CIRCULAR MEMORANDUM.

In continuation of Circular Memorandum, No. 2049, dated the 18th October 1883, the Chief Secretary has the honor to request that every letter addressed to Government may have the department clearly shown at the top of the outside (docket) sheet. The accompanying list of subjects dealt with in each of the departments in charge of the Chief Secretary will enable mufassal officers to classify any letter.

2. In some cases, officers have already adopted printed docket-sheet forms, headed "Magisterial department," "Local Fund department," &c. Where this has been done, there is no occasion to have fresh forms printed; it will be sufficient if the name of the Government department—"Judicial," "Financial,"—is written or printed above the present description.

3. It should be noted that the enclosed list need not necessarily be followed when a letter is in reply to an order or memorandum issued in another department than that which would, in the ordinary course, have taken cognisance of the question involved.

In such cases, it should be assumed that there are special reasons for the departure from rule, and the answer should be addressed to Government in the same department.

Fort St. George,
10*th November* 1883.

No. 1485.

OFFICIAL MEMORANDUM.

Dated the 6th *August* 1883.

Judicial.
Financial.
Public.
Marine.
Educational.
Political.
Ecclesiastical.

THE undersigned requests all officers in correspondence with the Government in the Departments marginally noted to send in an "unanswered reference" return every quarter in the following form: The first list should be submitted on the 15th October next :—

Department.	No. and Date of Order, Memorandum, Reference or D. O.	Subject.	Probable date of submission of reply.	Briefly, the cause of delay in replying.

FORSTER WEBSTER,
Ag. Chief Secretary.

NOTES.

REFERENCE TO MADRAS P. W. D. CODE.

CHAPTER XIV.—PARAS. 1829 TO 1832.

1. The object of this Return is to place before Government an analysis of all shortcomings in matters of financial regularity in the operations of each month with a view to their being remedied. It should be submitted to Government on the first day of the third month succeeding that to which the accounts relate.

2. There should be a separate statement for each separate Fund—Imperial, Provincial, Local and Irrigation.

3. The Provincial statement will be posted from the Divisional Statements of Objectionable Expenditure. The statement need not be delayed in order to embody the remarks of the Superintending Engineers if these do not reach the Examiner's Office in time. It is desirable, however, that the Superintending Engineer's opinion should be recorded as far as may be practicable, and, in order to ensure this being done, the Divisional Statement of Objectionable Items should be checked immediately on receipt and sent to the Superintending Engineer for his remarks before the audit of the other accounts is proceeded with.

4. All Executive Officers who have failed to submit their Divisional Statements of Objectionable Items with their Monthly Accounts, as well as those whose statements are *generally incomplete*, should be specially brought to the notice of Government under "General Remarks" at the end of the statement.

5. Items of irregular expenditure which are left unincluded by Executive Engineers in their Divisional Statements of Objectionable Items should be distinctly noted as such either in a separate supplementary statement or in the original statement in red ink.

6. Columns under all the heads should be filled up in each case so as to bring out clearly where estimate or appropriation exists and where it does not.

7. In the case of large projects such important features as the following should be stated with precision :—

A. Lump sum estimate.
B. Abstract detail estimate by sub-heads, and so on.
{ 1. Submitted to Chief Engineer.
2. Submitted to Superintending Engineer.
3. Not yet submitted.

8. A large work which is proceeded with on merely a lump sum sanction is still objectionable till an abstract and detail estimate by sub-heads is submitted and sanctioned for it by competent authority.

9. Special mention should be made of works being carried out in portions by authorities, beyond whose powers of sanction it would be to sanction the expenditure as a whole.

10. An important point to notice is the duration of a serious irregularity.

11. Voluminous masses of detail, when their practical significance could be given in a few lines, should always be avoided as a rule. If, for instance, the state of matters as to sanction in one month does not materially differ from that of a preceding month, it will answer all practical purposes to say so, instead of sending another full report.

12. Too much stress can never be laid on the fact that this statement is not to take place of special reports, then and there, of works on which serious irregular expenditure is being largely incurred, either without estimate or appropriation.
