READ—the following papers :—

From J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Masulipatam, 26th December 1883, No. 801 N.L.—Through the Collector of Nellore District.

With reference to item No. 5 of G.O., No. 3468 W., dated 3rd instant, passing orders on the Provincial Objectionable

- 1 Detail and abstract estimate for cutcherry, Rs. 13,670.
- 1 Abstract estimate for ryots' shed, Rs. 1,080.
- 1 Duplicate abstract estimate for Rs. 14,750.
- 1 Comparative statement.
- 1 General abstract.
- 1 Executive Engineer's report.
- 1 Superintending Engineer's report.

Item Statement (Imperial and Provincial) for September 1883, I have the honor to forward, herewith, for your approval and sanction of Government, a revised estimate, amounting to Rs. 14,750, for constructing a second-class taluk cutcherry at Kóta, in the Nellore district. The necessity for the revision is explained in the accompanying reports by the Executive Engineer and myself.

From J. LEE-WARNER, Esq., Acting Collector of Nellore, to the Chief Engineer, Public Works Department, dated 10th January 1884, No. 133.

I have the honor to submit, with my countersignature, a revised estimate, for constructing a second-class taluk cutcherry at Kóta, received from the Superintending Engineer, II Circle, with his letter, No. 801 N.L., dated 26th ultimo.

ORDER—dated 17th January 1884, No. 146 W., Public Works.

The Government approve the revised estimate submitted by the Superintending Engineer, II Circle, for constructing a second-class taluk cutcherry at Kóta, in the Nellore district; the amount, Rs. 14,750, being the same as that already sanctioned in G.O., No. 366, of 2nd February 1877.

JANUARY.

Taluk Cutcherry at Kota.
Nellore District

The revised estimate submitted by the
Superintending Engineer, II Circle, for con-
structing a —, approved.

Proceedings of the Madras Government, Public Works Department,
2nd February 1877. No. 366.

No. 102. Read again the following papers :—
Proceedings of Government in the Revenue Department, dated 10th December 1873,
No. 1,385.

From the District Engineer, Nellore, dated 25th June 1875, No. 31.
Do. do. do. 30th October „ „ 62.
Do. do. do. 29th August 1876, „ 89.
Memorandum from the Chief Engineer, do. 21st September 1876, „ 1,002.

Read the following :—

From J. O'SHAUGHNESSY, Esq., District Engineer, Nellore, to Colonel W. T. F.
FAREWELL, Deputy Chief Engineer, Public Works Department, dated
Nellore, 7th November 1876, No. 138.

In re-submitting the plan and estimate for the 2nd-class Cutcherry proposed to
be built at Kotah, I have the honor to
explain, in reference to your memorandum
No. 1,002, dated the 21st September
1876.

2. *Main building*.—The excess of $875\frac{1}{2}$ cubic feet of brick-work, as compared
with the standard quantities, was owing to increased thickness and depth in foundations
and retaining wall proposed by the Range Officer, and approved by the late District
Engineer. On looking into the matter more closely, the increased dimensions do
not appear necessary and the quantity is now reduced to that of the standard design.
The excess of $43\frac{3}{4}$ cubic feet of laterite is also struck out for similar reasons.

3. *Ryots' Shed*.—Excess in Masonry ... 54 cubic feet.
„ in earthwork filling ... 121 „
Pointing ... $1\frac{1}{4}$ squares.
Teakwood ... 74 cubic feet.

The excess in the first three items is caused by an increased height of 3 inches
in the foundation and basement which is considered necessary to suit the site. The
excess in the fourth item is caused by the substitution of a trussed for a couple roof :
there is a slight saving by the omission of couples, but the increase in the whole roof
due to trusses is Rupees 200. I would strongly urge the adoption of the truss roof in
preference to the couple roof, and I request it may be sanctioned.

4. *Latrine (Establishment)*.—The excess of $121\frac{1}{2}$ cubic feet in masonry is owing
to the screen and partition walls being calculated at 9 inches instead of 6 inches
thickness allowed in the standard design : the increased thickness appears necessary,
and as the difference is small it may be passed.

5. *Latrine (Jail)*.—The excess of 81 cubic feet is due to the same cause as the
excess in Latrine Establishment.

6. The few errors in calculations have been corrected.

7. The difference pointed out in paragraph 4 of your memorandum is explained
in paragraph 3 above.

8. The plans and estimates are now countersigned by the Collector.
9. All the arrangements connected with the site have been made by the Collector's department. The amount of compensation has been fixed by the same department with the Collector's approval.
10. The site is objected to by this department, but the Collector appears to adhere to it in spite of these objections. These are,—that there is no occasion to build in the middle of the village; that the promises made by the owners of the houses to give them up for certain amounts of compensation are not binding and cannot be relied upon, and that a favorable site on waste land is available at a distance of about a quarter of a mile from the village.
11. The difference between the estimated and the district schedule rates are explained in the case of—
- Brick-work*, that the soil in the neighbourhood of the building is bad, and bricks will have to be made at a considerable distance from the work; and that firewood for brick burning is exceptionally scarce and expensive in the neighbourhood.
- Teakwood*—the excess of 6 Pies a foot is very small, and rates vary.
- Batten doors* have to be made at Nellore and carried 40 miles to the work. The price of teakwood is also rising.

No. 103.

ORDER THEREON, 2nd February 1877, No. 366.

CIVIL WORKS, No. 8.

(a) *Head of Service*.—Provincial.
Fund.—Ordinary.
Class.—Original Works.
Main-head.—Civil Buildings.
Sub-head.—B, Revenue Department.
Section.—II, Taluk Cutcheries.
Name of Work.—Constructing a 2nd-class Cutcherry at Kotah.
Amount.—Rupees 14,750.
To be carried out by the Public Works Department.

HIS GRACE the Governor in Council sanctions the estimate of Rupees 14,750 for constructing a 2nd-class Cutcherry and out-buildings on the standard plan at Kotah in the Nellore district.

2. There are at present no funds available for the work.

3. This sanction is registered as Provincial No. 230—W. of 1876-77.

No. 158.

READ—the following papers :—

From J. W. RUNDALL, Esq., Superintending Engineer, Second Circle, to the
Chief Engineer, Public Works Department, dated Camp, Bezvada, 5th
August 1882, No. 440 N.L.

I have the honor to forward herewith a revised estimate for the Kandukúr sub-
jail, amounting to Rs. 12,325, together
with a comparative statement and expla-
natory memorandum by the Executive
Engineer and two reports.

- 1 Estimate.
- 1 Abstract Estimate.
- 1 Comparative Statement.
- 1 Explanatory memorandum.
- 2 Reports.

latrine be converted into a ryots' shed, only Rs. 350 more than the present sanction
will be required to complete the building.

3. As far as my experience goes numerous latrines have been constructed
throughout the Presidency in connection with these Cutcheries which are never used,
nor can they be used unless an establishment is maintained to keep them clean.
There are still many Cutcheries on the standard plan to be built in various districts,
and I would suggest district officers being called on to report whether it is necessary
to continue building latrines which are never used.

No. 608 E.

Referred to the Judicial Department for approval, and for consideration whether
the ryots' shed may be omitted as suggested; the latrine being finished off to serve as
such.

(By Order.)

G.O., dated 8th September 1882, No. 892, Judicial.

READ—the following Proceedings of the Board of Revenue, dated 2nd September
1882, Miscellaneous No. 6818 :—

Read—Office memorandum from the Acting Under Secretary to Government, Judicial
Department, dated 25th August 1882, No. 810.

Resolution—dated 2nd September 1882, Mis. No. 6818.

The Board agree with the Superintending Engineer. The construction of latrines
is generally unnecessary considering the small number of prisoners usually confined in
sub-jails, and it is believed that such buildings are but rarely used for the purpose for
which they are intended.

(True Extract.)

(Signed) E. GIBSON,
Acting Secretary.

Order—dated 8th September 1882, No. 892, Judicial.

Approved and transferred to the Public Works Department, with reference to endorsement in that Department dated 21st August 1882, No. 608 (returned).

(By Order.)

(Signed) G. S. FORBES,
Acting Under Secretary.

No. 159.

ORDER—dated 20th September 1882, No. 2440 W., Public Works.

The proposal to finish off the partly built latrine at the Kandukúr sub-jail, Nellore District, to serve as a ryots' shed, having been approved in the Judicial Department, the building provided for in the estimate for the latter purpose need not be constructed. The excess over the original estimate, sanctioned in G.O., Judicial Department, No. 1488, dated 11th August 1874, will thus be only Rs. 350, and this can be dealt with by the Superintending Engineer under paragraph 293, clause (e) of the Public Works Code.

2. The Proceedings of the Board of Revenue, communicated with the foregoing endorsement from the Judicial Department, will be communicated to all Superintending Engineers for information and guidance.

10th January 1884

FROM

The *Collector* COLLECTOR OF NELLORE.

TO

The Chief Engineer,
Public Works Department,
Madras.

SIR,

I have the honor to submit
with my countersignature a revised
estimate for constructing a 2nd class
Taluk Cutcherry at Kotah, received from
the Superintending Engineer 2nd Circle,
with his letter No. 801 N.L., dated 26th ultimo.

I have the honor to be,
Sir

Your Most Obedt. Servant

J. *Collector*
Collector.

Public Works Department, 1883-84.

Current No. 301

Letter No. 133

Dated the 10th Jan/84

From the Ag. Collector of Stellore

NOTE OF REMARKS.

1. The revised estimate now submitted provides for certain alterations to be effected to the 2nd class Saling butchery at Stota in the Stellore District, sanctioned in G.O. No. 366 of the 2nd Feb. 1877. The original and revised estimate, each amounts to Rs. 14,750.
2. It is proposed to change the site, or rather, the site has been changed, which creates a saving of Rs. 1,593. Cook-house and latrines are to be omitted. The two latrines are omitted under G.O. No. 246 of the 20th Sept/82; and the cook-house is not required as food is

B. 17/11

supplied by contract. These
are the main heads under
which the total saving
is effected - Rs. 5,332. Again
this sum, Rs. 5,332, is disposed
of; or rather, it is proposed
to expend it in the con-
struction of a compound
wall and two culverts,
and in effecting certain
improvements in the
main building and
Pigst's shed.

3. The estimate has been
counter-signed by the
ag. collector of the District.
