NOTE OF REMARKS.

I agree with T that such special repairs as this Estimate provides for ought not to be treated as ordinary repairs & should be sanctioned by S.G.s just as new works in contemplated. Hereafter, should such action be taken will I hope put the procedure on a proper footing. In this case the provisions of the Estimate seem quite correct & sanction may be drafted for WS approval.

1. This estimate provides for remetalling Road No. VII, Palamcottah to Travancore via Tenkasi and Shencottah, viz. the Tenkasi taluq in the Tinnevelly District. The amount of the estimate is Rs. 7,650.

2. The metalling varies in depth from 3" to 6" — the uniform width of 12 ft. is maintained throughout. The width of gravelling is 18 ft. — 12 ft. over the metal and 3 ft. over the berm on each side — the depth on metal is 12", over the berm it varies from 3" to 5".

3. This work is classed as Repairs (Special), in the absence of any

positive statement on the point it may be correct to assume that as the Repairs are so thorough and extensive, the length of road being considered, as nearly to amount to a complete renewal of metal and gravel, the work is regarded as verging very closely on the Original — too closely to be termed simply Repairs.

4. In para. 2 of the Proceedings of the Board of Revenue No. 7458 Dis. of 9/8/84, it is stated:— "The estimate has not been forwarded through the Superintending Engineer with reference to G.O. F.D. dated 14th August 1883, No. 1751."

5. The estimate has been countersigned by the Resident of the L.F. Board.
