29TH JULY 1884, No. 1838 W., PUBLIC WORKS.

1838/1839

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers:—

From Brigadier-General R. C. STEWART, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 5th May 1884, No. 30-A.

In retransmitting correspondence received under your reference order, No. 1489, of the 25th March last, I have the honor to forward letter, No. 604, dated 30th April 1884, from the Commissary-General, requesting that the rough revised plan for a bakery at Wellington, as proposed by Colonel Hawkes and attached to his letter, No. 445, of the 23rd April, may be submitted to Government, and am desired to say that His Excellency the Commander-in-Chief approves of the alteration in the design, and considers that for the present the question of machinery for the bakery may be deferred.

2. His Excellency will be glad to be favored with an estimate for the proposed building at an early date.

ENCLOSURES.

From Colonel B. H. W. MAGRATH, Commissary-General, to the Quartermaster-General, Ootacamund, dated Madras, 23rd April 1884, No. 445.

I have the honor to acknowledge the receipt of letter, No. 135 E.W., of 6th March 1884, from the Superintending Engineer, IV Circle, forwarded under your endorsement, No. 2234, of the 4th April.

2. The Superintending Engineer reports that buildings on the plan suggested in my letter, No. 6484, of 1st February 1884, would cost Rs. 36,000 if built pucka; this, with the additional cost of machinery and mill race, would raise the estimate to Rs. 55,260.

3. I, therefore, now submit a revised sketch plan for a smaller building, final estimates for which may, I trust, be prepared at an early date. I calculate roughly that the area is 5,200 square feet, which at Rs. 4 per foot would amount to Rs. 20,800 for the buildings. The open shed for wood is not included in this. It need be only a corrugated iron roof on pillars.

4. I estimate that the total cost would be as follows:—

	RS.
Buildings	20,800
Water-wheel	2,000
Two flour mill (2 stones)	2,300
Dam and mill race	2,500
Latrine	760
Total ...	28,360

5. The enclosures of your reference are herewith returned.

From Colonel B. H. W. MAGRATH, Commissary-General, to the Quartermaster-General, dated Madras, 30th April 1884, No. 604.

In reply to your telegram, No. 68, dated 29th April 1884, I have the honor to request that an estimate for a bakery building on the plan suggested by Colonel Hawkes and sent with my letter, No. 445, of 23rd April 1884, may first be submitted for the approval of Government, leaving out any mention of the necessary machinery which can hereafter be considered.

No. 2167, Military.

Transferred to the Public Works Department and the previous papers returned.

2. Colonel Hawkes' revised plan is approved.

(By Order.)

8th May 1884.
(Signed) A. R. KENNEY-HERBERT, Lieut.-Col.,
Offg. Secretary to Government.

No. 116 E., Public Works.

Copies of the above, with enclosures, are forwarded to the Superintending Engineer, IV Circle, with advertence to his letter, No. 135-E.W., dated 6th March 1884, and with a request that revised estimates may be framed accordingly, and submitted, as early as practicable, for the sanction of Government, through the military authorities.

9th May 1884.
(Signed) J. SHAW-STEWART, Col., R.E.,
Chief Engineer, P.W.D.

From Brigadier-General R. C. STEWART, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 2nd July 1884, No. 558-A.

With reference to this office letter, No. 30-A., dated 5th May 1884, I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimate, plan, &c., below-mentioned, which have been approved by the Commander-in-Chief. The plan and estimate have been countersigned:—

1. Plan and estimate, amounting to Rs. 31,240, for constructing a bakery, &c., at Wellington.
2. Plan and estimate, amounting to Rs.760, for constructing a latrine for the above.

No. 3193, Military.

Approved and transferred to the Public Works Department.

(By Order.)

Ootacamund,
3rd July 1884.
(Signed) A. R. KENNEY-HERBERT, Lieut.-Col.,
Offg. Secretary to Government.

Order—dated 29th July 1884, No. 1838 W., Public Works.

The estimate, amounting to Rs. 32,000, for constructing a bakery at Wellington, is sanctioned.

2. This sanction, which supersedes that accorded in G.O., No. 2211 W., dated 10th August 1883, has been registered as Imperial Ordinary No. 21 W. of 1884-85, and classified as Military Original Works.

1838/1839

3. A copy of these proceedings, with the plans and estimates,* will be forwarded to the Government of India, with advertence to their letters marginally quoted, and with request that the grant of Rs. 5,000 struck out of the preliminary issue of the Madras military works budget for 1884-85, may now be re-allotted.

Executive Engineers Office
at Nilgiri Division
Ootacamund 27 February 1884

1838/1839

No. 573

From
The Executive Engineer
Nilgiri Division
Ootacamund

To
The Superintending Engineer
4th Circle.

Sir

Enclosure
1 Plan

With reference to your No. 93/A.I I have the honor to report regarding the Commissary Generals letter No. 6484 of 1st February 1882 printed with G.O. No. 838 W of 8th February 1884.

Para 2 of letter under notice — No doubt the plans and estimates as sent in are incomplete, a Bakery without machinery could not be otherwise, but the reductions were made, with reference to G.O. No. 2663 of 22nd September 1883 and as explained in my report accompanying that estimate. Servants lines and Stores were omitted as it was understood that the proposed site being near the existing Commissariat Godowns, and not far from the old Sapper lines, they were not required. The plan as proposed by the Commissary General would no doubt be a convenient arrangement if premises so extensive must be erected, but the approximate cost would be Rs 36,000, if built pucca, as against

6

against Rs 26,300 for the buildings estimated for; there is also an objection to a single storied building for the Mill house, and the Mill house and kneading rooms should be contiguous (and not as shewn on the Sketch) for with reference to — Para 3. it has all along been proposed to employ water power, and provision, for a complete set of machinery (derived from Kurrachee Bakery experience) was made in my original estimate.

Omission of Stores already explained — For cleaning and drying wheat a terraced roof was specially provided over part of the Mill house, estimated for. Of course a grain elevator would form part of the machinery, this arrangement was in accordance with Kurrachee experience. Para 4

The Mill-house and ovens can easily be arranged together a 'T' form would be suitable. Para 5

Previously replied to. Para 6

The size of ovens can be reduced. The plan of those built at Kurrachee has been followed. Par 8

I know of no practical objection to the use of water power, except that for a short time during the dry season, the supply would be scanty, hence the proposal to also provide engine power. Para 9

In conclusion I would invite your attention to my report on the revised Estimate as last submitted. It will be quite impossible to provide a complete and efficient Bakery with

Suitable

Suitable machinery cheaply. Money spent in an effort to do so will, I need hardly say, be in a great measure wasted.

I have the honor to be
Sir
Your most obedient Servant

Sir,

Enclosures 3.
1. Statement
1. Ex: Engr's letter No. 573 of 27th February 1884 and
1. Plan of Commissy General

As directed in G. O. No: 338 W of 8th Ultimo, I have the honor to report further on the subject of erecting a Bakery at Wellington.

2. The original detailed estimate of 6th September included the following items:—

Ovens and Kneading room	Rs: 13,000
Machinery House	" 2,500
Stores	" 3,500
Servants' Lines	" 3,300
Latrine	" 760
Machinery	" 30000
Dam and Mill race	" 2,500
Unforeseen contingencies	" 5,000
Total	Rs: 60,560

The item Machinery, included an overshot water

water wheel and an Engine and Boiler. The Engine and Boiler, which would probably have cost Rs: 4,000 were provided for working the Machinery in the one or two months of the year when the water power is insufficient.

3. If the provision for an Engine and Boiler Rs: 4,000, for Servants' Lines Rs: 3,300 and for unforeseen contingencies Rs: 5,000; total Rs: 12,300, be struck out of that estimate it will stand as follows:—

Ovens and Kneading Room Rs:	12,000
Machinery House	" 12,500
Stores	" 3,500
Latrine	" 760
Machinery to be worked by water power only and including a water wheel	" 16,000
Dam & Mill race	" 2,500
Total Rs	48,260

4. The revised Estimate of 17th December provided only for a Machinery House, Ovens and Kneading room and a latrine which items as above come to Rs: 26,260

---

5. The Commissary General now furnishes a plan of Buildings which if built pucka would cost about Rs: 36,000;[×] without the Latrine, Machinery, Dam or Mill race. Adding for these items, the total estimate would stand as follows:—

× vide accompanying statement.

Buildings including Ovens and Kneading Room, Machinery House, stores and Offices	Rs: 36,000
Latrine	" 760
Machinery to be worked by water power only and including an Overshot wheel	" 16,000
Dam and Mill race	" 2,500
Total Rs:	55,260

6. It will also be observed that in the Commissary General's plan the Kneading room and the Machinery room are placed at opposite corners of the Building, so that the Machinery of the Kneading room cannot be connected with that of the Mill room and both worked by the same means whether water power or steam.

7. For cleaning and drying wheat—

the

the estimates of 6th September provided a terraced roof over part of the Mill House, and the Machinery would have included a grain elevator.

8. The probable cost of the Machinery as entered in the estimate is only approximate. It was derived from Kurrachee Bakery experience and cannot be more exactly determined without communicating with Mill-wrights in England. The Machinery in Kurrachee cost Rs: 25,000.

9. The probable cost of Buildings on the Commissary General's plan would be about Rs: 36,000 if built pucka; and their cost could only be reduced by building as much as possible Cutcha.

10. It appears therefore that the buildings proposed by the Commissary General are not conveniently arranged for applying either water or steam power to all the Machinery; Secondly, that he was mistaken in stating that no provision had been made for utilizing the water power close at hand, and for cleaning and

drying

drying wheat; and that the buildings as per sketch would cost about Rs: 36,000 as against Rs: 29,000 for similar Buildings designed by the Executive Engineer. Mr: Larminie's buildings which amounted to Rs: 32,060 included Servants' lines and Latrine which the Commissary General does not think necessary.

11. I have therefore the honor to request instructions whether under these circumstances, detailed estimates should be prepared for buildings of the dimensions of those shown in the sketch, and arranged on that plan; whether the work should be cheapened by building as much as possible with brick in mud, and whether the estimate should include a Latrine, machinery, and a dam and Mill race.

12. I return herewith the Commissary General's sketch; with the Executive Engineer's remarks upon it, given in his letter No 573 of 29th ultimo.

9 I

I have the honor to be,

11

T.

The one objection I see is the provision of concrete floors to lower story — cement concrete to bread store, sifter rooms & wheat cleaning rooms — brick concrete to other rooms. I should say that nothing short of stone slabs would suit for rooms of this description, but probably cost has deterred E.E. from providing a floor of this description ... Can you tell me of any buildings at Ooty or Wellington have been provided with such floors? It is not clear to me that these plans & Estimates have been seen by Commy General — is not his approval necessary?

Letter No. 3193
Dated the 3d July/84
From the Mil. Secy. to Govt.

NOTE OF REMARKS.

1. The accompanying plans and estimate provide for constructing a bakery at Wellington. The amount of the estimate is Rs. 32,000.

2. The abstract general is divided as follows:— bakery – Rs. 24,440; privy – Rs. 760; water wheel – Rs. 2,000; flour mill – Rs. 2,300; and dam and mill race – Rs. 2,500. The bakery is to contain an office room, 15 × 20'; a bread room, 30' × 20'; a kneading room, 60' × 20', to which are attached 3 ovens; a mill room, 30' × 20'; a sifter's room, 30' × 20'; a soojee store room, 20' × 20'; and a shed divided in parts, one part, 60' × 15', for carts, the other, 30' × 15', for wheat cleaning.

Here the mill room is a room, 30'3" x 20'3", for wheat for grinding.

3. The plans and estimate have been well prepared and appear fully able to meet all requirements in this case.

4. The plans and estimate have been countersigned by the Offg. Dy. Col. Medical

Bakery - Wellington

Quarter Master General's Office
Ootacamund, 5th May 1884

No. 30/A

From

The Quarter Master General

To

The Secretary to Government

Military Department.

Sir,

In retransmitting correspondence received under your reference order No. 1489 of the 25th March last, I have the honor, to forward letter No. 604 dated 30th April 1884 from the Commissary General requesting that the rough revised Plan for a Bakery at Wellington, as proposed by Colonel Hawkes and attached to his letter No 445 of the 23d April, may be submitted to Government, and am desired to say, that His Excel-

-lency

=lency the Commander-in-Chief approves of the alteration in the design, and considers that for the present the question of machinery for the Bakery may be deferred.

2. His Excellency will be glad to be favored with an estimate for the proposed building at an early date.

I have the honor to be

1838/1839

To,
The Quarter Master Genl,
Ootacamund.

Sir,

I have the honor to acknowledge the receipt of letter No. 135/E.M. of 6th March 84, from the Superintending Engineer 4th Circle, forwarded under your endorsement No. 2234 of the 4th April.

2. The Superintending Engineer reports, that buildings on the plan suggested in my letter No. 6484 of 1st Feby 1884 would cost 36,000, if built pucka, this, with the additional cost of Machinery and mill race would raise the Estimate to 55,260 Rs.

3. I therefore now submit a revised sketch plan for a smaller building, final & estimates

(Indian Commissariat.)

(Coml. Form No. 137.)

estimates for which may I trust be prepared at an early date. I calculate roughly that the area is 5200 sq: ft, which at 4 Rs per foot, would amount to 20800 for the buildings. The open shed for wood is not included in this. It need be only a corrugated iron roof on pillars.

4. I estimate that the total cost would be as follows.

Buildings . . .	20,800.
Water wheel . .	2,000.
2 Stone mill (2 stones)	2,300
Dam and mill race . .	2,500.
Latrine	760
	28,360

5. The enclosures of your reference are herewith returned.

I have the honor to be,
Sir,
your most obedient Servt.
