GRANT IV.			
Establishment	4,689	4,410	5,000
General reserve	..	..	4,400
Miscellaneous debt account	— 6,309	..	..
Balances—			
Road fund	15,063	13,450	6,230
Endowment fund	544	30	380
General fund	11,312	6,950	..
Total ..	1,56,500	1,69,630	1,64,020

2. *Revised estimate for 1883-84.*—The revised estimate submitted by the Board of Revenue is accepted. The land-cess estimate is nearly 91 per cent. of the total demand excluding amounts to be written off, and is satisfactory; the old arrears however should be speedily adjusted. Under Charges, Grant III, a saving of Rs. 1,170 is expected to be effected under Hospitals and Dispensaries, while provision (Rs. 630) is made for payment of the second instalment of the debt due to Provincial funds under G.O., 2nd November 1881, Mis. No. 2119.

3. *Budget estimate for 1884-85.*—In the budget for 1884-85, the land-cess is estimated at 90 per cent. of the total demand as observed by the Board of Revenue, but the arrear collections are expected to amount to only 30 per cent. of the arrear demand—a fact to which the President's attention should be drawn. The anticipated revenue from tolls will be raised by Rs. 170, with reference to G.O., 12th February 1884, No. 305. It is noted that the school fee receipts show an increase over the revised estimate of Rs. 450. Under Charges, the Public Works provisions are fully discussed by the Board of Revenue. The total cost of the Engineering establishment is slightly over 20 per cent. of the total outlay on works, which the Government have lately

* G.O., 24th April 1884, No. 878.

decided * should be the maximum expenditure on this account. Under Grant II, the proposal to open seven Local Fund schools on the combined system is approved and sanctioned. Under Grant III Rs. 650 are provided for payment of the third instalment of the debt due to Provincial funds referred to in the above paragraph. The municipal commissioners have already agreed to the proposed reduction in the

contribution to the Kurnool hospital and have taken credit for a reduced contribution in their budget * for 1884-85. The proposed small annual increments in the salaries of the clerks in the Circle Board's office are sanctioned.

20TH FEBRUARY 1884, No. 457 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

Proceedings of the Board of Revenue, dated 23rd November 1883, Mis. No. 9797.

Read—the following letter from J. G. HORSFALL, Esq., President of the Local Fund Boards, Ganjam, to the Secretary to the Board of Revenue, dated 20th October 1883, No. 1173 :—

I have the honor to submit the marginally noted plans and estimates, amounting

1. Estimate for Rs. 5,000, together with specification report, for the proposed road.
2. Estimate for Rs. 250, for a tunnel with specification.
3. Plans for tunnel.
4. Estimate for Rs. 150, for a tunnel, with specification.
5. Estimate for Rs. 150, for a tunnel, with specification.
6. Estimate for Rs. 60, for a slab drain, with specification report.
7. Plan of slab drain.
8. Survey plan of the road.
9. Longitudinal and cross sections of the road.

to Rs. 5,460, for making a new road with tunnels, &c., at Gopálpur, running south of the telegraph office, to meet the present road between the backwater and Nalum Bheemayyah's godown, and from the Local Fund compound to the back of Mr. Minchin's compound, to join the main road.

2. This road is indispensably necessary, as the only road at Gopálpur leading to the port is inadequate to meet the requirements of the daily increasing traffic, of which, to a great extent, Gopálpur forms the terminus. The existing road is insufficient for the traffic and is constantly blocked in consequence.

3. Rupees 4,000 are provided for the proposed road in the budget for next year.

4. As little or no masonry work will be done on this road, the estimates have not been submitted through the Superintending Engineer.

Resolution—dated 23rd November 1883, Mis. No. 9797.

The plans and estimates, amounting to Rs. 5,460, for constructing a road at Gopálpur, are submitted for the sanction of Government.

(True Copy and Extract.)

(Signed) G. MACKENZIE,
Acting Sub-Secretary.

To the Secretary to Government, Public Works Department,
with fourteen enclosures.

No. 2381 C., Public Works.

Forwarded to the Superintending Engineer, I Circle, for the usual scrutiny.

(By Order.)

CHEPÂK,
1st December 1883.

(Signed) C. BOWEN, Major, R.E.,
Dy. Chief Engineer, P.W.D.

From G. T. WALCH, Esq., Officiating Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Camp Bobbili, 22nd January 1884, No. 458 G.N.

With reference to your No. 2381 C., dated 1st December 1883, and enclosures (all herewith returned), I have the honor to return, herewith, the estimate (Rs. 5,000) for the proposed new road at Gopálpur, duly examined, corrected and countersigned.

2. I may mention that the proposal once before came before me, and was returned to the Ganjam Local Fund Board with my No. 138, dated 5th July 1883, copy of which is enclosed, and it would have saved some time if this revised proposal had been sent direct to me.

3. I also enclose revised plans and estimates for the three culverts proposed to be

			rs.	built on the proposed road, the combined estimates* for which amount to Rs. 555 instead of Rs. 460, as in the estimates received. The whole revised estimate for the road is therefore Rs. 5,555 instead of Rs. 5,460.
* For 2 vent culvert	..	...	290	
" 1 " "	..	...	155	
" 1 slab	..	...	110	

ENCLOSURE.

From G. T. WALCH, Esq., Officiating Superintending Engineer, I Circle, to the President of the Local Fund Boards, Ganjam, dated Dowlaisheram, 5th July 1883, No. 138 G.N.

With reference to your No. 639, dated 13th June 1883, which did not reach me till 25th ultimo, and its accompaniments, which did not reach me till to-day (all herewith returned), I have the honor to state that, as the formation levels of the intended road have not been given on the sections, it is simply impossible to check the estimate.

2. I notice that in the specification it is said that the steepest gradient is to be 1 in 20. This is certainly too steep for such a road, traversed by many heavily laden carts, and I strongly recommend you, even though it may necessitate extra cost at first, to make 1 in 30 your limiting gradient.

3. On the lines for the road on the survey plan their lengths and bearings should be given.

ORDER—dated 20th February 1884, No. 457 W., Public Works.

The estimate, amounting to Rs. 5,555, for constructing a road at Gopálpur, in the Ganjam district, is sanctioned.

2. The Local Fund Board should, however, be requested to reconsider the necessity for metalling the new line to a width of twenty-four feet, with twelve and nine inches of metal, and spreading six inches of gravel over the whole.

3. The attention of the President of the Local Fund Board should also be called to the instructions contained in paragraph 8 of G.O., No. 3211 W., dated 6th December 1882.

4. This sanction has been registered as Local No. 54 W. of 1883-84.

(True Extract.)

(Signed) J. SHAW-STEWART, Colonel, R.E.,
Secretary to Govt., P.W.D.

To the Board of Revenue, with twenty-four enclosures.
