GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

READ—the following papers:—

Notes of inspection by the Superintending Engineer, VI Circle, dated 20th June 1884.

Negapatam Division—Negapatam Harbour.

2. The Marine department have sent down a dredge (without buckets, the new pattern, with a grub), this is now being put up.

3. It is a good one, but as it is sent with only one grub and with no spoil boats, I fear, unless extra grubs of different patterns are sent and spoil boats supplied at once, that it will be useless for some time, and, unless Government are prepared to allot large sums from Marine funds for dredging Negapatam harbour, that this new dredge will share same fate as the two formerly sent down to Negapatam. This dredge is to be worked by the Marine department, and therefore it is not necessary for me to give any opinion as to where it should work; as far as I can learn, the Marine department have made no definite proposals. I think it would be as well if they were called on to state what they proposed to do, and also what will be the probable cost of their proposals.

TIRUVALUR,
23rd June 1884.

From T. E. MARSHALL, Esq., Acting Master Attendant, Madras, to the Chief Secretary to Government, dated Madras, 6th August 1884, No. 7541.

Administrative department.

In returning the papers marginally noted containing extracts from the notes of inspection of the Superintending Engineer, VI Circle, relative to the new dredge intended to work in the Negapatam river, and received under your endorsement, Reference No. 1573, dated 16th July 1884, I have the honor to inform you that having no personal knowledge of the subject, I called upon the port officer of Negapatam for a report, a copy of which I submit herewith for the information of Government, pending Captain Taylor's return, when doubtless he will enter more fully into the matter and meet the objections mooted by the Superintending Engineer, VI Circle.

ENCLOSURE.

From J. H. DENNISON, Esq., Port Officer, Negapatam, to the Master Attendant, Administrative department, Madras, dated Negapatam, 29th July 1884, No. 402.

I have the honor, as requested in your No. 7013, of 21st July 1884, foot-note on Superintending Engineer, VI Circle, "notes of inspection," dated camp Tirvélur, 23rd June 1884, and endorsement No. 1221-C of 5th July by Deputy Chief Engineer, Public Works department, to remark as follows:—

- (1) The dredger being admitted to be a good one, I have nothing to say on the point.
 - (2) It, however, requires another grip for working sand, the grip sent with it being intended for mud. Low flats for receiving the spoil are necessary, but pending their being supplied, there is nothing to prevent the dredger working.
 - (3) I would propose to set the dredger to work opposite the custom-house to begin with, where the unloading and loading of cargo boats is carried on under great inconvenience for want of depth; the spoil may be emptied on a rough portable platform or stage and carried away easily to a short distance and thrown in the hollow to the north of the light-house, where the spoil from the boat basin has already been put. The place is of large area and will take a large quantity to fill in.
 - (4) There are other parts of the river where the dredger might be moved to and worked to advantage. I would say, for instance, the place allotted for mooring boats, which I find it so difficult to get the boatmen to use for want of depth. The spoil there can be put into a large low cocoanut tope adjoining, which I have reasons to know the owner will not object to. The South Indian Railway landing place near the coal-shed and further up at their jetty might also be deepened, and then the dredger moved about the river where mostly required to facilitate boats' traffic.
 - (5) The plantation side of the river would also receive a large portion of the river dredging to fill in hollows, and therefore I see nothing to apprehend as to the disposal of the spoil at least for the present. The dredger being quite of a new style and model, I am unable to say at present whether it could be used to deepen the bar and river mouth. It may, however, be tried in due time, when the sand grip is received and then reported on.
 - (6) The fate of the former dredgers at Negapatam brought to light is no reason that the present one should share the same. It is, however, satisfactory to know that the former dredgers were in charge of the Department of Public Works.
2. The dredger barge will require a small jolly boat, as the port boat is too large and heavy to attend her. I have therefore to request that such a boat may be supplied, if available, at any of the other ports, or sanction accorded to purchase one here for Rs. 100.
3. I furnish an approximate estimate as called for for the cost of establishment, maintenance, and keep of the dredger, as also working expenses. Actual cost of dredging, &c., can only be ascertained after the dredger is set to work steadily for some time.

APPROXIMATE estimate for maintenance, keep and working dredger at Negapatam for one month.

Dredge at Negapatam.

Directing that the matter regarding the new dredge intended to work in the Negapatam river do lie over until Captain Taylor has returned.

2 Copies sent to Mr. C.

W. H. Borden

P. W. DEPARTMENT.

No. 1020 C dated 19th. May 1884.

MEMORANDUM.

Office Note from the Examiner P.W.Accts.No.81 dated 7th.May 1884.

G.O.No. 1054 W dated 25th. April 1884.

With reference to the above, it is desirable that definite rules should be laid down in regard to the sanction of estimates and the mode of accounting for the value of prison labor, which is to be given free for jail works in future, and I would propose the following:-

I. The sanction to an estimate for a jail work to be for the full amount of the estimate including the market value of the convict labor, which, but for these orders, would have to be paid for by the P.W.D. In communicating sanction to such an estimate however, the amount estimated to be contributed by convict labor to be distinctly noted.

II. The convict labor to be recorded in separate nominal muster rolls from those kept for free labor.

III. All labor, both convict and free, to be brought into the Ten-day Reports, and posted into the work abstract, Register of works and Work Voucher, so as to show the total value of the work as compared with the sanctioned estimate.

IV. The value of convict labor to be then shown as a deduction entry in the above mentioned accounts, thus:-

Total value of work done.....Rs. 0 - 0 - 0

Deduct value of convict labor.....Rs. 0 - 0 - 0

S.E. VI Circle

40/9

*13/9/84
T.C.
10th*

Net chargeable to the P.W.D. Rs. 0 - 0 - 0

2. By these arrangements the total cost of the work, the amount contributed by convict labor and the cost borne by the Department will be clearly brought out; and any re-adjustment of the value of convict labor, should Government hereafter desire it, can be readily affected.

3. If you concur in these remarks, I shall be glad of your issuing the necessary instructions so as to have the proposed arrangements carried out.

The opinions of Superintending Engineers are invited on the proposals of the Examiner for showing in estimates and accounts the value of such convict labor as will hereafter be contributed free of cost to the P.W. Department.—Vide G.O. 1054 W dated 25th April 1884.

Should any practical difficulties in carrying out the Examiners proposals suggest themselves to Suptg. Engineers, it is requested that the exact nature of the difficulties may be clearly stated.

READ—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Kodaikanal, 12th May 1884, No. 51 T.C.:—

With reference to paragraph 8 of G.O., No. 1044 W., dated 24th ultimo, directing to expedite the submission of plans and estimate for item No. 57 (district jail at Trichinopoly) of the Provincial budget, final issue, for 1884-85, I have the honor to report that the plans and estimate for this item were submitted with my letter, No. 258 T.C., of the 9th August 1883, vide G.O., No. 3592 W., dated 15th December 1883.

2. I find that a grant of Rs. 20,000 is provided in the current year's budget for the work above mentioned. In order to ensure the grant being fully utilised I request your permission to proceed with the collection of materials pending the sanction of the estimate by Government.

ORDER—dated 23rd May 1884, No. 1294 W., Public Works.

The Superintending Engineer, VI Circle, is authorised to proceed with the collection of materials for the proposed new district jail at Trichinopoly.

2. The Superintending Engineer's attention is drawn to the instructions conveyed in paragraph 4 of G.O., No. 1054 W., dated 25th April 1884, relative to the employment of convict labor in the construction of this jail.

READ—the following letter from Colonel T. E. TENNANT, Inspector-General of Jails,
to the Chief Secretary to Government, dated Madras, 1st February 1884,
No. 33 :—

I have the honor to submit, for sanction, an estimate, amounting to Rs. 1,452, for
constructing two cells, in the district jail at Nellore, for prisoners under sentence of
death. The plan of the cells is similar to that on which cells are built in other jails.
It is stated that the rates are suitable.

2. There are no cells for condemned prisoners in the Nellore jail, and the want is
much felt. Recently, a prisoner escaped from the building which, for the want of a
better one, was used as a condemned cell.

No. 298, Judicial.

Approved and transferred to the Public Works Department.

(By Order.)

15th February 1884.

(Signed) M. HAMMICK,
Ag. Asst. Secy. to Govt.

ORDER—dated 22nd February 1884, No. 489 W., Public Works.

The plan and estimate, amounting to Rs. 1,452, for constructing two cells for
condemned prisoners, in the district jail at Nellore, is sanctioned, as supplemental to
the estimate for improvements to the district jail at Nellore, referred to in Proceedings
of Government, No. 472 W., of the 13th February 1883. The total sanctions amount
to Rs. 6,372.

2. An appropriation of Rs. 4,283 was made in G.O., No. 2276 W., of the 15th
August 1883, and if further funds are required for the current year, the Superintend-
ing Engineer, II Circle, will submit the necessary application as early as practicable.

3. This sanction has been registered as Provincial No. 224 W. of 1883-84, and
classified as Civil Buildings, Original Works.

(True Extract.)

(Signed) J. SHAW-STEWART, Colonel, R.E.,
Secretary to Govt., P.W.D.

District Jail at Nellore

Plan and estimate, amounting to Rs. 1,452,
for constructing two cells for condemned
prisoners in the —, sanctioned.

No. 148 Gf.

FROM,

THE SUPERINTENDING ENGINEER

FIRST CIRCLE.

TO,

THE CHIEF ENGINEER

P. W. Department
FOR IRRIGATION

DOWLAISHWERAM, 25th August 1884.

Recd 27th

SIR,

With reference to G.O. No. 1054 W.
dated 25th April 1884, I have the honor
to report as follows:-

Ganjam Division.

In this District there are no
Sail works sanctioned in the Budget
for 1884-85. The only minor work
now in progress is the Sailor's Quarters
for the completion of which arrange-
ments have already been made which
cannot be interfered with now.

Vizagapatam Division.

There is no provision in the cur-
rent year's Budget on account of
Sail works in this Division. The
convict labor of the Hill Jail at
Parvatipore has been availed of to
an extent of Rs. 25 towards clearing
and levelling the Compound of the
Salug Cutcherry at Parvatipore.

Godavari Eastern Division.

All SAIL works in this Division entered in the Budget for 1884-85 are being carried out by SAIL labor.

Godavari Central Division.

There is no work in this Division on which convict labor could be suitably employed.

Godavari Western Division.

There is no convict labor available in this Division at present, nor is there likely to be any.

I have the honor to be,

Sir,

Your most obedient St.

Wm. M. St. C. C.

Sup^r Engineer 1st Circle

The Superintending Engineer,
2nd Circle.

To

The Chief Engineer,
Public Works Department.
Madras.

Sir,

Referring to G.O. No. 1054 W. of
the 25th ultimo, I have the honor to
report, that work is at present being
carried on only at the Kellore jail,
and not at any other jail in this
Circle.

2. The Executive Engineer of Kellore
utilises convict labor to the fullest
possible extent, and the value of such
labor is credited monthly in his ac-
counts to the Jail Department.

3. Only one work is now being
carried out, viz, the construction of two
condemned cells, on estimate of Rs. 1452
& sanctioned in P.M.G. No. 489 W. dated

22nd February 1884. On these, the value
of convict labor employed in the current
Official year will probably amount to
Rs 150.

I have the honor to be,
Sir,
Your most obedt. servant.

Sir,

With reference to para 6 of G. O. No.
1054W of 25th April 1884, I have the honor
to inform you the following jail works
have found place in the Budget of 1884/85.

- (1) Constructing Close Prison
at Coimbatore, Estimate, Rs. 21,955
Past Expenditure — " 3,571
- (2) Constructing Close Prison
at Vellore — " 40,970
Past Expenditure — " 10,824
- (3) Residence for the Superin-
tendent of the Vellore Central
jail, Estimate — " 26,080
Past expenditure — " 20,452

2. The

2. The first work is being carried out by the Superintendent, Central Jail, Coimbatore, and Convict labor is used on it to the fullest extent.

3. The second is being pushed on by this Department with the aid of Convict labor at the request of the Inspector-General of Jails.

4. The third work has been so far advanced that it is thought advisable to complete it by extraneous labor. Moreover, the available convicts at Vellore are not sufficient to supply the labor required for both works.

I have the honor to be,

Sir,

your most obedt. servant.
