Despatch from the Right Honble the Secretary of State for India, dated London, the 14<sup>th</sup> August 1884, N<sup>o</sup>. 15, Public (Records).

1. Referring to my Despatch, in this Department, of the 6<sup>th</sup> March last, N<sup>o</sup>. 5, I observe that additional copies of the entire Proceedings of your Government in some Departments are sent home, instead of the Indexes and Tables of Contents only, entailing unnecessary cost for freight as well as burdening this Office with a large additional bulk of printed volumes which are not needed and can only be destroyed.

2. I request, therefore, that the necessary orders may be given to ensure that in future additional copies of the Indexes and Tables of Contents

READ—the following paper:—

Proceedings of the Board of Revenue, dated 20th July 1883, No. 2095.

ABSTRACT.—Sanctioning estimate for constructing a tiled shed for travellers at Dhimbura, and submitting for orders of Government estimate for reconstructing the road from Pollachi to Palghat in Coimbatore District.

ORDER—dated 14th August 1883, No. 1751, Financial.

The order quoted (G.O., No. 609, dated 22nd March 1880) will not, in future, be considered as applicable to such repairs as road metalling. Its operation will be restricted to buildings, drainage, and masonry works, and generally to all works of a special or unusual character.

### Local Fund Works.

Deciding that G.O., No. 609, dated 22nd March 1880, regarding the scrutiny of plans and estimates of — by the Chief Engineer will not, in future, be considered as applicable to such repairs as road metalling, but that its operation will be restricted to buildings, drainage, and masonry works, and generally to all works of a special or unusual character.

### MEMORANDUM.

Adverting to G.O., Financial department, No. 1751, dated 14th August 1883, the undersigned has the honor to suggest that orders may be issued to Local Fund boards to forward to this office, through Superintending Engineers, every estimate, without exception, *which requires the sanction of Government in the Public Works department.* The order above-quoted declares that G.O., Financial, No. 609, dated 22nd March 1880, will not be considered as applicable to such *repairs* as road metalling, and estimates for strictly repair work of the kind referred to need not, of course, be sent to Public Works officers for scrutiny.

2. In many cases, however, estimates for work coming under the classification "New Work" are forwarded through the Board of Revenue for the sanction of Government in the Public Works department; and G.O., Financial No. 1751, dated 14th August 1883, is quoted as the authority for dispensing with the scrutiny of the Superintending Engineer; but it is considered that, in all such cases, this department should have before it the opinion of the local Public Works officer. If estimates, which do not provide for any masonry or drainage works are considered as requiring no professional scrutiny, there can be no object in the sanction of Government being accorded in the Public Works department. On the other hand, to show that such estimates when of large amount require professional scrutiny, it is remarked that many estimates for metalling or remetalling important roads have been considerably altered or revised at the suggestion of this office, after reference to the Superintending Engineer in most cases.
