C.E. Memo 3-11-76

No. 1601

Under emergent orders of Govt you are hereby instructed to select for duty on Famine Relief Works in the ×Kurnool/Bellary Dt. an experienced Taluq Overseer, Native, East Indian or European (not being a soldier) and to despatch him with tent and Campt Equipage complete to ×Gooty/Bellary with as little delay as possible advising the Dt. Engineer when he may be expected and instructing the man to lose no time in pushing forward. (to Kurnool/Bellary)

2. He will be paid up for last month and allowed such advance as shall frank him to ×Kurnool/Bellary and he will be allowed the pay of the rank above that which he now holds from the date of his leaving — until that of his return to the same place. Good service on Famine Relief Duty will be held by the Chief Engineer to establish a claim for permanent promotion. The services of any passed Candidate available may be

temporarily engaged during his absence.

Ch No 1603 dt 3/11/76

Proceedings of the Madras Government, Public Works Department, 2nd November 1876. No. 2,927.

Read the following :—

No. 233 W.

No. 7. *Note by the Chief Engineer for Irrigation.*

No. 103, dated 3rd March 1876.

THE District Engineer, Salem, forwards, with his letter marginally noted, an estimate in connection with the Chinnapenputty tank situated in the Trichengode taluq, Salem range.

2. The nature of the work proposed for execution and the heads of account to which it is chargeable are as follow :—

ORDINARY AGRICULTURAL.

Original Works.

	RS.
Extending the weir	5,515
Raising and repairing the bund, and repairing the aprons of the sluices and calingulah, Repairs	2,085
Total ...	7,600

3. The following particulars of this tank are recorded :—

Ayacut area	Acres	400
Assessment	Rupees	3,998
Average revenue	„	2,364
Highest do.	„	3,456
Expenditure during the previous four years	„	3,830

The area of the catchment basin is 290 square miles; the maximum flood supply is calculated at 24,533 cubic feet per second, for discharging which as surplus there are two weirs, one 142 feet in length and the other 555 feet, and one calingulah 66 feet in length. It is proposed to abandon the weir 142 feet in length and to raise a bund before it so as to close the breach at the right end of the weir. The large weir 555 in length is to have an addition to it of 500 feet, and the total length of the surplusing works will be 1,121 feet, which with a head suggested of 4 feet will probably suffice. The tank belongs to the Womalore river group, and was inspected by the Chief Engineer for Irrigation at the end of 1874 and its leading requirements noted. The details were subsequently somewhat modified to suit the circumstances as reported by the District Engineer. The tank was breached in 1872 and its early restoration is very desirable, there having been already far too much delay in preparing and disposing of the estimate, otherwise its revision by the District Engineer would have been considered necessary, first, with regard to many of the details, and secondly, in order that the requirements of the tanks under the two channels supplied from this tank might be ascertained.

Inspection notes, paragraph 8, Proceedings of Madras Government, 25th May 1875, No. 1,431.

Memorandum No. 1,250, 22nd October 1875.

4. The datum line for the longitudinal section has been taken at 50 feet below the north end of the bund; and apparently the crest of the 142 feet weir is at

47·36 feet above this datum, the intended full tank level being at 47·66. The future F.T.L. will therefore approximate sufficiently closely to the former F.T.L.

5. Maximum water-level is expected to be 4 feet above F.T.L. and this is believed to be an outside calculation as though excessively heavy rainfall has occurred in recent years in parts of the Salem district, it is improbable that such falls would take place over such a large catchment basin as that of this tank. At any rate the old weirs sufficed for many years, and the discharging capacity of the extended weir will very greatly exceed that before available.

6. The crest of the 66 feet weir at the north end should, as before intimated, be raised to 1 foot above F.T.L., as the discharge is into the north channel which would suffer again, as it has done before, were the surplus not limited as much as possible.

Inspection notes, paragraph 8.

7. The new short length of bund which is to be thrown up across the breach and in front of the 142 feet weir will need to be very carefully carried out. There is rock at the bottom of the breach and rock is probably not far from the surface at the site for this bund. If so a trench 4 feet wide and 2 feet deep should be cut in the rock on the line of the front top edge of the bund to form a watertight junction. The ends of the old bund at the junction with the new should also be stepped and trenched, so that the new and old earthwork may be thoroughly united and all danger of leakage averted. The foundation of the revetment of the new bund is shown as intended to be 6 feet deep which is excessive. It is believed that there is rock above this level, and if rock be met with within 4 feet the revetment should rest thereupon. The foundation should also be laid so as to carry the weight of the revetment above, *i.e.*, with its faces parallel to those of the superstructure. The latter as drawn would not be as effective as is desirable and through stones laid at right angles to the slope, with for the rest of the work face stones not less than half the thickness of the revetment, and varying from that to two-thirds of the thickness are necessary to good work.

8. The old revetment of much of the bund is, as is common at tanks in the Salem district, laid at a very steep slope. Some of it has to be raised considerably, and care must be taken that the old revetment is perfectly stable. To reform it generally would probably involve needless expense, so that all that is quite substantial may be retained.

9. It is not clear why the extension of the main weir from 555 to 1,055 feet should be laid out on a crooked alignment. A regular curve would be better unless the peculiarities of the ground indicate the alignment shown to be proper. A flat slope to the apron and a drop of 3½ feet at the end is not usually a good arrangement, and were it for any special reason suitable, the end of the apron should be built of picked stone of very large size laid on the flat. It will apparently be better to increase the slope of the apron to 1 in 6, to place its surface at the junction with the crest wall 1 foot below the top of the latter, and to form the surface of the slope with stones not less than 2 feet long laid with their length at right angles to the slope. A width of 6 feet of the slope next the crest wall to be grouted in with concrete, as apparently intended. The cross section of the existing part of this weir is shown as if the crest wall were at present at F.T.L., but this is believed to be incorrect. If the old apron has a drop of 3½ feet at its end and is in good order, this apron and the new may be connected by a rubble masonry wall 2 feet thick and 3 feet deep below the surface of the new apron.

The wing wall at the higher part is rather weak in section. It should have a face batter of 1 in 6, be 2 feet thick at top, and not less than 5 feet at base where 14¼ feet high. If the wing return must be 8½ feet high, a length of 6 feet is inadequate; with the outer end of the apron lowered as suggested above, a height of 5 feet will suffice and the section with a face batter of 1 in 6 will suffice. This return should leave a revetment to the bank slope connected with it, and not less than 6 feet of horizontal apron at the foot of the slope.

The bed of concrete under the apron is unnecessary.

10. The wings of the 66 feet weir should be raised with face batters of 1 in 6. If the wings of the north and south head sluices are only 18 inches thick, the old wings must be dismantled and rebuilt with a mean thickness of not less than 2 feet where the height is 8 feet, or 1 foot may be added to the thickness of the present walls and the upper wall be built with a face batter of 1 in 4.

11. In carrying out the work, the bund for the extension of the main weir should first be cleared away, and the crest wall built to 3 feet below F.T.L. and be protected by the rough stone below the level of the apron surface stones. Then the bund across the breach may be constructed, and when this has been completed the weir should be finished.

12. The modifications above detailed will not, it is considered, increase the estimate, but the District Engineer should revise the latter and, if necessary, apply for sanction for the revised estimate.

13. Where new earthwork has to be laid on the rear slope of the old bund the latter should be stepped as shown on cross section No. 17.

Chinnapenputty Tank, Salem District.—Sanctioning estimate of Rupees 7,600 for works to the—.

Memo No 1606 d/4 Nov 1876.

Dist Eng. Bellary

You will be so good as to bring on to the regular establishment of Talook Overseers allotted for the Bellary District Sergeant Anderson of the S. & M. Coy posted to that District as Sup: numerary — And you will ~~send~~ keep him at Bellary as Con: tonment Overseer till he has learnt the duties of a Talook Overseer, sending Sergeant Temple out to relieve of a Talook charge some ~~of~~ efficient Native & East Indian.

D

Overseers, whose services you will place at the disposal of the Collector for employment on Famine Relief works —

G.M.

3.11

Has [illegible] of [illegible] Anderton's [illegible] been made?

G.M.

No report has yet been received. 11/4 R.

Show the file also [illegible]

G.M.

Submitted R.

In the famine of 1854, a body of 12 Officers & 50 Non Commissioned Officers was placed at the disposal of the Civil Engineer to superintend Famine Relief Works in the Bellary and Kurnool Districts — They had no previous experience of Public Works, but were to be taught what was required, and were chiefly relied on to see to the organization and payment of the gangs of labourers, and to spread the means of relief over as large an area as possible —

The Western Talooks of Bellary were exempt from famine — In Bellary itself the Civil Officers took charge; the H^d Q^rs of the Special Agency, and centres of their operations were.

Superintending Engineer

1. Bellary -
2. Adony -
3. Puttikonda -
4. Gooty -
5. Anantapoor
6. Penukonda
7. Kurnool
8. Nundial

The N. C. Officers being posted at the usual stages between these places at intervals of 10 to 15 miles - No estimates were made; the Civil Engineer did the best he could to instruct the Officers in laying out the lines of roads, and they did their best in distributing the work as much as possible, and bringing relief near every village - The N. C. Officers supervised the labour, and paid for it weekly at least, daily if necessary - Money was obtained from the Taluk Treasuries on demand by the Officers, who obtained credits from the Civil Engineers - No Accounts were kept or needed beyond muster rolls, which were closed and sent in as vouchers weekly -

Should the Govt. desire that a staff of subordinate Executive Agents accustomed to supervision of earthworks be supplied to the Districts in which Famine Relief works are at present being undertaken, the simplest plan will be to order each District Engineer in charge of a District open to Railway communication, to detach one competent East Indian or Native Overseer, with his Tent and marching Esta:blishment complete, to Bellary, Ghooty, or Cuddapah, to report himself for orders to the Senior Civil Officer - 10 men would thus be sup:plied from.

1. Malabar - 2. Coimbatore.
3. Salem - 4. North Arcot.
5. Tinnevelly - 6. Madura -
7. Tanjore - 8. Trichinopoly -
9. South Arcot. 10. Chingleput.

And 6 more can be drawn from the following Districts in lieu of Supernumerary Engr. Overseers lately posted to them from the Sappers and Miners - viz.

1. Malabar. 2. Chingleput
3. Bangalore 4. Neilgherries
5. Presidency. 6. Bellary -

And these 16 men might be dis:tributed - 8 to Bellary.
4 - Cuddapah.
3 - Kurnool.

They should be allowed the Salaries of the Grade above that which they actually hold; ~~and~~ paid up to date or nearly so; and all their cost while on Famine Duty to be charged against Imperial Funds - The Dis:trict Engineers who sup:ply the 10 men of the 1st List to be allowed to replace them temporarily by other passed Candidates, of whom a number are understood to be available —

Mr Carlier – Chingleput
Mr Maclean S. Arcot
Mr Paul Tanjore
Mr Evans+ Trichinopoly

Nellore 16th February 1884.

To,
Col. J. H. M. Shaw-Stewart R.E.,
Chief Engineer P.W.D. Madras,
Encls: 9. through J. W. Rundall Esqre C.E.,
Superintending Engineer 2nd Circle
Masulipatam

Respected Sir,

I most respectfully beg to bring the following to your kind consideration soliciting kindness & justice.

While I was serving in the Chingleput District in 1876 in the way testified by Lieutt Smither (encls 1), I was selected by Col. F. J. Moberly R.E., then Distl Engr Chingleput, on the authority conveyed in Chief Engrs Memo. No 1601 dated 3rd Nov: 76, (encls 2), for famine duty and for the temporary promotion therein offered. (These temporary promotions had been subsequently withdrawn on a Resolutn from the Govt of India) The good conduct required by the Chief Engineer in the above, had been testified by the Spl Relief Officer Capt. A. P. Browne, under whom I served. (encls 3). My frequent representations to the Revenue Officers to bring forward my claims for promotion, were of little interest to them. I joined Chingleput Dn. again in the ~~end~~ beginning of 1879, when Major S.C. Clarke R.E. was the Divisl. Officer, to whom when I represented my claims; he said he had sent in the Quarterly return of all Subordinates wherein he had "Corroborated" the good conduct made out by my Sub Dn. Officer. Subsequently this Officer left for the Afgan War, and I was also transferred during the reorgann. in 1880 to North Arcot, and the way how I served till then, had been testified by my then Sub Dn. (another) Officer (Enclo 4). Here again at North Arcot, I worked, to the satisfactn. of the Dn. Officer, to whom when I explained my case, a promise was given to me (Enclo 5): but this Officer soon after left the Dn., and was succeeded by Mr. Norris, to whom again I applied. Thereon, this Officer recommended me in (1) Aug 81, (2) Jan 82, (3) July 82, (4) Jan 83 & (5) July 83, successively each half year. I had, but after the first 3 recommendations, been promoted to 2d grade, a grade which I had fairly reckoned in 1876. In July 83, I was transferred at the public expense, to the Sangam Project Dn., where I hardly stayed 6 months, and I am again transferred to Nellore & then to Gudivada Division, at the public expense. I am now sick & under the Medl. treatment of Dr. O'Hara Zillah Surgeon at this place.

The above brief statement, I believe would convince

1. That the promotion fairly earned in 1876 was given me in /82: i.e. 6 years afterwards.

No. 992 N.L.   Superintending Engineer's Office

2. That if I had remained at Chingleput Dn. without selection for famine duty, I would have had, not only the promotn. given me 6 years afterwards, but also further prospects, as can be seen from the tenor of Col. Moberly's note (Enclo 6), and as can be seen from the 2 instances:- Overseers Valordam Mudr. and Sergt. A.C. Lord, who were not selected for famine duty, but are now Supervisors 1st grade.

3. That the appointment since 1876 of Apprentice Supervisors & Overseers of 1st & 2d grades, have materially obstructed my promotions, in as much as 3 successive recommendations were made for a single promotion, & 2 more in succession afterwards have not as yet been effective.

4. That several of my juniors have superseded and have advanced so far, that I have the very invidious & heartrending task of serving under them now & then.

5. That my constant transfers, and the frequent separation of Officers just when they begin to value my services, have affected me greatly.

Under these circumstances I humbly pray that all the Enclosures may have your kind & patient perusal and that justice may be kindly done to me, in doling out the next promotions.

I humbly beg to remain

Sir,

I have the honor to bring the following matter to your notice for orders.

2. In January last, I transferred Overseer Rámanarain Ponday from the Sangam Project Division to the Nellore Division. Soon afterwards, as the only permanent Overseer attached to the Gudiváda Division, obtained a medical certificate for 7 months leave of absence, I ordered Rámanarain Ponday to join the Gudiváda Division, instead of the Nellore Division.

3. The Overseer was duly relieved in the Sangam Project Division on the 9th February, and proceeded to Nellore.

4. On the 16th idem, he sent me an application for 3 months privilege

leave accompanied by Copy of a Certificate showing that he had been admitted as an outpatient at the Nellore Civil Dispensary, and what he Called a Statement of his case from the Apothecary at Laugam.

5. I replied by the following post, that as the Services of an Overseer were urgently required at Gudiváda, I could not give him any leave except on medical Certificate, and only for such period as the medical Officer certified to be necessary.

6. The next I heard of this man is your Memo No. 383 D of 26th Feb, returning a letter dated 22nd Ultimo, from St Thomas' Mount, addressed to the Chief Engineer direct.

7. My memo refusing the Privilege leave was sent to the Executive Engineer, Nellore for delivery, and has been returned by the Executive Engineer who says Rámanárain Ponday cannot be found, that he had left Nellore and his address is not known.

8. He signed his letter to you as "Overseer on leave."

9. I accordingly applied by wire to the Zillah Surgeon, Nellore, to know if he had given any certificate for leave to the Overseer.

10. In reply, the Zillah Surgeon states "Overseer Ramanarain ceased to attend hospital as outpatient on 18th February. Admission Certificate granted with no specified period."

11 It is evident, therefore, that this Overseer is now absent without leave, and has ipso facto forfeited his appointment.

12. If I knew his address, I should suspend him, call for an explanation and forward it when received for orders. But I do not know his address, and cannot follow this course.

13. An Overseer is urgently wanted in the Gudiváda Division; I am unable to transfer one from any other Division, and I beg that one may be posted with orders to join by the most expeditious route.

I have the honor to be,
Sir,
Your most Obdt. Servant,
J. W. Rendall
Superintending Engineer II Circle

It is apparently impossible to suspend Ramnarain Pandey & call on him for explanation as his whereabouts is not known. His appointment must be declared forfeited.

Abstract of the Case of Mr. Ramnarain Pandey Overseer P.W.D.

This Officer reported sick on the Morning of the 4th Inst, complaining of headache fever &c. he was placed in the sick list, & continued under my treatment upto the morning he left the Station for Nellore namely the 9th Inst.

The Symptoms as in his case were daily attacks of fever preceded by more or less Chilliness, dull heavy headache, great thirst, giddiness, nausea, & in some occasions vomitting (which seemed to give relief). On one night particularly he suffered from high fever, severe headache & some delirium. On leaving the Station, he was in rather a weakly state, and I strongly impressed upon him the necessity of avoiding all exposure, as much as possible.

Treatment + + +.

To, The Supt. Engr. 2nd Circle
Masulipatam.

Respected Sir,

I most respectfully beg to bring to your kind notice that while at Sangam, on the Eveng. of Sunday the 3rd Inst., I had, a very severe attack of fever & cold, and from the next day the 4th, I was under Medl. treatment at Sangam. On the 8th, having had a slight abatement of fever, I came out & handed over charge to Sergt. Cope. I came here on 9th Saturday, & reported myself to Capt. Henderson R.E., on the 11th Inst., who directed me to proceed to Gadwada, when I represented that I am not well. Thereon he directed me to produce a Medl. certificate, and I am now under Medl. treatment, as per copy of the ~~[illegible]~~ certificate herein enclosed (Original forwarded to Capt. Henderson by Dr. Ottara). which Dr. Ottara gave for me today. I feel very weak, and require good rest after my complete recovery from fever. I therefore humbly beg you will be pleased to peruse copy of my case (herewith submitted) made out by Mr. J. J. Goggan, Apothecary

in Charge of Sangam Hospl., and to grant me 3 months
Privilege Leave, (as per application form, herewith submitted
duly filled up) as I am entitled to it, having had
no leave since Feb. 1880, and I shall feel highly
thankful for the kindness.

I beg to remain

To. W. O'Hara Esqr. Surgeon
Zillah Surgeon Nellore.

Respected Sir

After taking your kind permission to come here & live
with my parents till my complete recovery: I humbly beg
to state I left the place on the 19th inst., but owing to exposure to dew
at nights and to a mishap on the 20th night in a nullah 4 miles
north of Ramapoorta Station, when there was 3 ft of water, my spring
cart drawn by my pony capsized, and I had another attack of fever,
which was very severe. The medicine as prescribed by your honor,
which Mr. Soojan Singh gave me, proved very effective, tho' I had to take
it for 3 days during the fever. The day before yesterday, I had a
slight attack: from yesterday I do not get fever, but feel very weak
my parents taking the utmost care of me. I shall take small
doses of Quinine, which I intend continuing till the end of this
week, after which I will take a mild tonic, as will be kindly
prescribed by your kindness, for which I shall feel highly thankful.

I further beg to state that your honors very kind permission whenever I came here, ~~but~~ has to be Officially informed by me to my Supd. Engr.; and I therefore beg your honor will Kindly favor me a Certificate Containing ~~for~~ the above permission till the end of March, so that after taking the tonic, I may Complete my journey to Kistna Dt. within that period. This Certificate I have to send to my Supd. Engr. along with my report.

Soliciting your kind pardon for the trouble

I beg to remain

W. Ottera Actg. Surgeon
Zillah Surgeon Nellore.

Respected Sir,

In continuation of my letter dated 26 Feb 84, I most respectfully beg your honor will be graciously pleased to favor me in writing what your honor was pleased to order me when I complained of my case while under your ~~treatment~~ at Nellore. It was on your honor's verbal orders that I left Nellore to join my parents, for better help towards recruiting my health, with medicines & directions. Your honor will see from the Notificatn. in the last Ft. St. George Gazette Part II that my services in the P.W.D had been dispensed with for having left Nellore without leave, whilst I actually had your kind orders. Your honor is well aware of the State of health I was in, while at Nellore, and the circumstances that urged me to leave the Station. I therefore beg your honor will be gracious pleased to favor me in writing your very kind verbal permission to go & live with my parents for the time being, & thus save me from the effects of my present misfortune.

I feel compelled to register this letter owing to the urgency of the matter for which I beg to be excused.

I beg to remain

To
Col. J. H. M. Shaw Stewart R.E.,
Secy to Govt. P.W. Dept.

Most respected Sir,

With reference to the Notification in the
Ft. St. George Gazette of 18th Inst., declaring th
my services in the P.W.D has been dispensed with
for my having left my station without per-
mission, I most respectfully beg to bring to
your honors notice, that I am quite innoc
of the Charge brought against me. For, on my
transfer from Sangam to Nellore, I was re-
lieved at Sangam, and on my report of ar
to the Executive Engineer Nellore, my transf
to Gudivada was communicated verbally
by that officer, and as I was very badly off w
fever & ague, I placed myself, at the instance
the Ex: Engr. Nellore, under the treatment
the Zillah Surgeon at Nellore, and finding

Still worse. I have applied for Privilege

medl. Certificate and left Nellore to Jo

parents, on the distinct Order of the Civ

Surgeon, to recruit my health.

Under these circumstances I beg to Subm

that I quite fail to see the spirit of the Charg

preferred against me. I beg therefore that Your

honor will be graciously pleased to order for a

Copy of the Superintending Engineer's (2 circles) re-

port against me, may be granted to me so tha

I may be able to offer my explanation for Your

honor's kind consideration.

I humbly beg to remain

most respected Sir

SECRETARY TO GOVERNMENT
31 MAR 84
P.W. DEPARTMENT

To
Col. J. H. M. Shaw-Stewart R.E.
Secretary to Govt. P.W.D. Madras.

Respected Sir,

With reference to Govt. No. 705 C. dated 22nd March forwarding Copy of a letter No. 3114 K.S. dated 8th March /84 from Supg. Engr. 2nd Circle, I most respectfully beg to state that the order of the Supg. Engr. directing me to join Gudwada instead of Nelle did not reach me; but in Obedience to his first Order, I on rel by Engr. Coy. at Sangam, reported my arrival to the Ex: Engr. Ne on the 11th Feb, who told me verbally that I stand posted to Gu

2. The accompanying Copy of a Statement made out by the -thecary at Sangam, will go to Convince the fact of my ha been ill while at Sangam, a little prior to the date of my -ture to Nellore. With such an impaired state of my I proceeded to Nellore, and as apprehended by the Apoth I had a relapse of fever &c, in consequence of the exposure hardship in the way. Under such deplorable Circumstan I thought it advisable to postpone the immediate trip to Gu -vada lest matters should turn out worse, and made a re -tion of all these to the Ex: Engr. Nellore, who directed me to myself under medical treatment. Agreeably I joined the Dispensary the same day the 11th Feb 84. An Admission Cert was sent by the Zillah Surgeon direct to the Ex: Engr. Nellore, [illegible] my requests for its being given into my hands, on the 16 or after testing my sickness for 4 days.

3. I further beg to state that on the 16th Feb 84, I wrote a letter Copy enclosed, to the Supg. Engr. 2nd Circle, requesting him to grant m Privilege Leave for 3 months, being Eligible for the same, explaini therein the state of affairs above narrated: and 2 days after on the 18th Feb, feeling weaker day by day, and seeing that I w helpless save my servant, I requested the Zillah Surgeon -mit me to repair to my native place, where with the aid of m parents, and the medicines I was then favored with, I th [illegible] restored to health. This request was com

the in the presence of :

1. Asst. Surgeon Mr. Chittambara Pillay. } of Nellore
& 2. Civil Hospital Asst. Z. Soojan Singh. } Civil Dispensary

f.tm left Nellore on the 19th February for St. Thos. Mount.

. I wrote a letter to the Zillah Surgeon Nellore (copy enclosed) the 26th Feb, requesting him in Conclusion to grant me a itten Statement of his verbal permission, but received no reply it, upto this date. But a letter written by the Hospital Asst. the above Mr. Z. Soojan Singh,— on the 25th Feb, was received by me n the 27th Feb of which a Copy is enclosed, which would prove grant of the Zillah Surgeon's permission to me to quit the place. hich being the case, the Notificn. in the Ft. St. George Gazette dated March 1884 to the effect that my services in the P.W.D had been spensed with for leaving my station without leave, took me surprise, as I have had the Medl. Officers permission to quit e place, not my Station, but the place enroute my Station.

Soon after the issue of the above Gazette, I wrote again to Zillah Surgeon, a letter, which I registered on the 20th March py of letter, & his acknowledgement in Original are enclosed) sisting the same; and even to this I have not received upto te, any reply. As I have acted entirely on the faith of verbal permission of the Zillah Surgeon, the non receipt a reply to two of my letters, it makes me feel quite uneasy, nd I therefore request Orders for Sworn Affidavits being tained, if Considered necessary from all the three officials mely :—

1. Zillah Surgeon. W. Otara Esqr.
2. Asst. Surgeon. Mr. Chittambara Pillay
3. Hospl. Asst. Z. Soojan Singh.

testify a single fact namely "the verbal permission of the illah Surgeon given to me on Monday the 18th Feb: 1884, to quit my this place at my special request": a fact which the Hospl. Assistant's letter clearly proves— vide Copy of his letter enclosed.

. I should here beg leave to state that I was actuated belief that the Zillah Surgeon's permission to quit the ce entirely for the benefit of health, is all that was y in such a predicament followed hitherto: and I trusted lly that the Zillah Surgeon would inform the Ex Engr. Nellore verbal permission to me as above, in the same way, as he had t the Admission Certificate direct to him.

In Conclusion I humbly beg your honor will Kindly Consider, whether after serving* faithfully for nearly 14 in the Dept., I would possibly act myself in a way as to forfe my appointment, if I had not acted on the belief above stat Under these Circumstances I beg your Kind Orders to reinstate me in the Dept., and for the grant of the -lege Leave sought for, as stated in the Supd. Engr's lette above referred to, para 4: and for which piece of kind I shall as in duty bound feel highly thankful.

I humbly beg to remain

1 No. 800 C of 2nd April 1884. with 11 enclosures.
1 Copies of Nellore Zillah Surgeon's No. 45 of 28th March 1884. and its enclosure

Sir,

I have the honor to return herewith, the letter to your address (with its enclosures) from late Overseer Ramanarain Ponday, received with your No. 800 C of the 2nd Instant.

2. My letter of the 8th March sufficiently explains my action with regard to this Overseer.

3. It is of course a mere quibble for this man to say, that the order for him to join at Gudivada did not reach him. My order was sent to Captain Henderson, not to the Overseer direct, and Ramanarain Ponday admits that Captain Henderson told him to join Gudivada. Further in his letter to me, dated 16th February, he states that when he reported himself in Nellore, Captain Henderson

directed him to proceed to Gudivada.

4. I forward for your information a Copy of a letter from the Zillah Surgeon Nellore, and its enclosure.

5. The Overseer has I see furnished you with a Copy of his letter to the Zillah Surgeon, which is alluded to, viz that dated 26th February.

6 Doctor O'Hara's statement is most distinct, that he refused to give Ramanarain Pouday leave.

7. The Overseer left Nellore without any Communication, either with the Zillah Surgeon, with Captain Henderson the Public Works Officer on the spot, or with me. He also left before he could possibly have received an answer from me to his application for leave, that is, he left on the 18th or 19th having written to me on the 16th. It seems to me that the Overseer deliberately quitted his post without leave.

8. During the time he was employed in this Circle, Ramanarain Pouday's conduct was not Satisfactory.

9. He did not probably foresee the serious consequences of being absent without leave, but thought he would force me into granting the privilege leave he wanted, or that he would be able to get the transfer to a Southern District for which he applied to you direct.

I have the honor to be,
Sir,
Your most Obedt Servant

Letter from P. Ramnarrain Pondai (H.E. dated March 29. 1884)
" " S.E. II Circle . . . . . . (" No. 18 N.L. d/ April 7. ")
" " P. Ramnarrain Pondai (" dated April 14 ")

The Supdg Engineer II Circle having reported in his letter No. 3114 R.S. dated 8th March 1884 that Overseer P. Ramnarrain Pondai had quitted his station without leave, the appointment of the Overseer was, in G.O. No. 722 W d/ 15th March 1884, declared forfeited

No: 800 C d/2-4-84
" 533 D d/17-2-8

under Section 140 of the Civil Leave Code.

2. There is nothing in the correspondence which has since transpired to show that the Overseer had any valid ground for assuming that he had obtained authority for leaving his station in the II Circle, and proceeding to St. Thomas' Mount; but as he seems to have been unaware of the serious consequences which his proceedings involved, and has moreover had a lengthened service in the Department, the Government are disposed to deal as leniently as possible with him. They accordingly direct that the order of dismissal be withdrawn, and that the Overseer be punished by suspension from office for the whole period of absence, and by reduction from the 2nd to the 3rd grade of Overseer, - the reduction to have effect from the date on which he may rejoin the II Circle.

Sir,

Vide 1089 W of 2-5-84

With reference to Para 1 of G.O. No. 722 W of the 15th March 1884, declaring, that Overseer P. Ramanarayan Pouday, having left his station without leave, his appointment in the Public Works Department is forfeited, I have the honor to request you will be good enough to inform me, the date from which this Overseer's dismissal is to take effect, The Overseer commenced to attend the Nellore Hospital on the 11th February 1884, and finally left without leave on the 18th or 19th February and proceeded to Madras.

2. This reference is necessitated,

No: 800 C d/...

owing to a sum of Rs 40 advanced to him by the Executive Engineer, Sangam Project Division under my orders to enable him to join the Gudivada Division, being outstanding against him in the books of the Gudivada Division. On receipt of information as to the date from which his Connection with this Department is to be considered as having ceased, the necessary steps will be taken to adjust the above Item now outstanding in the Miscellaneous Advance Account.

I have the honor to be,
Sir,
Your most Obdt Servant.

J. W. Rundall
Superintending Engineer,
2nd Circle.

Respected Sir,

I most respectfully beg to express my deep sense of thankfulness for the Clemency shown in the disposal of my the most unfortunate case embodied in G.O. No. 1089 W. dated 2d May 1884.

2. I further beg humbly to state that in as much as Several of my Juniors have already Superseded me to a great extent, the reduction therein Ordered is felt by me inexpressibly deeply. I have 14 years Service as an Overseer in the Dept and my testimonials have been Submitted to you with my letter dated 16th Feb 84 through the Supg. Engr. II circle. I therefore

pray for your mercy to limit the time to which the degradation is to last, as I have already suffered a great deal for a mere thoughtless error.

3. In conclusion I beg to solicit your mercy again for orders as your clemency shall deem fit, as to the extent of salary to be drawn for the time that I had been been suspended, as required by P.W. Code para 545, Rule III (ii).

I beg to remain
