READ—the following letter from Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepāk, 4th August 1884, No. 1700 :—

I have the honor to submit, for sanction, an estimate of Rs. 745 for providing ventilation in the Secret Department of the Government Press at Fort St. George.

- 1 Estimate.
- 1 Plan.
- 1 Specification and report.

The Superintendent of the Press complains that, at times, the room is oppressively hot. The room has only one side open, viz., to the north, and there is no verandah, while the doors leading out have to be kept closed to prevent any thing being passed out. It is proposed to add a light wooden verandah to be enclosed with network, so as to allow of the free circulation of air, and to fix iron network also in the four doors.

ORDER—dated 11th September 1884, No. 2238 W., Public Works.

The plan and estimate, amounting to Rs. 745, for providing ventilation in the Secret Department of the Government Press at Fort St. George, are sanctioned for execution when funds are available.

2. This sanction has been registered as Provincial No. 141 W. of 1884-85, and classified as Civil Buildings, Original Works.

NOTE OF REMARKS.

1. The accompanying plan and estimate provide for the ventilation of the room of the Secret Department of the Govt Press at Fort St George. The amount of the estimate is Rs. 745.

2. The means proposed to be adopted to allow of the ventilation of the room is the construction of a wooden verandah, with wire netting between the posts, adjoining one side of the room so as to permit the doors on that side to be opened without fear of papers being passed out. X
