GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from D. C. GORDON, Esq., Examiner of Public Works Accounts, Madras, to the Secretary to Government, Public Works Department, dated Madras, 27th March 1884, No. 201 W. :—

I have the honor to submit, for information and orders of Government, notes by Mr. Rainier, Deputy Examiner, of his inspection of the office of the Chingleput division.

2. The state of the accounts is very creditable to the Executive Engineer and to his accountant.

ENCLOSURE.

Notes of inspection by H. RAINIER, Esq., Deputy Examiner of Public Works Accounts, Madras, of the office of the Executive Engineer, Chingleput division, on the 24th March 1884.

The Executive Engineer, Lieutenant-Colonel H. Smalley, R.E., and the accountant, Jeyram Pillay, were present.

2. The last inspection of this office by an Accounts officer was on the 16th April 1883, vide papers printed with G.O., No. 1257 W., of 30th April 1883.

3. There are still the same two (Tiruvallūr and Chingleput) sub-divisional drawing officers. The sub-divisional cash accounts are rendered regularly, and properly audited. The balance of the Executive Engineer's drawing account on the 1st March 1884 was proved correct. The sub-divisional offices have been examined every six months by the Executive Engineer. The divisional cash-book was in order, so was the cash abstract book. Cheque books, both old and current, are well cared for, and the Executive Engineer constantly checks the correctness of the drawing account balances.

4. Work abstracts are now prepared as suggested in the last report (paragraph 5) so far as is necessary. The register of works is well kept and generally complete. The grant for *Repairs, Military*, in the current financial year, Rs. 35,000, has apparently been used very freely by the barrack master, who is in the habit of sending up requisition after requisition for works costing less than Rs. 50 each regardless of the state of the grant and of the Executive Engineer's own appropriation of it. Considering the comparatively heavy and important works resting with the Executive Engineer, he would perhaps do well to move the Superintending Engineer to get the barrack master's portion of the grant for the year arranged at a certain sum, subject to alteration from time to time as occasion might require.

Materials at site of works are apparently well looked after, and are said to be of good value.

5. Of *Stock* there are *building materials* (stone) valued at Rs. 306, *timber* (teak) Rs. 212, and *miscellaneous stores*, Rs. 38. The rates are all favorable. The whole is likely to be used up or disposed of three months hence, the Executive Engineer said. The stock accounts are now in good order, so are the *tools and plant* accounts. On the latter there are a good many scientific instruments, and the Executive Engineer is about to see whether there are not more than a sufficiency. In fact the tools generally are under a thorough overhaul, a number have been found missing (and duly reported to the Superintending Engineer) and the list is under careful revision by actual count.

6. The contractor's accounts are well kept. One such account is under dispute, being the subject of litigation now going on, Moonesawmy Moodelliar *versus* Government, the defence of which case is duly authorised. Contractors are invited, whenever practicable, to attest their accounts. There is nothing noticeable in the age of any balance.

7. The departmental code requires posting up to date with standing orders.
8. The suspense accounts are in a satisfactory state.
9. The register of buildings is now complete. The rate book is lately revised. There is a register of all contracts and of accepted tenders.
10. The accountant is well assisted, the second clerk, P. Veradarajulu Naidu (who I had occasion to notice in my former report, G.O., No. 2981 W., of 13th November 1882), still does the work of assistant accountant very creditably. The Executive Engineer's office staff was said to be barely sufficient for current work; the *old* records of the office being in need of a thorough overhaul and arrangement, a temporary hand for this special job might be asked for.
11. The office is in excellent order.

ORDER—dated 31st March 1884, No. 864 W., Public Works.

Communicated to the Superintending Engineer, V Circle, for the information and guidance of the Executive Engineer, Chingleput division.

2. The report is satisfactory.
