PUBLIC WORKS STORE DEPARTMENT,
Madras, 13th September 1883.

No. 823 S.

From

THE GENERAL SUPERINTENDENT,
PUBLIC WORKS STORES, &C.,

To

THE Deputy Chief Engineer
D. P. W.
Chepauk

SIR,

Enclosures.
1 List.

I have the honor to forward a list of tools and plant and other articles borne on the books of the Public Works Stores which I recommend for sale by public auction, as there seems no probability of their being otherwise utilized.

2. All the Engines are untrustworthy, they have been several years in in the country and have been frequently repaired. The circular saws, I recommend should be sent to England for sale, as they will hardly realize a fair price if sold here, on account of their size; these also have been a considerable time in stock. The Surplus Stores have been extensively advertized in the Fort St. George Gazette but with the exception of occasional & demands for raw materials and a few indents for tools no appreciable reduction is

is apparent in tools and plant, although the rates have been considerably lowered.

3. There will still remain a large balance of surplus stock in & store, after the sale of the Stores as per list enclosed, but as it is not desirable to attempt to dispose of too much at one sale, I have selected only those items for which there is at present hardly any demand.

I have the honor to be

The value of (Rs. 2,311) the circular saws sent by the General Superintendent P.W. Stores to the India Store Department for disposal with reference to G.O. No. 3265 W. dated 16th. November 1883 is still outstanding in the Stock Purchases and Sales Account of that Division, as no advice of the amount recovered by sale has apparently been sent to Local Government by the Secretary of State.

2. I would suggest some action being taken with a view to an adjustment of the outstanding amount.

S.A.W.

Was there not some unmeaning & unnecessary delay in this matter? —

On 26th October Supdt asked for leave to send the 50 Circular Saws to England.

Proposal was sanctd & on 16th Novr it was notified to India Office that the 50 saws would be sent.

On 20th March 84 Tonnage statement was sent in & per "Arno" following day 38 saws were sent. It is by no means clear why the saws were not sent in November or December. I don't understand it.

Dear Mr Gray

Please see Dr's note on the accomp. file.

Can you kindly explain the cause of the delay in sending the circular saws to England?

Yours truly

C. Simpson

Dr Mr Simpson 9.7.84

There was much heavy work going on about this time, in addition to our usual work. I note a few —

The heavy iron bridges belonging to Mysore were being cleaned painted, marked & delivered to Bellary-Kistna State railway

Heavy Cases & Slabs of Umra=vathi Marble were unloaded at the basin, without appliances put on trucks, & delivered at the Museum.

Large quantity of Tools were received per "Adjutant" from England — these had to be unpack=ed counted, and packed in the Store rooms.

Engines & Mountain Mills recd & despatched per "Clan Sinclair" & Pelican

4 Engines & Pumps per Goorkha

Erected - cleaned, tested and delivered -
Removing from beach and despatching 80 pairs of heavy railway wheels for the Nizam State railway -
Heavy Indents from the State railways for Stores Emergently required -
Sale of Obsolete Machinery P.W. Stores, and delivering same to purchasers, and lots of other works - Whenever the men were available they were put on to clean and pack the Saws -

Jno. Gray
