amount to Rs. 1,00,000, against Rs. 1,20,000 entered in the budget. This is due to the total demand being taken at Rs. 1,12,600 instead of Rs. 1,25,000 adopted in the budget. The instructions in paragraph 3 of G.O., dated 10th June 1882, No. 449, that the Demand, Collection and Balance of Land-cess should be shown at the foot of the Receipt statement have not been observed. In paragraph 3 of his letter, the President states that the actual arrear demand at the close of 1882-83 amounted to Rs. 8,600, while, according to the revised Demand, Collection and Balance Statement furnished by him in July last and printed at page 22 of Board's Proceedings, dated 15th November 1883, No. 3465, it is Rs. 27,558. The current demand also is assumed to be Rs. 1,04,000, against Rs. 1,10,000 adopted in the budget. The ascertained demand of the year 1881-82, when the nine-pies rate was in force, being Rs. 87,495, the probable demand at the one-anna rate which is now in force should be Rs. 1,16,000. The President is requested to explain the reasons for fixing the current demand at so low an amount as Rs. 1,04,000. Pending further report, the Circle Board's estimate will be retained. In regard to the sum of Rs. 3,362, stated to be

irrecoverable, the Board await the report called for in paragraph 3 of the Board's Proceedings, dated 15th November 1883, No. 3465. The receipts from Tolls are estimated at Rs. 14,670, against Rs. 5,170 in the budget. The increase is expected from the four new toll-gates sanctioned in G.O., dated 27th December 1882, No. 2051, Miscellaneous. Rs. 12,081 are entered under the head Local Fund Engineer's Cheques. The amount will be struck out, as such items of suspense account should not appear in the budget and regular estimates. The other items do not call for special notice. The assets of the minor funds are—

	Rs
Road Fund	1,01,159
Endowment Fund	7,898
General Fund	55,324
Total ..	1,64,381

3. *Statement I-B—Expenditure.*—The lists of the establishments and of subsequent allotments promised in the concluding paragraph of the President's letter have not yet been received, and the allotments sanctioned subsequent to the budget have not been included under the proper heads in Column 5 of the regular estimate, a copy of which, as amended by the Board, will be furnished to the President for information. Under "New Works—Communications," Rs. 4,527 have been sanctioned by the Board in excess of the budget; and of this amount, Rs. 3,000 were for the construction of the road from Checkanoorany to Allinagaram, Rs. 1,012 for building certain tunnels and road-dams on the Periyakulam-Gúdalúr road, and the remainder for miscellaneous works especially the erection of toll-houses and bars. The estimated cost of the first mentioned work is Rs. 98,580, and up to the close of last year Rs. 61,752 have been spent on it. For the repair of Communications, the Board have provided Rs. 60,568, the major portion of the excess over the budget having been allotted for special repairs to the roads from Dindigul to Karúr and Aravakurichi, and for re-metalling the worst portions of the road from Dindigul to Palni. Rs. 2,411 are set apart for Civil Buildings—Rs. 1,077 under New Works, and Rs. 1,334 under Repairs. The former is for the construction of the medical officer's quarters and some sheds at the Uttamapálaiyam dispensary, and of a dispensary building at Usilamputty. Rs. 1,900 are provided for Tolls establishment, that is, Rs. 1,400 in excess of the budget. The latter amount was sanctioned by the Board for the four new toll-gates. The whole of the Road Fund Reserve having been allotted, it will be struck out of the regular estimate. Rs. 150 will be added to Grant II on account of the stipend of a student sent to the Agricultural College, and the additional allotments sanctioned under Vaccination and Sanitation will be added to the entries against those heads. No provision has been made by the Vice-President for this circle's share of the teaching allowance of Rs. 75 a month, payable from Local Funds in the current year, to the Assistant Apothecary attached to the Dindigul Medical School. Rs. 360 are sanctioned for the purpose from the General Reserve, and added to the amount against that head. The expenditure on account of the unendowed choultries at Periyakulam and Shembaganur will, as suggested by the President, be debited to the General Fund. The other items are the same as in the budget. The unallotted portion of the General Reserve is Rs. 1,508. As on the receipt side, the entry under Miscellaneous Debt Account will be struck out.

4. The following is an abstract of the regular estimate of charges as revised by the Board :—

These balances will be carried forward to the budget for 1884-85.

BUDGET FOR 1884-85.

5. *Statement I-A, Revenue and Receipts.*—The contribution from Pound Fund will be raised to Rs. 860 which is the difference between the amount provided in the Special Fund Budget and that taken credit for by the Madura Circle Board. Land-cess is expected to yield Rs. 1,00,000, as in the regular estimate. The anticipated collections are about 86 per cent. of the total demand. Pending submission of the report called for in paragraph 2 *supra*, the estimate may be accepted. The income from tolls is estimated at the same amount as in the regular estimate, viz., Rs. 13,670. The increase in market receipts is due to the collection of fees from five additional markets to which the fee-system has been extended. The contribution by the Gandamanáyakanúr Manager of Rs. 240 for the branch dispensary at Vallanady will, as suggested at paragraph 12 of the President's letter, be shown under "7, Miscellaneous." The Board are glad to observe that private contributions for sanitary purposes are expected to amount to Rs. 4,000. The Circle Board having, as stated by the President in paragraph 14 of his letter, misunderstood Board's Proceedings, dated 22nd August 1883, No. 2466, the Pound Fund will, as usual, be credited to the Road Fund. The other items of receipt do not call for remark. The assets are —

	RS.
Road Fund	85,640
Endowment Fund	8,920
General Fund	51,770
Total ...	1,46,330

6. *Statement I-B, Expenditure—Grant I, Public Works.*—Under New Works, provision is made only for a single work, viz., the road from Checkanoorany to Allinagram. It is a sanctioned work and is also noticed in the review of the regular estimate. Rs. 50,320 are provided for road repairs, against Rs. 47,920 in the current year's budget. Allotments have been given for the upkeep of five roads which have

not hitherto received any maintenance allowances, and the actual length of two roads having been found to be greater than what was hitherto entered in the budget, the grants for them have been raised. It is stated that, though a larger provision is needed to keep all the roads in fair order, the funds available do not admit of the present assignment for the purpose being augmented. Rs. 1,370 are entered under Repairs—Miscellaneous Public Improvements, for the maintenance of avenues. The cost of the Local Fund Engineering Establishment is reduced from Rs. 14,430 in the current year's budget to Rs. 13,830. It is still more than 23 per cent. of the proposed outlay on works. The Road Fund Reserve at 10 per cent. of the receipts should be Rs. 8,130. The share chargeable to the Road Fund of the cost of the Local Fund Engineering Establishment, of Tools and Plant and of General Management is respectively Rs. 13,510, Rs. 850, and Rs. 1,810. The total Road Fund expenditure amounts to Rs. 81,160, leaving a balance of Rs. 4,480. A sum of Rs. 24,976 is still due on account of Famine Debt, but as it is alleged that the present provision for roads is insufficient, the Board think that the above balance should be utilized in improving them and that the repayment of the debt should be put off for the present.

7. *Grant II, Education.*—The total Educational expenditure is estimated at Rs. 12,610, against Rs. 12,550 in the current year's budget. The Circle Board propose the following changes :—

1. To entertain four Inspecting Schoolmasters on Rs. 17-8-0 each per mensem in lieu of the present establishment.
2. To abolish from the beginning of next year all the Combined System Schools.
3. Raising the allotment for result grants by Rs. 1,460.

The Board quite agree with the President in the opinion that the first proposal is a novel one and requires reconsideration. For the salary proposed, only a very inferior class of men will be available for employment, and it is more than doubtful whether there is any use in having such men as Inspecting Schoolmasters. It is also much to be regretted that the Combined System School, which has been worked with success in other circles, should have failed in Dindigul. The remarks of the Director of Public Instruction on the educational portion of the budget are awaited.

8. *Grant III—Medical and Sanitary.*—The provision for Hospitals and dispensaries is Rs. 12,090, against Rs. 10,780 in the current year. The difference is chiefly due to the increments of salaries of certain medical subordinates being payable for the whole year in 1884-85, while in the current year they were entitled only for some months. The assignment for Medical Subordinates will be further raised by Rs. 180, as the Surgeon-General says that a First class Hospital Assistant is in charge of the Uttamapálaiyam dispensary, and that his pay and allowances amount to Rs. 780, while only Rs. 600 are provided in Statement IV-A. The Board sanction the increase of pay from Rs. 10 to Rs. 12 to the Compounder attached to Kodaikánal dispensary, as recommended by the Circle Board. Rs. 4,830 are provided for Vaccination, and Rs. 9,250 for Sanitation, against Rs. 5,040 and Rs. 8,000 in the current year. The Sanitary Commissioner considers that the allotment for Sanitation may be accepted, but in regard to that for Vaccination, points out that the additional Deputy Inspector sanctioned in G.O., Public Department, dated 31st August 1883, No. 1715, has not been taken into consideration. The President will report the share of cost payable by each circle in the district. The increase in the market establishment, for which Rs. 630 are provided against Rs. 270 in the current year's budget, was approved in Board's Proceedings, dated 1st December 1882, No. 2970. Rs. 210 provided for the Zillah Surgeon's establishment will be shown separately from Contributions to other Circles and Municipalities, and the provision of Rs. 360 for his travelling allowance will be expunged, as that is payable from Provincial Funds. Rs. 1,790 are assigned for the Dindigul Medical School and include the allowance due to the Assistant Apothecary attached to it.

9. *Grant IV, Establishment and Miscellaneous.*—The cost of Controlling Establishments at the presidency will be altered to Rs. 900, to correspond with the actuals

of 1882-83. The General Reserve at 10 per cent. of the receipts ought to be Rs. 4,740, but only Rs. 3,600 are available.

10. The following is an abstract of the budget as modified by the Board of Revenue :—
