READ—the following paper :—

G.O., dated 25th September 1883, Mis. No. 2550, Judicial.

Read—the following letter from the Inspector-General of Registration, to the Acting Chief Secretary to Government, dated 14th September 1883, No. 2618 :—

I have the honor to submit a letter from the registrar of Salem, No. 264, dated the 11th September 1883, and, for the reasons stated therein, to request that you will be pleased to obtain the sanction of the Government to the preparation of plans and estimates in the Public Works Department, on the standard terraced design, for the construction of sub-registry offices at Vaniyambadi, Tiruchengod and Hosur, in the district of Salem.

ENCLOSURE.

From C. SAMBASIVA IYER, Registrar, Salem, to the Inspector-General of Registration, Madras, dated 11th September 1883, No. 264.

With reference to your Proceedings, G. No. 1563, of the 25th August 1883, I have the honor to bring to your notice that in this district there are at present three sub-registry offices standing in urgent need of new buildings for accommodation. Of these, Vaniyambadi is the worst accommodated, and its requirements must be attended to before those of any other. This has been specially noticed by you in your notes of inspection of that office last year, as will appear from the following extract :—“The office is held now in a Lubbai bazaar in the main street, a most unsuitable place for a sub-registry office containing valuable records and having many persons resorting to it for purposes of registration and search. A new office is very urgently needed. It should be built close to the taluk cutcherry.”

2. Next comes Tiruchengod, which office was located during the time of your inspection in a verandah of the taluk cutcherry. The accommodation was quite inadequate, and it was remarked by you that a new building was “very desirable.” This office, however, has since been removed to a rented building which could afford but a poor accommodation, being, as it is, simply a portion of a larger building intended for a private dwelling-house. In his anxiety to remove from the miserable verandah in the taluk cutcherry, and in the absence of a better private building, the sub-registrar shifted his office to the present one, and I think the necessity will soon be felt for an entirely new office.

3. As regards Hosur, I must say that a new office must soon be constructed, even if it be only to put a stop to the very heavy charges incurred at present on account of house-rent for the office; and if the new building can be constructed in a well guarded place in close proximity to the taluk cutcherry so as to obviate the necessity of continuing the appointment of the present night peon, as much as 10 rupees every month might be saved. The following are the remarks passed by you in your notes of inspection of that office :—“The accommodation, though sufficient, is ill adapted for an office. The two almirahs containing the registers and other records are kept in a small room which at half past 7 A.M. was rather dark.”

Order—dated 25th September 1883, Mis. No. 2550, Judicial.

Approved and transferred to the Public Works Department.

(True Extract.)

(Signed) M. HAMMICK,
Acting Assistant Secretary.

Sub-Registry Offices

Plans and estimates called for for constructing — at Vaniyambadi, Tiruchengudi and Hosur, Salem district.

21ST FEBRUARY 1884, No. 483 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Civil Works.

ORDER—dated 21st February 1884, No. 483 W., Public Works.

In modification of the practice at present followed with regard to the submission of plans and estimates for buildings required by other departments, the Government direct that the following procedure be invariably adopted in future.

2. Plans and estimates for buildings required by the Revenue Department should be submitted by the Executive Engineer to the Superintending Engineer, who, after scrutiny, will forward them to the Collector of the district for approval and counter-signature. If the Collector be satisfied as to the suitability of the proposed accommodation, &c., he will transmit the papers through the Board of Revenue to Government in the Revenue Department, by whom, if approved, they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

3. In the case of plans and estimates for court-houses, the documents will be forwarded by the Superintending Engineer to the District Judge for transmission, through the High Court, to Government in the Judicial Department, and the same principle will be followed with regard to estimates for Registration, Police, Jail, and other Civil Departments. The Superintending Engineer will forward the documents to the Head of the Department concerned, who will submit them to Government in the Department of the Secretariat from which he receives his orders.

4. The course at present adopted with regard to estimates for Military buildings is laid down in G.O., No. 1381 W., dated 14th June 1880, but here also a modification of practice appears desirable. In future such plans and estimates will be forwarded by Superintending Engineers for approval to the General Officer Commanding the District or Division. The General Officer will transmit the papers to the Quartermaster-General, who, after obtaining the approval of His Excellency the Commander-in-Chief, will submit them direct to Government in the Military Department. After approval in the Military Department they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

*NOTE.—In the case of Ordnance, Commissariat or other departmental buildings, the approval of the head of the department should be obtained before the plans and estimates are submitted to His Excellency the Commander-in-Chief.

5. It must be understood that these orders apply only to works which are beyond the power of sanction of local authorities, and are not intended to alter the procedure laid down in G.O., No. 3211 W., dated 6th December 1882, with regard to the submission of Local Fund projects,

San Francisco, 1891, No. 133, W. P. W. Works.

6. The Secretary, Civil Commission, will take the necessary steps for embodying these provisions in the Public Works Code, and in the form of paragraphs 1163 and 1335.
