29TH JULY 1884, No. 1726, FINANCIAL.

GOVERNMENT OF MADRAS.
FINANCIAL DEPARTMENT.

READ—the following paper:—

From J. F. FINLAY, Esq., Officiating Under Secretary to the Government of India, Department of Finance and Commerce, to the Chief Secretary to Government, dated Simla, 18th July 1884, No. 2253.

I am directed to acknowledge the receipt of your letter, No. 969, dated the 2nd May 1884, recommending that upper subordinates of the Public Works department in charge of the South Canara and Mangalore sub-divisions may be allowed to draw travelling allowance at rates admissible to Assistant Engineers, under the rules of the Civil Travelling Allowance Code, upon the ground that a similar concession has been granted to upper subordinates in the North-Western Provinces and Oudh when in charge of districts in the Buildings and Roads Branch.

2. In reply I am directed to explain that the position, duties and responsibilities of the upper subordinates in charge of the South Canara and Mangalore sub-divisions do not appear to be the same as those of the upper subordinates in the North-Western Provinces and Oudh, who are appointed to districts in the Buildings and Roads Branch and to Revenue sub-divisions in the Irrigation department. The placing of subordinates in those charges which ordinarily constitute Assistant Engineers' charges is adopted as a measure of administrative economy, because it is calculated to set free a number of Assistant Engineers. The duties of upper subordinates having district charges involve the superintendence of the public works executed over a large tract of country subject to the professional inspection of the Divisional Engineer in regard to the larger works only. In consideration of the position held by District Engineers and of the important character of these district charges involving duties and responsibilities, which in character or extent are not usually imposed upon subordinates, the Government of India after careful consideration sanctioned in 1882 the grant of travelling allowance at Assistant Engineers' rates to upper subordinates in charge of districts in the Buildings and Roads Branch, and this privilege was afterwards incorporated in the Civil Travelling Allowance Code at the instance of the Government of the North-Western Provinces and Oudh.

3. Upon similar grounds the concession has been recently extended to upper subordinates holding charge of Irrigation Revenue sub-divisions, who have considerable responsibilities connected with the collection of an important branch of the revenue, and upon whose personal exertion, energy and tact the amount of irrigation used by the cultivators to a large extent depends.

4. From the foregoing explanation it will be seen that upper subordinates in the North-Western Provinces and Oudh, who have charges of districts in the Buildings and Roads Branch, and of Irrigation Revenue sub-divisions, occupy a position decidedly superior to that of upper subordinates performing the ordinary departmental duties of their class, such as the Sub-Engineer of Calicut and the Supervisor of South Canara, and incur greater expense in travelling. In this view the Governor-General in Council is inclined to think that he would not be justified in extending to those officers the

privilege of drawing travelling allowance at rates admissible to Assistant Engineers, especially as they did not, like the upper subordinates in the North-Western Provinces and Oudh, enjoy it before the introduction of the Civil Travelling Allowance Code.

Copy forwarded to the Public Works department, the original recorded papers of that department being returned.

GOVERNMENT OF MADRAS.
MILITARY DEPARTMENT.

August 1884, No.

Quarters—Warrant and Non-Commissioned Officers.

Read the following paper:—

No. From Lieutenant-Colonel A. M. RAWLINS, Officiating Superintendent, Remount Depôt, Hosûr, to Lieutenant-Colonel A. KENNEY-HERBERT, Officiating Secretary to Government, Military Department; dated Hosûr, 31st July 1884, No. 429.

With reference to para. 2 of Proceedings of Government, No. 2055, dated 2nd May 1884, I have the honor to bring to the notice of Government that Conductor Wynn, now in charge of the stud lines, had, prior to the reductions which were in no way foreseen, a house, which he was obliged to purchase when he first came to the depôt.

2. I think it very hard upon him to be called upon to vacate his own house and to move into and pay rent for a Government building which has been lately purchased from Sub-Conductor Maddocks.

3. I request, therefore, that, as long as Conductor Wynn remains here, he may be permitted to live in his own house, and that I may be allowed to utilize Sub-Conductor Maddocks' house as a store-room for keeping tents, line articles, &c., belonging to the stud lines.

4. In the event of any change in the depôt, the conductor in charge of stud lines would of course be ordered to occupy the Government quarters (late Sub-Conductor Maddocks' house).

No. ORDER THEREON, August 1884, No.

The Government see no reason to modify their order, No. 2055, dated 2nd May 1884.

2. Conductor Wynn may be permitted to live in his own house, if there be no objection thereto on public grounds; but as Government quarters are now available for him, no house-rent can be admitted to him from the date those quarters were ready for occupation.
