

21ST FEBRUARY 1884, No. 483 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads
Civil Works.

ORDER—dated 21st February 1884, No. 483 W., Public Works.

In modification of the practice at present followed with regard to the submission of plans and estimates for buildings required by other departments, the Government direct that the following procedure be invariably adopted in future.

2. Plans and estimates for buildings required by the Revenue Department should be submitted by the Executive Engineer to the Superintending Engineer, who, after scrutiny, will forward them to the Collector of the district for approval and counter-signature. If the Collector be satisfied as to the suitability of the proposed accommodation, &c., he will transmit the papers through the Board of Revenue to Government in the Revenue Department, by whom, if approved, they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

3. In the case of plans and estimates for court-houses, the documents will be forwarded by the Superintending Engineer to the District Judge for transmission, through the High Court, to Government in the Judicial Department, and the same principle will be followed with regard to estimates for Registration, Police, Jail, and other Civil Departments. The Superintending Engineer will forward the documents to the Head of the Department concerned, who will submit them to Government in the Department of the Secretariat from which he receives his orders.

4. The course at present adopted with regard to estimates for Military buildings is laid down in G.O., No. 1381 W., dated 14th June 1880, but here also a modification of practice appears desirable. In future such plans and estimates will be forwarded by Superintending Engineers for approval to the General Officer Commanding the District or Division. The General Officer will transmit the papers to the Quartermaster-General, who,* after obtaining the approval of His Excellency the Commander-in-Chief, will submit them direct to Government in the Military Department. After approval in the Military Department they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

*NOTE.—In the case of Ordnance, Commissariat or other departmental buildings, the approval of the head of the department should be obtained before the plans and estimates are submitted to His Excellency the Commander-in-Chief.

5. It must be understood that these orders apply only to works which are beyond the power of sanction of local authorities, and are not intended to alter the procedure laid down in G.O., No. 3211 W., dated 6th December 1882, with regard to the submission of Local Fund projects.

21ST FEBRUARY 1884, No. 483 W., PUBLIC WORKS.

6. The Secretary, Code Committee, will take the necessary steps for embodying these rules in the Public Works Code, in modification of paragraphs 1168 and 1335.

No. 66

From the medical officer
To the Commandant
29th Regiment

Berhamport
31st March 1884

Sir I have the honor to report that the regimental
hospital is in a bad state of repair and in need of
thorough renovation, and also that no suitable accom-
modation exists at present for infectious cases.

As the walls of the interior are in a very dirty condition,
I have the honor to request that the D. P. W. be called
upon to whitewash them as soon as possible and also to
request that a detached shed be erected in the
hospital compound for the accommodation of
cases requiring segregation.

I have the honor to be, Sir
Your most obedient servant.

Sir With reference to No 101 of the 9th instant
I have the honor to state that two Sheds each
18 feet in length and breadth, and 12 feet in
height would answer the requirements. The walls
might be of strong matting and the roofs
thatched.

I have the honor to be, Sir
Your most obedient servant

Sir With reference to my letter no. 77 of the 10th instant in answer to no. 101 of the 9th idem, I have the honor to report that no steps appear to have been taken to erect the sheds therein mentioned. These sheds are very urgently required as no accommodation exists in the hospital for the reception of cases requiring isolation.

I have the honor to be, Sir
your most obedient servant.

With reference to para 1336 of the P.W. Code, I have the honor to report that the Commandant 29th Regiment Berhampore having sent in an emergent Requisition (Copy enclosed) to the Executive Engineer Ganjam for erecting 2 infectious sheds in the Regimental Hospital Compound at Berhampore, the work has been put in hand in anticipation of funds. The estimated cost of the work is Rs. 340.

2. With regard to the emergent necessity for the work, the Commandant 29th Regiment Berhampore has furnished me with copies of letters from the Medical Officer 29th Regiment to

his address which I herewith submit

I have the honor to be
