28TH JULY 1884, No. 1823 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

G.O., dated 9th July 1884, Mis. No. 1520, Financial.

Read—the following letter from the President, Municipal Commission, Kurnool, to the Chief Secretary to Government, dated 1st July 1884, No. 227 :—

In reply to the official memorandum of the Acting Assistant Secretary, No. 1338, dated 19th June 1884, I have the honor to inform you that the Executive Engineer, Kurnool division, has been asked to furnish the commissioners with an estimate of the cost of the proposed water-works. This he has not yet done, and has not had time to do. On receipt of the estimate, I shall lay the views of the commissioners before Government.

2. Meanwhile, I venture to remark that I do not think it probable that any new system worth having will prove to come within the means at the disposal of the commissioners, and, moreover, I do not think the matter one of great importance. The question was informally discussed in 1881, and this was the opinion arrived at : Kurnool is a poor place, decreasing in population and importance, and situated, as it is, at the confluence of two perennial rivers—one of them a river of the first order—the question of water-supply never, even before the introduction of the present system, was a question of really urgent importance. The present system is vicious from a sanitary point of view, and it is, in fact, a pernicious luxury : it never was a matter of necessity.

Order—dated 9th July 1884, Mis. No. 1520, Financial.

Recorded, pending receipt of the estimate, the submission of which the Executive Engineer will be requested, in the Public Works Department, to expedite.

Financial Department.
PROCEEDINGS OF THE MADRAS GOVERNMENT. 1823

Read the following Letter

From the President Municipal Commission
Kurnool, dated 1st July 1884 No. 224

In reply to the Official Memorandum
of the Acting Assistant Secretary

Referring to No. 1338 dated 19th June 1884, I have the
honour to inform you that the Executive
Engineer Kurnool Division has been
asked to furnish the Commissioners
with an estimate of the cost of the
proposed water works. This he has
not yet done and has not had
time to do. On receipt of the estimate
I shall lay the views of the Commission-
ers before Government.

Meanwhile I venture to
remark that I do not think it
probable that my new system
with having will prove to come
within the means at the disposal
V

of the Commissioners and moreover I
do not think the matter one of
great importance. The question was
informally discussed in 1887, and this
was the opinion arrived at. Kurnool
is a poor place, decreasing in population
and importance, and situated as it
is at the confluence of two perennial
rivers - one of them a river of the first
order - the question of water supply
never, even before the introduction of
the present system, was a question of
really urgent importance. The present
system is vicious from a sanitary
point of view, and it is in fact
a pernicious luxury: it never was a
matter of necessity.

Order thereon 9th July 1889, No. 1520 (M.S.)

Records¹ pending
receipt of the estimate, the submission
of which the Executive Engineer
will

1823
will be requested in the Public Works
Department to expedite.
