8TH MAY 1884, No. 1167 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From the Superintending Engineer, VI Circle, dated 5th November 1883, No. 1558 T.J.

Memorandum by the Chief Engineer, Public Works Department, dated 14th November 1883, No. 2208 C.

Forwarded, through the Board of Revenue, to the Local Fund Board, in view to the approval and countersignature of the Zillah Surgeon being obtained to the plan and estimate. Return requested.

Proceedings of the Board of Revenue, dated 22nd April 1884, Mis. No. 3386.

Read—the following letter from J. B. PENNINGTON, Esq., President, Local Fund Boards, Tanjore, to the Secretary to the Board of Revenue, dated Kumbakonam, 17th March 1884, No. 462 :—

With reference to Board's Proceedings, No. 9819, dated 23rd November last, I have the honor to re-transmit the plan and estimates duly countersigned by the District Surgeon, Tanjore, and his explanation thereon together with copy of Local Fund Board's resolution approving the original plan and estimate.

Resolution—dated 22nd April 1884, Mis. No. 3386.

Submitted to Government with reference to endorsement, dated 14th November 1883, No. 2208 C.

(True Copy and Extract.)
(Signed)

G. MACKENZIE,
Acting Sub-Secretary.

Note by the Chief Engineer, Public Works Department.

Submitted for the sanction of Government.

2. It is suggested that the attention of the Local Fund Board be drawn to the following points :—

- (1) The headway below summers of verandah would appear to be insufficient for a building of this class.
- (2) Roof ventilation to the wards and operating room will probably be desirable. Ornamental circular *louvered* openings in the gables would afford the necessary perfilation of air under roof.

3. The sections of bressummers and hip rafters are excessive. The former may be cut down to 5" × 7", the latter to 3" × 6".

received a cross section of
3" × 6"
DW

4. For the latrines and bath-rooms, floorings of asphalte, or simply of tar and sand, would be better than the concrete floors provided.
5. There is no provision for painting the wood-work and for tarring the palmyra coupes. The addition of these items would appear to be necessary.

ORDER—dated 8th May 1884, No. 1167 W., Public Works.

The estimate, amounting to Rs. 6,900, for constructing a dispensary at Tiruválúr, in the Tanjore District, is sanctioned.

2. The attention of the Local Fund Board should be called to the suggestions in the Chief Engineer's note above recorded.

3. This sanction has been registered as Local No. 8 W. of 1884-85.

Dispensary

Estimate of Rs. 6,900 for constructing a
— at Tiruválúr, in the Tanjore District,
sanctioned.

1167/3

The usual sanction may
be drafted with a Chief Secy
Memorandum to the following
effect—

1. The headway below summer
of veranda would appear to be
insufficient for a building of this
class.
2. Roof ventilation to the wards
& operating rooms will probably
be desirable. Ornamental circular
louver openings in the gables would
afford the necessary sufflation of
air under roof.
3. The section of veranuncus &
hip rafters an excision. The former
may be cut down to 5" x 7", the
latter to 3" x 6".
4. For the latrines & water closets
floorings of asphalt ^{with} tar and
sand would be better than the
concrete floors provided.
5. There is no provision for painting
the woodwork & for tarring the
palmyra couples. These ^{additional} items would
appear to be necessary.

Forward for counter signature
of District Surgeon - Col.

S. a. w.

Right not such plans
go to Dillala Surgeon or other
medical authority for approval &
counter-signature? I do not know
if there are any orders on this
point.

CV
8/11

D. W.

The General rule
on the subject will be
found in para 1168 of
the P. W. Code -

In the case of
hospitals or dispensaries,
it is always customary
to obtain the approval
of the Medical author-
ities before submitting
plans & estimates for
sanction.

CV
8/11

Yes - but this is a L. F.
dispensary & hence the difficulty.

F. F. H.

Public Works Department, 1883-84.

Current No. 9768

Letter No. 1558 T. J.

Dated the 5th March 1883

From the Supg. Engr. S. A. Circle

NOTE OF REMARKS.

1. The plans and estimates
herewith submitted provide
for the construction of a
Dispensary at Simvalive
in the Negapatam Circle.
Estimated cost is Rs. 6900.
2. One of the standard plans
circulated with G. O. No. 194
of the 28th Aug. /76 has been
modified - it must be added,
very freely - to meet the
requirements of the present
cases. The roofs are to be
supported on palmyrah
couplees - the hip rafters
and bressummers are to
be of 'country wood' and
this may partly account
for the excessive scantling
allowed these timbers.
Bressummers are 8" x 7 1/2" they
should, making all allowances
be 5" x 7"; and the hip rafters
are 6" x 6", they may safely
receive a cross section of
3" x 6".

3. Subject to approval, the course adopted by S. E. in the submission of this design is incorrect. In his Report S. E. states that the President of the L. F. Board has suggested an alteration in the present plan; and also mentions the probability of a change of position of the buildings being made by the Pillai Surgeon, &c. plan and estimate are forwarded without those officers' countersignatures - more skill, he has refrained from countersigning plan & estimate himself. It would be well if plans and estimate were returned to S. E. to allow of their resubmission in proper form. S. E. recognises the necessity of obtaining the Medical Officer's counter-signature in the last para. of his Report.

8th Nov 83

Current No. 3456 ¹¹⁶⁷/₉₅
Letter No. 3356
Dated the 22nd Nov 83
From the Board of Revenue
Madras

NOTE OF REMARKS.

1. With reference to P. W. Memo No. 2208C of the 14th Nov/83, the plan and estimate for constructing a Dispensary at Tiruvalur in the Tanjore District have been returned bearing the countersignature of the District Surgeon.
2. It may be seen from his letter that the Dist. Surgeon gives his approval provisionally. He writes: "as to the amount of ventilation, I do not find it distinctly marked out in the plan under longitudinal section, but if this point be satisfactory the design has my approval." In his remarks on this design when first submitted

MS. 1/5

D. W. noted the absence of roof ventilation, and pointed out the means by which this omission might be rectified, or rather, how a fair substitute for roof ventilation might be found by introducing circular openings in the gables.

3. The plan and estimate remain unchanged so that D. W. notes on the design when first submitted are still equally applicable.
