GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (General), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 9th July 1884, No. 817 G:—

In reply to your letter, No. 1406 W., dated 4th ultimo, I am directed to state that the Government of India has no objection to the project for investigating the Lower Coleroon Irrigation, embracing provision for embanking the lower portion of the Coleroon river, being taken up, but on the understanding that the outlay is charged to Provincial and not to Famine Protective Fund. It has already been pointed out in Public Works Department letter, No. 27-A.I., dated 6th February 1884, that such charges are met in other provinces from Provincial funds.

ORDER—dated 7th August 1884, No. 1914 W., Public Works.

The Government of India having declined to sanction a grant from Imperial funds for the investigation of the Lower Coleroon Irrigation project,* the work, which is of much importance, must proceed from Provincial funds.

2. The Superintending Engineer, VI Circle, will now submit, for sanction, with the least practicable delay, a scale of temporary establishment, which should not cost more than Rs. 600 or Rs. 700 per mensem. The establishment will be placed under Mr. Lobb, Executive Engineer, 3rd grade, an officer appointed by the Government of India. The work can, it is expected, be completed in about six months.

The work is not only embracing
the lower portion of the Coleridge house
but improving the lower level right
I strongly recommend the work being
taken up & the provision of an
estate agent under Mr. Lobb on it.
I think an expenditure of 6 or 7000
a month for 6 months would amply
be justified. In addition this, a temporary
estate agent can be employed -
