To

The Chief Engineer,
P. W. Department.

Sir,

With reference to G. O. No. 2298 W dated 18th instant, I have the honor to inform you that Mr. Davidson has gone to Salem to relieve Mr. Ball, and I have requested them to effect the transfer as quickly as possible.

2. The Salem subdivision will be placed in charge of supervisor A. Kalliana ramier. The office establishment required for the new subdivision is:—

1 Clerk IV class 3 rd grade	Rs.	mean pay 25
1 Messenger	"	6
3 Lascars at 6 Rs. each	"	18
		49

To meet the above, Kallianaram's clerk IV c, 3rd grade on — Rs. 25
and his Lascar on — " 6 } — 31
are available 18

and I request you will be so good
as to obtain the sanction of Govern-
ment to a monthly charge of Rs. 18
for 3 lascars to make up
the Establishment of the new
sub-division.

3. The additional amount re-
quired in the current official year
for the 3 Lascars under Petty Estab-
lishment is Rs. 108.

I have the honor to be,
Sir,

Your most obedt. servant.

Office note from the Examiner of Public Works Accounts, dated 16th May 1884, No. 93.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Ootacamund, 24th May 1884, No. 242 E.W.

With reference to your endorsement (herewith returned), No. 909-D, of 12th instant, I have the honor to state that in my opinion the sub-divisions for the divisions named by the Examiner should be as follow :—

I. Coimbatore Division.

1. Coimbatore sub-division.
2. Erode do.
3. Salem do.

II. West Coast Division.

1. Canara sub-division.
2. Cannanore do.
3. Calicut do.

III. Nilgiri Division.

1. Northern sub-division.
2. Southern do.

2. The Nilgiri division should include that part of Wynaad which belongs to the Nilgiri Collectorate, but be relieved of the Malabar portion of it, and the West Coast division officer will probably find it most convenient to deal with the latter tract of country through his Cannanore sub-division officer.

ORDER—dated 4th June 1884, No. 1399 W., Public Works.

The proposals of the Superintending Engineer regarding the re-arrangement of sub-divisions in the Coimbatore, West Coast, and Nilgiri divisions are approved.

2. The following will be the corrected list of permanent divisions and sub-divisions in the IV Circle :—

Coimbatore Division.

1. Coimbatore sub-division.
2. Erode do.
3. Salem do.

APRIL.

Executive Divisions in the
IV Circle

Sanctioning, with remarks, a re-arrangement of the —

From the same officer, dated Coimbatore, 24th March 1884, No. 167-E.W.

I have the honor to inform you that if no change is to take place in the limits of Coimbatore division, the continued employment of the clerks sanctioned in G.O., No. 2108 W., of 1st August 1883, will be needed in 1884-85 to enable the Executive Engineer to carry on the heavy office work of the division. This extra establishment is needed to assist the permanent establishment.

2. I have therefore the honor to request sanction as follow :—

									RS.
2 Clerks on Rs. 20 each	...	...	...	...	...	...	...	...	40
2 Do. on „ 15 do.	...	...	...	...	...	...	...	...	30
									70
								For one year...	840

ORDER—dated 28th April 1884, No. 1058 W., Public Works.

In the letters recorded above the Superintending Engineer, IV Circle, proposes a re-arrangement of divisions in order to facilitate executive duty and to distribute more equitably the cost of working.

2. Under existing arrangements, the circle comprises the following divisions :—

Nilgiris.	North Arcot.
Coimbatore.	B Project.
Salem.	Barur (Temporary.)

3. It is now proposed to reconstitute a West Coast division, with head-quarters at Calicut, and to transfer to it the Executive Engineer of Salem with his establishment, the present Salem division being worked as a sub-division of the Coimbatore division.

4. Including the temporary office establishment now employed in the Coimbatore division, the new arrangements will result in a net saving of Rs. 27½ per mensem, as shown in the statement which accompanies the Superintending Engineer's letter, No. 10 W., dated 8th January 1884.

5. For the reasons advanced by the Superintending Engineer, His Excellency the Governor in Council sanctions the changes, from such date as they can be conveniently carried out.

6. The proposal of the Superintending Engineer to post a Royal Engineer officer for charge of the new West Coast division will be kept in view. Captain Boddy has already been posted to the Barur Project division.

7. The sanction to the revised scale of office establishment accorded in these proceedings has been registered as Provincial No. 6 W. of 1884-85, and classified as Establishment, Permanent.

(Signed) J. BEATTY, Colonel, R.E.,
Superintending Engineer, IV Circle.

8th January 1884.

in Salem there has been an average outlay of Rs. 85,714 only and establishment has cost about 31 per cent.

6. By the change I propose the outlay of the two divisions would be nearly equalised, and the cost of establishment become about 25 per cent.

This no doubt is a high percentage, but the great areas over which the works are scattered have to be considered; and at the present moment works at Kalpathi and Manantoddy have to stand over for the want of a subordinate to superintend them.

7. The only increase in cost of establishment I think indispensable to make the new arrangement fairly effective is that the new West Coast division should be allowed the establishment of a first-class division. It will be remembered that, when Calicut was formerly the head-quarters of a division, there were great difficulties with the office establishment, and as a consequence all the office work fell into arrears and confusion. Not only is living and carriage expensive at Calicut, but most of our office servants dislike the West Coast; and frequent changes are highly detrimental to efficiency.

I would propose to overcome the old difficulties by giving a first-class establishment, and by a special selection of the men to be sent there.

8. I propose making Calicut the head-quarters of the new West Coast division instead of Cannanore or Mangalore—(1) because it is easily reached from Coimbatore, and it is desirable that the division office should be readily accessible at all times from the circle office; (2) because there is now a Government building at Calicut which was built for a division office; and (3) because it is the head-quarters of a district, and a convenient point of departure for the Wynaad, Malapuram, Trichūr, Cochin and Quilon.

9. There are troops stationed at no less than six places in the proposed new division, viz. :—

- | | |
|---------------|-------------------|
| 1. Quilon. | 4. Calicut. |
| 2. Trichūr. | 5. Cannanore, and |
| 3. Malapuram. | 6. Mangalore. |

The expenditure in 1883-84 in the West Coast sub-divisions on military works and repairs will be Rs. 92,235; or about 38 per cent. of the total expenditure in those sub-divisions, which is Rs. 2,40,278.

It would therefore be convenient that the divisional officer should be a Royal Engineer; and in any case it is desirable that the frequent changes of officers that formerly occurred should be avoided as far as possible. To this end I venture to suggest that, if practicable, an officer who has lately returned from furlough should be given the post and expected to remain there three years at least, if his health remains good.

10. The only arrangement I have to suggest is that Mr. Bell should have the new temporary Barur division including the Hosūr and Krishnagiri taluks, and that Captain Boddy, R.E., shortly expected from England, should go to Calicut. In that case there would be no difficulty in making the change of divisions at once; but if Mr. Bell is to be moved to Calicut I think it better the change should take place from 1st May.

P.S.—This letter is accompanied by lists showing the sanctioned, existing and proposed scales of establishment as regards assistants and upper subordinates.

From the same officer, dated Coimbatore, 8th January 1884, No. 10 W.

I have the honor to submit a revised statement showing proposed changes of establishment in place of the one which accompanied my letter, No. 6 W., of 5th instant.

2. The temporary establishment sanctioned for the Coimbatore division would eventually have to be made permanent, should the present arrangement of divisions be left undisturbed.

3. Consequently, the redistribution of establishment proposed in my letter under reference would cause a net saving of Rs. 27½ instead of an increase.

28TH APRIL 1884, No. 1058 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 5th January 1884, No. 6 W.

With reference to G.O., No. 3291 W., of 17th November 1883, I have the honor to propose a change in regard to three of the divisions of this circle, with a view to the equalisation of work and expenditure in Coimbatore and Salem, and the better supervision of works on the West Coast and North-West Wynaad.

- 1 Statement of proposed changes.
- 1 Proposal for re-arrangement.
- 1 List of sanctioned and existing establishment.
- 2 Sketch maps.
- 2 Statements of expenditure.

2. The Coimbatore division now includes three districts—Coimbatore, Malabar and South Canara—divided into five sub-divisions, viz. :—

- | | |
|----------------|---------------|
| 1. Coimbatore. | 4. Cannanore. |
| 2. Erode. | 5. Mangalore. |
| 3. Calicut. | |

The Salem division is not sub-divided, but is supervised by the Executive Engineer with the aid of an attached officer.

Again, the north-west portion of Wynaad, i.e., that part of Wynaad which belongs to the Malabar district, is nominally attached to the Nilgiri division; but owing to want of establishment and the difficulty of reaching it from Ootacamund, the Executive Engineer has been practically helpless for carrying out any work there. Moreover, owing to the unwieldy size of the present Coimbatore division, as it now stands, combined with the difficulties of travelling in West Coast districts, it is impossible for the Executive Engineer to visit the works in progress on the West Coast as often as is desirable.

3. My proposal is to form a new division, to be called the West Coast division, with head-quarters at Calicut, and to comprise the two districts of South Canara and Malabar with North-West Wynaad, and to do this by transferring the present Executive Engineer of Salem and his office establishment to Calicut, making Salem a sub-division of the Coimbatore division, and moving an Assistant Engineer from the present Coimbatore division to Salem.

4. According to the sanctioned scale of establishment, Coimbatore is entitled to three Assistant Engineers, and Salem has none; under the proposed arrangement Coimbatore with Salem would be allowed two Assistants, and the West Coast one.

5. I send, herewith, sketch maps and statements of expenditure, which, I hope, will make my proposal and the expediency of it perfectly clear. The maps show the unwieldy size of the present Coimbatore division, and that my proposal is to form two divisions of pretty nearly the same size; while from having a railway running through them, the officer stationed at Coimbatore could readily reach any part of Salem.

The statements show that the average outlay per annum in the present Coimbatore division has been Rs. 3,18,718 and the cost of establishment about 22 per cent.; while
