3/10 of the total cost of the establishment was entered as the probable Travelling Allowance - but this provision is very high. Only one overseer is included in the statement, and the remaining establishment is made up of clerks, peons, draftsman, and lascars. The overseer will only draw a monthly allowance and the rest only when they travel. I think the provision can be safely cut down to Rs 600 —

It has been usual, and C always has asked, for an appropriation of funds to meet charges on account of Tra. allowances.
