9TH JUNE 1884, No. 1409, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following papers :—

From Colonel T. E. TENNANT, Inspector-General of Jails, to the Chief Secretary to Government, dated Ootacamund, 7th April 1884, No. 93.

Referring to G.O., 23th March 1884, Mis. No. 822, Judicial department, I have the honor to submit, for the approval of Government, the following draft rule for insertion in the Public Works Department Code as paragraph 1546-A and in the Jail Code under the section of labor :—

"1546-A. When convicts are employed in blasting, well-sinking, excavations, and works of a dangerous character, it will be the duty of the Public Works officer to take every reasonable precaution to guard against accidents. In blasting operations no convict shall be employed to fire the charges. In excavations the sides should be sloped or cut in steps. Convicts with chains will not be employed on scaffoldings, their fetters will be removed."

2. I take this opportunity to point out what appears to be an error in paragraph 1546, Public Works Department Code, for the words "between the Magistrate and the Executive Engineer" read "between the Jail authorities and the Executive Engineer." The wording of this paragraph has probably been taken from the old Bengal Code when the "Magistrate" held the administrative charge of the jail.

3. I also bring to notice that in paragraph 2399, Public Works Department Code, the words "credited to the Civil department" should be "credited to the Jail department" (agreeably to G.O., No. 1442, dated 1st November 1872, and G.O., No. 957, dated 7th May 1878, Judicial department, and jail rule No. 500), intimation being given to the Jail department in order that the amount may be credited in the jail accounts.

No. 66 E.

The proposals in paragraphs 1 and 2 of the Inspector-General's letter seem unobjectionable. The draft standing order for the Public Works Code, referred to in paragraph 1, should, it is considered, be framed without the last five words "their fetters will be removed." It is sufficient, so far as the Public Works department is concerned, if the rule be laid down that "convicts with chains will not be employed on scaffoldings."

2. The alteration of the Public Works Code proposed in paragraph 3 seems unnecessary. It rests with the Accountant-General to credit the receipt to the proper head in the civil accounts.

OOTACAMUND,

From H. F. CLOGSTOUN, Esq., Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 14th May 1884, No. I.B.D.-182.

Account Current department.

With reference to your official memorandum, No. 1020, dated the 9th May 1884, I have the honor to state that this office will have no difficulty in crediting the Jail department with the value of convict labor employed on Public Works, as the words "Civil department" in paragraph 2399 of the Public Works Department Code include the Jail department.

ORDER—dated 9th June 1884, No. 1409, Judicial.

The following draft rule is approved, and will be inserted in the Jail Code under section 7, Labor:—

"When convicts are employed in blasting, well-sinking, excavations, or on works of a dangerous character, it will be the duty of the Public Works officer to take every reasonable precaution to guard against accidents. In blasting operations no convict shall be employed to fire the charges. In excavations the sides should be sloped or cut in steps. Convicts in fetters are not to be employed on scaffoldings."

(True Extract.)

E. F. WEBSTER,
Chief Secretary.
