GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Camp, Gudiváda, 8th May 1884, No. 360 K.S.

I have the honor to forward, herewith, for your approval and sanction of Government, two estimates, in duplicate, amounting to Rs. 28,950 and 3,784, for stone manufacture at Bezváda and Sítanagaram quarries, and lime manufacture at Bezváda respectively, both during 1884-85.

2. For my future guidance, I request you will be good enough to let me know what is meant by the following wording in paragraph 2141 of the Public Works Code:—

“If the materials be for reserve stock within the sanctioned limit for the division the estimate will merely require the approval of the Superintending Engineer”

The amount of reserve stock for the Eastern division, to which the above estimates appertain, is Rs. 48,000, and that for stock manufacture Rs. 8,000. The latter is included in the total for reserve stock. If the former amount is meant by paragraph 2141 the estimates will be within my powers of sanction.

3. As, however, I am doubtful of the correctness of the above view, I submit the enclosed estimates for the sanction of Government, as was done last year.

Office Note from the Examiner of Public Works Accounts, dated 20th May 1884, No. 123.

Your office note, No. 935 D., dated 16th May 1884.

The rule has been explained to the Superintending Engineer, II Circle, on several occasions, see margin. An extract from the last quoted letter is subjoined for information:—

Correspondence ending with Examiner's (Public Works Accounts, Madras) No. 156 S.E.-II dated 27th July 1883, to the Superintending Engineer, II Circle.

Paragraph 2. * * * as the stock in the Kistna Eastern division, at the end of May 1883 (value Rs. 45,000) was almost up to the reserve limit (Rs. 48,000) sanctioned by Government, it appears necessary, under code paragraph 2141, that the sanction of Government be obtained to the present estimate (manufacture of stone at Bezváda and Sítanagaram, Rs. 29,469).

2. In the present case the sanctioned reserve limit is Rs. 48,000. The balance of stock at end of March 1884 was Rs. 47,567. The estimates for further manufacture amount to Rs. 28,950 + 3,784 = Rs. 32,734. The sanction of Government, therefore, to the estimates is clearly necessary under the rule.

ORDER—dated 30th May 1884, No. 1357 W., Public Works.

The estimates, aggregating Rs. 32,734, for the collection of materials in the Eastern Kistna division, during the official year 1884-85, is sanctioned as noted below :—

	RS.
Manufacture of lime at Bevráda	3,784
Preparation of stone at Bevráda and Sitanagaram quarries ...	28,950

2. Examiner's office note, No. 123, dated 20th May 1884, regarding the value of stock in the division, will be communicated to the Superintending Engineer, II Circle.

3. These sanctions have been registered as Provincial Nos. 52 W. and 53 W. of 1884-85, and classified as Stock.

As the Reserve limit (Rs. 48,000), sanctioned by Government, it appears necessary under Code para 2061 that the sanction of Government be obtained to the present estimate (manufacture of stone at Bezvada and Sitamagaram Rs. 29,469) "

2. In the present case the sanctioned reserve limit is Rs. 48,000. The balance of stock at end of March 1884 was — Rs. 47,567. The estimates for further manufacture amount to Rs. 28,950 + 3784 = Rs. 32,734. The sanction of Government, therefore, to the estimates is clearly necessary under the rule
