Road No. V, Tinnevelly

Estimate for retmetalling—, sanctioned.

No 2186 T.M. Supr Engr's office. b.b.
Tinnevelly 23rd Aug 1884.

To,

The President L. E. Board.

Tinnevelly.

Sir,

I have the honor to forward
the enclosed Estimate for repairs
to Road No 5 which has been
sent to me for disposal by the
Chief Engineer.

The Estimate is for repairs
and therefore, under J. D. G.O. No
1751 dated 11th August 1883, there is
I consider no necessity for it
passing through my office.

I have had the Estimate
checked; I would remark that
I think the Local Fund would
do better, if they made all their
1st class Roads 6 yards wide
of the best metal available,
they would I believe save
money by doing this. 3
12 feet width of metal with

margins of $1\frac{1}{2}$ or 3 feet on each side. 3 inches thick is, I consider, likely to require heavy repairs soon. The gravel is sure to cut up & then the sides of the 12 feet track (which is not enough width for 2 bandies to pass easily) are sure to follow. I would recommend the track be made 18 feet ~~now~~ less than 15 feet.

I have &c.

Sir.

In reference to your letter

No 246 T.N. dated ^{21/8} 23rd July 1884. I have the honor to return the Revenue Board Proceedings No 2058 dated 11th June 1884 with its enclosure & to inform you that the Estimate was sent to you by the Chief Engineer apparently by mistake quoting G.O. No 324 W dated 6th Dec. 1882 without noticing the modification ordered in G.O. No 1751 dated 11th Augst 1883.

2. The Revenue Board have sent the Estimate for the sanction of Government in the P. W. Department & I therefore request that you will be good enough to retransmit the above papers to the Chief Engineer for obtaining the sanction of the Government

for the estimate & for return-
ing through the Board of
Revenue.

I have
