Civil Works.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 19th June 1884, No. 301 E.W. :—

I have the honor to forward, for sanction, an estimate, amounting to Rs. 150, for improving a well in the compound of the Shoranur police station, Malabar district.

2. In G.O., No. 1972 W., of 4th August 1882, a sum of Rs. 2,077 was sanctioned for constructing a police station at the above village, and it is now in course of construction. The present estimate was prepared in this department at the request of the Police authorities and will be supplemental to the one for the police station.

3. According to the instructions given in G.O., No. 483 W., of 21st February 1884, the supplemental estimate was sent to the Inspector-General of Police for transmission to Government for sanction; and he returned it with a copy of G.O., Mis. No. 1056, Judicial Department, sanctioning the estimate in that department, which is herewith enclosed for convenience of reference.

ORDER—dated 1st July 1884, No. 1645 W., Public Works.

The estimate of Rs. 150, for improving a well in the compound of the Shoranur police station, in the Malabar district, is sanctioned as supplemental to the sanction accorded in proceedings of Madras Government, No. 1972 W., dated 4th August 1882.

2. This sanction has been registered as Provincial No. 77 W. of 1884-85, and classified as Civil Buildings, Original Works.

No. 291.

Report to accompany the abstract estimate of Rs. 2,077 for constructing a second-class Police Station-house at Shoranur, Malabar District, West Coast Division.

One Estimate.
„ Site Plan.

2. The estimate was prepared June last at the request of the Superintendent of Police, in accordance with the Standard Design No. 2 A (Sheet No. 15, tiled roof,) approved of in G.O., No. 1828, dated 2nd August 1880, with the exception of the foundation, which of course has been increased in depth 6 inches more than what is allowed for in the printed estimate of that design.

3. The erection of the building in question is essentially required, as the Police Station is at present kept in a narrow rented building close to the Post Office, belonging to a private individual.

4. Site has been selected and a sketch plan of the same is herewith sent.

5. The Inspector-General of Police has approved and countersigned both the site plan and estimate, the latter amounting to Rs. 2,077 may be sanctioned. The above officer states that the work may be carried out in the next official year, as there is no chance of getting money for it in 1882-83.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Civil Works.

ORDER—dated 21st February 1884, No. 483 W., Public Works.

In modification of the practice at present followed with regard to the submission of plans and estimates for buildings required by other departments, the Government direct that the following procedure be invariably adopted in future.

2. Plans and estimates for buildings required by the Revenue Department should be submitted by the Executive Engineer to the Superintending Engineer, who, after scrutiny, will forward them to the Collector of the district for approval and counter-signature. If the Collector be satisfied as to the suitability of the proposed accommodation, &c., he will transmit the papers through the Board of Revenue to Government in the Revenue Department, by whom, if approved, they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

3. In the case of plans and estimates for court-houses, the documents will be forwarded by the Superintending Engineer to the District Judge for transmission, through the High Court, to Government in the Judicial Department, and the same principle will be followed with regard to estimates for Registration, Police, Jail, and other Civil Departments. The Superintending Engineer will forward the documents to the Head of the Department concerned, who will submit them to Government in the Department of the Secretariat from which he receives his orders.

4. The course at present adopted with regard to estimates for Military buildings is laid down in G.O., No. 1381 W., dated 14th June 1880, but here also a modification of practice appears desirable. In future such plans and estimates will be forwarded by Superintending Engineers for approval to the General Officer Commanding the District or Division. The General Officer will transmit the papers to the Quartermaster-General, who, after obtaining the approval of His Excellency the Commander-in-Chief, will submit them direct to Government in the Military Department. After approval in the Military Department they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

*NOTE.—In the case of Ordnance, Commissariat or other departmental buildings, the approval of the head of the department should be obtained before the plans and estimates are submitted to His Excellency the Commander-in-Chief.

5. It must be understood that these orders apply only to works which are beyond the power of sanction of local authorities, and are not intended to alter the procedure laid down in G.O., No. 3211 W., dated 6th December 1882, with regard to the submission of Local Fund projects.

NOTE OF REMARKS.

1. This estimate provides for improving a well in the compound of the Shoranore Police station, and amounts to Rs. 150.

It is supplemental to the estimate, Rs. 2077, for a Police station at Shoranore, Malabar District, sanctioned in G.O. No. 1972 W. of the 4th August/82.

2. The work consists in lining the sides of the well with a masonry wall 20 ft. deep, and 1 foot thick - on this wall rises a parapet 3 ft. above ground level, and of the same thickness as the wall. All the

exposed faces of the
masonry to be pointed
with cement.
