vertisement in the
Gazette.

draft order in the
I Branch - we
should do likewise.
Please set the
Librarian to work.
(2) He should have a

Please see accy. note by
the Librarian -

Have always kept the
order in view, when Appendix
A to Standard Specifications was
separately issued, a number of
copies were sent to the Press to
be advertised for sale.

The same course was
pursued with regard to the
revised edition of the Specifications.

which it is shown

a large number of copies of which are on sale at the Press.

Orders have already been issued with regard to Appendices A to F. to Standard Specifications, which will shortly be issued as a bound volume. The Subt. Press has already been advertising this publication in anticipation of its being ready.

Similarly with regard to the last Classified List - after its issue, the Subt. was told to keep a specified number of copies for sale, & he has been advertising them. The same thing will be done with the next issue.

When the Admin. Report for 1883-84 is ready, a certain number of copies will be retained in the Press for sale.

The only point we have not yet attended to is an advertisement in the local newspapers - up to recently, I was under the impression that Mr. Keys would attend to this, but he told me lately that he would advertise only in the Gazette & that the Secretariat should see to the newspaper advertisements.

As soon as the Appendices to Specs are ready, we can send one advertisement to the papers, including all the publications of our Branch which

which are on sale at the Subt. Press.

Under these circumstances you will perhaps consider an order of Subt. similar to 468 I, unnecessary - I don't see what else we can select for sale for the present. In W Branch we have had narratives of projects as they have in I Branch.

What we want is a complete list - to be placed on record - of the books which we are now, or may hereafter, offer for sale. Please instruct the Librarian to draw up such a list.

The Librarian has gone
carefully into this matter,
& the only publications
which can be selected
for sale to the public,
are those named in the
accy. draft.

The list is very small,
but there are so few
publications in the
branch which can
be selected for such
a purpose.

D.W. is of opinion
that our standard plans
are not proper papers
to be sold to the public.

If you approve
the draft order, I shall
submit it for appro-
val to Dir. & Co.
in the usual course.
