READ—the following paper :—

G.O., dated 30th June 1884, No. 1631 W., Public Works.

Read—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works department, dated Trichinopoly, 11th June 1884, No. 403-T.J. :—

I have the honor to report that, in the budget for the current official year, the annual maintenance grant of Rs. 4,000 for the Tanjore palace is entered for expenditure by this department. The Executive Engineer, Tanjore division, has reported that it would be better if the maintenance work were carried out under orders from the Collector and Receiver.

2. In his reply to a reference made on the subject, the Collector states that he sees no particular objection to the ordinary repairs of the Tanjore palace being executed under his supervision in the Agency department, and that the necessary steps may be taken to transfer the budget allotment from Public Works to the Civil department, so that all expenditure incurred may be accounted for in the usual way to the Accountant-General.

3. I request that you will be good enough to sanction the above proposal and to authorize the Examiner to place the money at the disposal of the Civil department as soon as possible.

4. I consider that it is advisable to allow these petty repairs to be executed under the orders of the Receiver, as he alone through his agents can arrange what repair works should be executed every year to the palace.

Order—dated 30th June 1884, No. 1631 W., Public Works.

The proposal of the Superintending Engineer, VI Circle, to transfer to the Collector the annual maintenance of the Tanjore palace, is approved.

2. The question of the transfer, to the Civil department, of the sum of Rs. 4,000, provided for the work in the current year's Provincial budget, will be considered in the Financial department.

From C. D. MACLEANE, Esq., Acting Collector of Chingleput, to the Secretary to Government, Public Works department, dated Saidápet, 26th June 1884, G. No. 2943.

With reference to S.O., No. 156, I have the honor to submit my annual report on the state of the European Christian Burial Grounds in this district for 1883-84.

2. There has been no increase in their number since the date of the last report.

3. During the year ending 31st March last the marginally-noted works have been executed at an aggregate cost of Rs. 388, and a further sum of Rs. 410 were allotted for the repair of the disused Dutch cemetery at Pulicat, but it is to be regretted that the money came in so late that not even a portion of it was utilized before the close of the year.

Repairing the Roman Catholic Cemetery at Poonamallee	192
Gravelling walks in Poonamallee	20
Repairing the tomb at Gúmmúdi-púndy	2
Repairing the Roman Catholic Cemetery at Mount	127
Repairing the tomb at Balichetty Chat-tram	11
Repairing the six tombs in the Goanese Cemetery at Poonamallee	36

4. Saidápet taluk.—All the grave-yards and detached tombs at St. Thomas' Mount are in good condition except some graves in the cemetery attached to St.

Patrick's Church, which require sundry repairs; these will be seen to in the course of the current official year. So also those in Pallávaram.

At Poonamallee, the six graves in the Goanese burial ground, referred to in G.O., Ecclesiastical, No. 127, dated 16th June 1883, have been repaired, and orders have now been issued for the provision of a gate to this cemetery.

All the detached tombs in this taluk are also in good order.

5. Ponnéri taluk.—As stated in paragraph 3 *supra*, the detached grave at Gúmmú-dipúndy has been repaired, and the disused cemetery at Pulicat is being attended to under the supervision of the Local Fund Engineer.

6. Tiruvallúr taluk.—The only place in this taluk where there are any Christian burial grounds is Tripassore. Both the European and Native Christian cemeteries here are in good order except that the latter has some prickly-pear growing over its northern and western boundary walls for the removal of which orders have now been issued. Major Keelpatrick's grave has to be enclosed, and will be seen to this year.

7. Chingleput taluk.—All the cemeteries in this taluk were inspected during the year by the Sub-Collector, and are reported to be in fair order, as also the detached graves at Covelong. But it is said that the south wall of the cemetery at Sadras is likely to fall down, and an estimate for supporting it has been called for.

8. Conjeeveram taluk.—In this taluk there is only one graveyard at Wállájábad which is not now in use. This requires no repairs except that the gates which are getting old have to be replaced and certain sundry repairs done to one of the tombs. An estimate for these has been called for.

The isolated tombs at Púllalore and Balichetty Chattram are in good condition, the latter having been repaired during the year under report at a cost of Rs. 11.

Madurantakam taluk.—The only isolated tomb in this taluk, and which is in the compound of the Department Public Works bungalow at Karunguli, is in very good order.
