5TH SEPTEMBER 1884, No. 2190 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From the Superintending Engineer, IV Circle, dated 20th August 1884, No. 387 E.W.
Note by the Chief Engineer, Public Works Department, dated 1st September 1884.

ORDER—dated 5th September 1884, No. 2190 W., Public Works.

The estimate, amounting to Rs. 16,225, for a new road of approach to Government offices at Ootacamund, and for improvements to existing roads, &c., is sanctioned as Provincial No. 136 W. of 1884-85, and classified as Communications, Original Works.

2. Funds will be allotted on application from the Superintending Engineer for the sum which it is proposed to spend during the current year.

3. This sanction will reduce the estimate sanctioned in G.O., No. 3039 W., dated 16th November 1882, to Rs. 43,022, a sum of Rs. 2,500 having been included in that estimate on account of the cost of the new road referred to above.

Estimate in
duplicate 2

1 Report.

1 specification

I have the honor to forward for
Sanction an Estimate amounting to Rs 16225
for the New Approach to Government
Office Stone House, Ootacamund.
The estimate is accompanied
by a duplicate abstract Estimate, Report,
Specification and a Plan of the Culvert
near the Coonoor Road.

3. The Culvert is reported to be
almost finished, and about three
fourths of the rest of the work.

4. The Executive Engineer in his
report explains the Cause of delay
in submitting the estimate to be
that the alignment has "only been
quite

quite recently settled"; and the heavy cost of the work he attributes to the heavy embankments and Cuttings, the provision for obliterating the old road and the large items required for Compensation and diversion of the drainage from the Dodabetta and Coonoor Channels. The rates have been fixed as low as possible and the only item on which any saving may be effected is the petty supervision and Contingencies, which however have been provided for at only half the usual percentage.

I have the honor to be,
Sir,
Your Most Obedt. Servant.

L. Beatty. Colonel R.E.
Suptg. Engineer, 4 Circle.

 Letter No. 384
 Dated the 20th August, 84
 From the S. E. IV. Circle

NOTE OF REMARKS.

1. The accompanying estimate provides for the formation of the New Approach to the Government Offices Stone House, Cotacamund. The amount of the estimate is Rs. 16,225. — The new road costs Rs. 13,475 — including Rs. 2,300 for compensation for land. A culvert, for which a plan is submitted, costs Rs. 2,750.

2. S. E. IV. writes in enclosing letter: — "The culvert is reported to be almost finished, and about three fourths of the rest of the work." In the Report, E. E. states the cause of the delay in the submission of the estimate to be: —

6-29-84 2-5-9-84

"The alignment of the Road
has only been quite recently
settled."

23rd August/84
B.H.

Note.

21/90

The estimate for improvements
to the Stonehouse Office, sanctioned
in G.O. dated 15-8-82, No.
2099 ~~VI~~, included a lump
sum of £2,500 for the
construction of a new road
of approach. After the
work was begun, it was
found that the sum entered
for the purpose was quite
insufficient, — and it was
thought better that a separate
estimate should be framed,
providing for the construction
of the new road, and for the
improvement of existing roads,
etc. Every effort has
been made to minimise
the cost. The gradient for
the new road, as originally
proposed by General Sankar,
was 1 in 24, — but by
reducing it to 1 in 18, it
has been found possible
to effect a considerable
reduction in the length of
the road, and in its cost.

20/8

The new road runs through
some private land, the
compensation for which
and for some dilapidated
houses standing on it came
to £2,300/-, - but the
Stonehouse property has
been much improved by
the addition of the strip of
land and the removal
of the wretched houses.
