ORDER—dated 24th June 1884, No. 1581 W., Public Works.

With the papers read above, Superintending Engineers and the Consulting Architect submit statements of the estimated requirements for the current official year, in lump sums for minor works and tools and plant for each division; and in detail for the incomplete works of the past year, and for new works recommended to be taken up in 1884-85.

2. Under "Imperial other services," the demands against "Original works" amount to—

	RS.
Postal ...	5,151
Telegraph ...	1,000
Salt ...	553

of which only Rs. 1,404 under Postal have been allotted for the completion of two incomplete works. The balance of the minor works grant, after the above allotment for unfinished works, under Postal, Rs. 10,596, and the whole of the minor works grant under Telegraph, Rs. 6,000, are placed at the disposal of the Director-General of the Post Office, and of the Director-General of Telegraphs, as shown in Statement A. Those officers will allot the requisite funds for work to be undertaken during the year.

3. The sum of Rs. 553 is required under Salt, to permit of the early completion of the head sluice across Mercanam brine supply channel. On receipt of a reply to a

reference made to the Revenue Department, the requisite reappropriation statement, reallotting the sum required from the budget provision under Item No. 10, opening and maintaining the Covelong bar, will be submitted for the early sanction of the Government of India.

4. The allotments under Repairs will be found in Statement A.

5. The demands of Superintending Engineers under Imperial Military amount, as shown below, to Rs. 1,31,411 :—

For incomplete minor works ...	28,006
„ incomplete major works ...	4,875
„ new minor works ...	34,677
„ new major works ...	22,080
	41,773
Total ...	1,31,411

6. As the minor works grant, Item No. 5, Class B, amounts to only Rs. 22,320, the demands of Superintending Engineer have been greatly reduced, as shown below; and (provision to meet the same having been made) the balance of the minor works grant, Rs. 10,961, has been placed in lump sum at the disposal of officers commanding divisions and districts, to be distributed individually in such proportion as His Excellency the Commander-in-Chief may deem proper :—

For incomplete minor works ...	Rs.
„ incomplete major works ...	1,961
„ new minor works ...	5,103
„ new major works ...	1,500
	2,795
Total ...	11,359

7. There are several new minor works for which funds have been applied for by Superintending Engineers; but as the balance of the minor works grant, after providing for works now on hand, has been placed at the disposal of the military officers commanding divisions and districts, application should be made to them by Superintending Engineers to meet outlay on such works as are to be carried out during 1884-85.

8. A reference has been made to the Military Department respecting suggestions of the Superintending Engineer, V Circle, to resume the budget grant for "Alterations and additions to wash-house for the British Infantry at Bangalore," and to reduce the budget grant for "Armaments of Fort St. George." On receipt of a reply, the necessary order will issue.

9. The allotment under Repairs will be found in Statement A. The grant to the Coimbatore Division includes the allotment required for special repairs to the European barracks at Cannanore. The demands of Superintending Engineers under this head amount to Rs. 2,95,000, but have been reduced to Rs. 2,75,000 to bring the sum within the provision in the budget.

10. The demands of Superintending Engineers under Provincial, for anticipated outlay on minor works, amount to Rs. 53,180, but have been reduced to Rs. 34,750 as shown in Statement C.

11. On account of incomplete works of last year, exclusive of Police and Registration, the demands amount to—

Major works ...	Rs.

Allotments have been made to the extent of the funds available.

12. Under New Works the demands amount to—

Replies having been received from Superintending Engineers to this office Circular Memo. No. 1549 C dated 21st. August 1882 the following instructions are now issued for the preparation and submission of the Statement of demands on the Reserve.

- The Statement should be divided into the following heads.
- (1) Incomplete Major works for which grants are required, in detail.
 - (2) Incomplete Minor works for which funds are necessary, in detail.
 - (3) Minor works grant for anticipated outlay during the year
 - (4) Repair Do. Do. Do.
 - (5) Tools and Plant Do. Do. Do.
 - (6) Establishment Temporary- in detail.

The demands under each Fund being shown separately.

2. The Statement should be submitted within six weeks after the close of the official year, and to admit of this being done, Superintending Engineers should obtain by the 15th. April the Divisional Progress Reports for March containing information as to audited outlay to end of January; adjusted outlay for February; and the outlay for March as recorded in the cash and other books maintained in the Division. The total outlay for the year thus obtained would be nearly correct, and sufficiently so to fix the probable grant for the ensuing year. If the Divisional statements of demands are received in Superintending Engineers Offices by the prescribed date, there will be sufficient time for the compilation and scrutiny of the demands, before submitting the Circle Statements.
