OFFICE NOTE.

1269/4

To

S.E.V

With reference to the enclosed correspondence, why should not the repairs to the barrel machine shop at the Gun Carriage Factory be carried out from the Military repair grant to the Presy. Division.

The estimate was sanctioned under "Original Works" in G.O. No 2413 Wd/16.9.82, on the ground that it amounted to more than

21-5-84

than one fourth the
value of the building,
but it would appear
more correct to treat
this machine shop as
an integral portion
of the entire factory
buildings, & carry out
the repairs accordingly.

If there be no
objection to this proposal,
the necessary orders
will be issued -

Under Major Original
Works it is almost
impracticable to find
funds, & the work
is urgent.

Dr

S. A. Co.

12/19/5

I would sanction execution
of work at once, as an original
work under G.O. of 31 Aug 58, & 1000,
allotment to be provided hereafter
by from the residue of the grant
for minor works, on which steps
will be taken to effect drawings sufficient
to meet ^{the} roof repairs - i.e. No. 2795.
The new flowing part of estimate
can remain over.

Order to above effect might be
drafted for W's approval.

The proposal you suggest does not
commit itself to me - The above
is quite ~~of~~ regular & also convenient.
