Read—the following letter from Captain W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, to the Chief Engineer, Public Works Department, dated Madras, 12th August 1884, No. 603 S.:—

I have the honor to forward estimate from the Vice-President, Public Works and Conservancy Department, Madras Municipality, for repairing the hydrants in the compound of the Stores and Workshops, and beg to request that sanction may be accorded for the work being carried out by the municipality.

Order—dated 27th August 1884, No. 2118 W., Public Works.

The estimate, amounting to Rs. 105, for repairing the hydrants in the compound of the Public Works Stores and Workshops at the presidency, is sanctioned for execution by the Madras Municipality.

2. No specific appropriation is necessary.

3. This sanction has been registered as Provincial No. 127 W. of 1884-85, and classified as Civil Buildings, Repairs.

GOVERNMENT OF MADRAS.

# PUBLIC WORKS DEPARTMENT.

**Buildings and Roads.**
**Civil Works.**

Read—the following letter from Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 16th May 1883, No. 215 W. :—

I have the honor to submit for sanction the following estimates :—

(1.) Abstract estimate of the cost of providing shelter for the steam fire engine (belonging to the Public Works Stores) lately received from England.

(2.) Abstract estimate of cost of sinking a well in the yard of the Public Works Stores and Workshops.

(3.) Abstract estimate of cost of repairing the engine-room lately used by the Public Works Workshops.

2. The first is necessary for the protection of the steam fire engine lately received from England, and to afford a place where everything connected with the engine can be stored, so that in case of fire there may be no unnecessary delay in starting the engine.

3. The well is necessary because the supply of Red Hills water in the year is too small to enable the engine to be worked to its full effect. There is a well 8 feet diameter on the west side of the Workshops, and from actual trial I think that a well would be the cheapest and best method of ensuring a proper supply of water for the engine in case of need.

4. The repairs to the engine-room are necessary to adapt it as a shop for the Mathematical Instrument Department, which at present is very cramped, and being connected with the office and Machine Shop is not as secure as it should be. The present Mathematical Shop I propose to use as an erecting shop for engines, &c., which work is now done chiefly in the open air at a considerable disadvantage.

Order—dated 18th June 1883, No. 1706 W., Public Works.

The following estimates are sanctioned :—

I. Providing shelter for the steam fire engine of the Public Works Stores, Rs. 290. Register No. 53 W. of 1883-84.

II. Sinking a well 8 feet diameter and 25 feet deep in the Public Works Stores yard, Rs. 750. Register No. 54 W. of 1883-84.

III. Repairing the engine-room of the Public Works Workshops, Rs. 2,131. Register No. 55 W. of 1883-84.

21

2. No specific appropriation of funds is necessary.

3. These sanctions have been registered as shown above and classified as Civil Buildings, the first and second under Original Works, and the third under Repairs.

GOVERNMENT OF MADRAS.

## PUBLIC WORKS DEPARTMENT.

**Buildings and Roads.**
**Civil Works.**

Read—the following letter from Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 13th November 1883, No. 938 W.:—

I have the honor to report that the engine which drives the machinery in the main building of the Public Works Workshops is at present only sheltered by a planked shed, which is objectionable on account of its being liable to take fire.

2. The shed also is most unsightly and in every way unsuited for an engine-room. The engine-room in which the 40 horse-power engine worked is too far from the main building to be utilized, and accordingly I have prepared a plan and estimate for a terraced shed, which will answer very well as an engine-room and as a protection for the men when grinding tools.

3. I anticipate that the savings on the estimates sanctioned in G.O., No. 1706 W., of 18th June 1883, will nearly meet the cost of the work now proposed.

Order—dated 19th November 1883, No. 3302 W., Public Works.

The estimate, amounting to Rs. 1,150, for erecting a terraced engine shed at the Presidency Public Works Workshops, is sanctioned.

2. This sanction has been registered as Provincial No. 163 W. of 1883-84, and classified as Civil Buildings, Original Works.

*Madras*, 1st August 1883.

No. 573 W.

5/2118

From
THE GENERAL SUPERINTENDENT,
PUBLIC WORKS WORKSHOPS,

To
THE Deputy Chief Engineer
P. W. D.
Chepauk

SIR,

Enclosures.

With reference to G. O. No. 1706 W of 18th June 1883, I have the honor to enclose a letter from the Executive Engineer Presidency Division, and beg to enquire whether I cannot commence the whole of the works as I am anxious to finish them all as soon as possible. The payments will be made by the Workshops and the debits adjusted whenever the Executive Engineer has funds.

I have the honor to be
Sir
Your most Obedt. Servant
Lieut R.E.
Genl. Suptt. P. W. Workshops

No 1724 D

Madras
10th Aug/83

To Genl Supt P. W. W.

Please state whether the works referred to appertain to the Workshops or to the Stores. If to the former, no specific appropriation of funds is apparently needed.

Dy W
8/8

If there is no specific appropriation of funds, the cost of the repairs will go to the debit of "Block" & consequently there will be an increase to the "Capital" of the Workshops, upon which interest at 4 % has to be paid – The losses of the Workshops during the years 77–80 were partly due to expenditure of this kind, only on a much larger scale – As the Workshops is a self supporting institution I do not think that "repairs" should be debited against its Capital – The repair to the Engine room appertains only to the Workshops; the other two works equally to Stores & Workshops

16/8

To W.

Your Office Note No. 1786 D. dated 16th. August 1883.

The two minor sanctions are I consider properly chargeable to the Minor Works Grant, as accepted by the Executive Engineer Presidency Division, as affecting the Stores the more valuable part of the premises.

2. The Estimate for Repairing the Engine Room Rs. 2,131/ requires no specific appropriation of funds. It is clear from the 4th. para of General Superintendent's letter printed with G.O. No. 1706 W. dated 18th. June 1883 that the "repairs" are necessary for the convenience of the arrangements for work in the Shops, and consequently the Shops must pay for them.

3. A question which may be considered by you is, whether, since the Shops pay certain claims on them for Depreciation of the Buildings, such repairs should not be deducted from the depreciation charge for the year-and not be an extra charge upon the earnings. Also, whether the repairs now in question are bona fide repairs, or are rather a re-arrangement of the premises and therefore wholly outside of the depreciation charge.

C.

E.P.
