NOTES.

Reference to Madras P. W. D. Code.

Chapter XIV.—Paras. 1829 to 1832.

1. The object of this Return is to place before Government an analysis of all shortcomings in matters of financial regularity in the operations of each month with a view to their being remedied. It should be submitted to Government on the first day of the third month succeeding that to which the accounts relate.

2. There should be a separate statement for each separate Fund—Imperial, Provincial, Local, and Irrigation.

3. The Provincial statement will be posted from the Divisional Statements of Objectionable Expenditure. The statement need not be delayed in order to embody the remarks of the Superintending Engineers if these do not reach the Examiner's Office in time. It is desirable, however, that the Superintending Engineer's opinion should be recorded as far as may be practicable, and, in order to ensure this being done, the Divisional Statement of Objectionable Items should be checked immediately on receipt and sent to the Superintending Engineer for his remarks before the audit of the other accounts is proceeded with.

4. All Executive Officers who have failed to submit their Divisional Statements of Objectionable Items with their Monthly Accounts, as well as those whose statements are *generally incomplete*, should be specially brought to the notice of Government under "General Remarks" at the end of the statement.

5. Items of irregular expenditure which are left unincluded by Executive Engineers in their Divisional Statements of Objectionable Items should be distinctly noted as such either in a separate supplementary statement or in the original statement in red ink.

6. Columns under all the heads should be filled up in each case so as to bring out clearly where estimate or appropriation exists and where it does not.

7. In the case of large projects such important features as the following should be stated with precision :—

A. Lump sum estimate.
B. Abstract detail estimate by sub-heads, and so on.
1. Submitted to Chief Engineer.
2. Submitted to Superintending Engineer.
3. Not yet submitted.

8. A large work which is proceeded with on merely a lump sum sanction is still objectionable till an abstract and detail estimate by sub-heads is submitted and sanctioned for it by competent authority.

9. Special mention should be made of works being carried out in portions by authorities, beyond whose powers of sanction it would be to sanction the expenditure as a whole.

10. An important point to notice is the duration of a serious irregularity.

11. Voluminous masses of detail, when their practical significance could be given in a few lines, should always be avoided as a rule. If, for instance, the state of matters as to sanction in one month does not materially differ from that of a preceding month, it will answer all practical purposes to say so, instead of sending another full report.

12. Too much stress can never be laid on the fact that this statement is not to take place of special reports, then and there, of works on which serious irregular expenditure is being largely incurred, either without estimate or appropriation.

2. *Regular Estimate for* 1882-83.—The revenue from land-cess according to the regular estimate shows a small advance over the sanctioned budget of Rs. 3,000, but the collections are nevertheless unsatisfactory. As regards the sum of Rs. 42,252 recommended to be written off, the explanation offered by the President is, as observed by the Board in their Proceedings, No. 837, dated 21st March 1883, indefinite. Excluding this amount no less a sum than Rs. 90,686 was expected to remain unrealized at the end of 1882-83. The provision for "Midwives" should appear under Grant III, "Hospitals and Dispensaries," and not under a separate head.

3. *Budget Estimate for* 1883-84.—With reference to Board's Proceedings, 21st March 1883, No. 837, the budget estimate of land-cess will be raised to Rs. 2,20,000.

4. Under Grant I, the estimate for the reconstruction of the road from Pollachi to Pálghat *via* Minkarai should be submitted without further delay. With reference to G.O., 26th April 1883, No. 843, Miscellaneous, the sum of Rs. 11,710 provided for the road along the bund of the Chittrachavady channel will be reduced to Rs. 5,530 and should be shown under "Contributions to Provincial Fund" and not "to other circles." No provision has been made on account of famine debt on the ground of paucity of funds. As, however, land-cess estimate has since been raised by Rs. 22,200 a sum of Rs. 9,700 will be allotted for this purpose. As regards Grant II the submission of the proposed new scheme and the remarks of the Director on the allotment will be awaited. Under Grant III, the establishment of a new Dispensary at Aravakurchi

is sanctioned. The Board of Revenue will invite the Circle Board to consider whether the allotment for sanitation cannot now be raised to the amount of the last year's budget in view of the increased income anticipated from land-cess. The contributions for the Medical College and Sanitary Inspection will be raised to correspond with the increase above indicated in the estimated revenue.

5. With these remarks, the Right Honorable the Governor in Council passes the Budget Estimates of the Coimbatore Local Fund Circle for 1883-84.

2. *Revised estimate for* 1883-84.—The large increase of Rs. 64,780 in the total opening balance is due to increased revenue and short expenditure. The circumstances under which the expenditure fell short of that of the revised estimate should have been briefly noticed. The land-cess arrears (Rs. 27,325) written off have nevertheless been exhibited in the demand collection and balance statement.

3. *Budget estimate for* 1884-85.—Excluding the opening balances, the total estimated receipts of the current year show a falling off as compared with those of 1883-84 of Rs. 53,130. This occurs chiefly under Land-cess and Market rents. There is apparently no reason why the land-cess collections should not be as prompt as in the previous year. With regard to the Director's remark that no credit is taken for results grants which the combined system schools may earn from Provincial funds for the higher standards, his attention will be drawn to paragraph 3 of Board's proceedings, dated 3rd August 1883, No. 2235, where it is explained that these are private schools. Under Charges, provision is made for two unsanctioned new works, on which no expenditure should be incurred until the estimates have been sanctioned. For want of funds, the Road Fund budget closes with a *nil* balance, and only Rs. 10,670

are provided for the reserve which should be Rs. 15,650 at 10 per cent. of the receipts. In these circumstances, the Government consider that some of the special repairs for which provisions amounting in all to Rs. 46,000 are made, might stand over. The educational provision is in accordance with the Director's recommendation. Under Grant III, the payment of a contribution from Provincial funds on account of the pay of the hospital assistant attached to the Aravakurchi Dispensary and the entertainment of the four overseers referred to in paragraph 6 of the Board's proceedings are sanctioned. The allotment for sanitation should not be reduced. The remarks of the Sanitary Commissioner in this connection should receive the careful consideration of the Board.
