8th March 1884, No. 641 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers :—

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 15th February 1884, No. 3976.

I have the honor to forward a requisition from the Executive Engineer, Presidency, for six 4-inch and eleven 6-inch Hobbs' locks, for the magazines of the coast batteries, to be obtained, through the India Office, from Messrs. Hobbs, Hart and Company, 76 Cheapside, London, E.C. Such locks as these are not made in India ; and, if patterns were obtained, the native blacksmith at Dindigul (mentioned in your memorandum, No. 2277 C., dated 11th December 1882) would charge Rs. 20 to Rs. 25 for each.

From Captain W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, to the Chief Engineer, Public Works Department, dated Madras, 20th February 1884, No. 1464 S.

I have the honor to forward, herewith, special indent, in triplicate, on the Home Government for Hobbs' door locks required by the Executive Engineer, Presidency, for the magazines of the coast batteries, prepared as directed, and to return letter from Superintending Engineer, V Circle, with his indent.

2. I have asked that the locks and keys be marked as shown in the column of remarks, and I would now request that each instrument, tool, and every article supplied for use of this department be marked by the manufacturers in future before despatch to this country. This would save much time in the despatch of indents from store, as under G.O., 8th September 1875, No. 2557, each pick, crow, mamooty, and, in fact, every tool and every instrument in a box of mathematical instruments has to be marked with the letters D.P.W. and the year of issue.

3. If the marking is done in England by the manufacturers, much time and labor would be saved ; for, when thousands of tools have to be issued, the time taken up in marking is very great.

4. The year of manufacture could be stamped on in lieu of the year of issue, for the object intended would not be defeated, viz., to prevent the exchange of inferior and worn-out tools, by contractors, for good ones issued to them for Government works.

5. When articles are sold for private use, the letter S could be marked here, but this is of very rare occurrence.

Order—dated 8th March 1884, No. 641 W., Public Works.

Ordered that the indent, together with the foregoing letter from the General Superintendent, Public Works Stores, be forwarded to the Home Government.

(Here enter No. $\frac{5}{641\text{ W.,}}$ dated 8th March 1884.)

(True Extract.)

PUBLIC WORKS DEPARTMENT.

Letter—to

The Right Honorable the SECRETARY of STATE for INDIA.

My Lord,

We have the honor to forward, for early compliance, an indent for Hobbs' locks required for the magazines of the coast batteries now under completion at Madras.

2. We would, at the same time, invite your Lordship's attention to the remarks in paragraph 2 of the letter from the General Superintendent, Public Works Workshops, printed with our proceedings, No. 641 W., dated 8th March 1884, on the subject of marking articles in England, and request that the necessary instructions may be issued by the India Store Department.

We have the honor to be,
My Lord,
Your Lordship's most obedient, humble servants,

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from the Deputy Secretary to the Government of India, Public Works Department (Account—General), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 25th April 1884, No. 130 A.G. :—

I am directed to acknowledge the receipt of a copy of the Government of Madras despatch to the Secretary of State, No. 5/641 W., Public Works, dated 8th March 1884, and of the indent forwarded therewith for Hobbs' locks required for the magazines of the coast batteries at Madras.

2. With reference thereto, I am to state, for information and future guidance, that locks are also manufactured by the South Indian Press and Workshop, Madura.

ORDER—dated 7th May 1884, No. 1147 W., Public Works.

Recorded.

2. The fact that locks are manufactured by the South Indian Press and Workshop, Madura, was not overlooked on the occasion in question, but it was considered desirable to obtain from England the locks required for the magazines of the coast batteries at Madras, because articles of the requisite quality could not, as reported by the Superintending Engineer, V Circle, be obtained in India as economically as from England.
