Please report which Superintending Engineers were late in sending in their estimates, and by what date the estimates should reach your office to enable you to submit the consolidated estimate in proper time.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from Captain W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, to the Chief Engineer, Public Works Department, dated Madras, 2nd August 1884, No. 555 S. :—

I have the honor to forward, for submission to Government, estimate of the probable quantity and value of stores required from England for the use of the Public Works Department for the year 1885-86, amounting to Rs. 86,375.

- 1 Estimate.
- 1 Abstract.
- 1 Detailed estimate.

2. I forward also an abstract of the estimates received, showing the requirements of divisional officers, from which you will observe that several divisions require no stores whatever for the next official year, but as there is every probability of indents being received, provision has been made to lay in stock a supply of such necessary tools, &c., as may be required by them.

3. Several machines in the Public Works Workshop are worn out from fair wear and tear; they have been in use for many years, having been transferred from the Bezvada workshop when this workshop was established. I have provided for a few machines which are very necessary for the efficiency of the workshop.

4. Pumping machinery is in much demand, and I am unable to supply any. I have therefore provided for four pulsometer steam pumps with boilers, &c., complete, suitable for pumping foundation clear of water.

ORDER—dated 9th August 1884, No. 1941 W., Public Works.

Ordered to be forwarded to the Government of India, with advertence to their letter, No. 282 A.G., dated 5th October 1883.

2. This estimate should have reached the Government of India not later than 1st August, but it did not leave the Public Works Stores until the 2nd idem. The General Superintendent will explain the cause of delay.
