alone had been the cause of the destruction of
the property. I think that it is fair that
the Petitioner's claim should be entertained,
especially as his neighbours, who did not
fail to throw the blame entirely on the
Harbour Works, got their compensation; and
if permitted to do so now, I will instruct the
Dy Collector to take evidence as to the damages
really caused, assuming that the effects
of the cyclone were intensified by the
construction of the Government Harbour Works.

SIR,

With reference to endorsement No 539 dated 8th March 1884 P.W. Dept., I have the honor to report that the Petitioner's case is the one particulars of which are fully given in Mr. Beaudmore's letter embodied in Government order No 2002 P.W.D. dated 7th August 1882. On investigation of that claim the Deputy Collector having reported that the Petitioner put forward that his house had been washed away in a cyclone, the then Collector of Madras ruled that there was no case for an award of compensation, as it was not asserted that the Harbour Works

Representing that whilst the respective owners of all the houses and lands surrounding his property at Fasemoddi, and destroyed by the action of the sea caused by the Harbour Works, Memorialist's claim to such compensation was repudiated by the Collector of Madras, on the plea that his property was destroyed by the cyclone; and praying that for reasons given herein, Memorialist's claim may be entertained, and his grievances redressed.

on the land from time immemorial, and had braved such visitations previous to the construction of the Harbour Works. The land is still under the action of the sea, and cannot be utilized, and these facts must point to the actual cause of the loss for which I am entitled to compensation.

4. That your Memorialists then neighbours who have lost their properties, under similar circumstances, have been paid full compensation, and your Memorialist humbly submits that it is a great hardship that his claim should be repudiated by the Collector.

5. That your Memorialist's property is No 10, and colored red on the accompanying plan from which Your Excellency in Council will see, that his house stood between a group of houses to the west of the old Casemode Road. The several owners of these properties, which were all destroyed at or about the same time as your Memorialist's, and that is to say those marked Nos 1 to 9 inclusive, and No 11 on the plan have received compensation, and have provided themselves with other properties whilst your Memorialist, the owner of the intervening house (No 10) is still left unhelpt.

6. The ravages of the Sea extended beyond the said group of houses, and destroyed several huts and trees interspersed on the lands lying to the west of your Memorialist's property, including a public Bungalow marked red on the plan, and submerged the land up to "Goves Modeen Pettak Road." The owners of

these

these properties have also been paid compensation, and this fact adds strength to your Memorialist's claim.

7. Your Memorialist is a poor man with a large family dependent upon him. He is old and infirm. The house and ground referred to was the only property he possessed in this world. Altho it was estimated at Rs 400/- by Government officials, as the records in the Deputy Collector's office will prove, the real value is very much greater. Since its destruction he has been under the necessity of renting another house, the payment of rent during the past two years and more, being a matter of much difficulty with him.

Your Memorialist prays therefore, that your Excellency in Council will be graciously pleased to take his hard case into your just, benign, and favorable consideration, and grant him the compensation to which he is unquestionably entitled under the circumstances hereinbefore set out, for which your Memorialist and his family, shall, as in duty bound,
