2. I would inform you that the * work improvements to the Taluk cutcherry at Mannárgudi, Negapatam division, has already been commenced, pending sanction of an allotment applied for in my statement of incomplete works, but the allotment was negatived by Government, as will be seen from the remarks against item No. 55 in statement D, printed with G.O., No. 1581 W., dated 24th June 1884. The work has now been three-fourths completed, and the stopping of its progress for want of funds will not be advisable. I therefore request that an allotment of Rs. 3,890 may be sanctioned for the work out of the sums given up in paragraph 1 above.

* Estimate, Rs. 3,890, sanctioned in G.O., No. 314 W., dated 6th February 1884.

Referred back to the Superintending Engineer, VI Circle, for reconsideration, with respect to the proposed surrenders.

2. Since the issue of G.O., No. 1799 W., dated 22nd July 1884, a large additional grant has become available under Provincial, and, if possible, it would be well to utilize, on the works for which they were originally granted, the sums proposed to be surrendered.

3. The grant of Rs. 3,890 asked for in the last paragraph of the Superintending Engineer's letter can now be given from the reserve with Government.

(By Order.)

Chepâk,
2nd September 1884.

From Lieut.-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Kodaikánal, 27th September 1884, No. 968-T.J.

In returning your endorsement, No. 1558 D, dated 2nd instant, I have the honor to state that the Executive Engineers, Madura and Trichinopoly divisions, have reported that it is probable the sums surrendered can be utilized on the works for which they were originally allotted.

2. The Executive Engineer, Tinnevelly division, has reported that the sums given up are anticipated savings from the amounts of the sanctioned estimates. These sums can therefore be withdrawn.

3. The Executive Engineer, Madura division, has applied for an additional grant of Rs. 16,000 for the "Preservation * of the Terumal Naick's palace and adaptation for public offices," to meet the expenditure that will be incurred on works sanctioned in G.O., No. 1885 W., of the 4th ultimo, as also meet the cost of compensation for the buildings round the Muhammadan school adjoining the palace. I request that you will be good enough to sanction this additional grant of Rs. 16,000 as soon as possible.

* Item No. 96 in the current year's budget.

4. I also request that the grant of Rs. 3,890 promised in the latter portion of your endorsement under reply may now be given.

READ—the following paper :—

No. 2119 T. J.

Report by the Superintending Engineer, VI Circle, on the estimate for repairing and improving the taluk cutcherry at Mannárgudi in Tanjore district, Rs. 3,890.

Two abstract estimates.

The building is of an old construction and is in very bad order as it has not been thoroughly overhauled for a very long time. The improvements and repairs estimated for were suggested by the late Collector, Mr. Stokes, and are approved by the present Collector, Mr. Pennington.

2. The improvements are as follows :—

1st. The substitution of iron rails with teak frames in place of the wooden rails in front of the record-room, as the latter is found of an insufficient protection.

2nd. Placing iron-barred windows to the record-room to admit sufficient light.

3rd. Raising the end walls of the kitchen for protecting the room against rain, &c.

4th. Constructing a new drain in front of latrine.

5th. Constructing a new room in the corner of the open space between Police ward and compound wall stores.

3. The roof throughout is said to leak, and the wood work in many places is decayed and has given way. The flooring in many places has broken up and the walls are in need of plastering, &c. On the whole the building is in a very bad condition and requires immediate repairs.

4. The present value of the building is Rs. 10,000, and, as the amount of the estimate is more than $\frac{1}{4}$ of the cost of the building, the early sanction of Government is recommended.

NEGAPATAM,

2. The Superintending Engineer, VI Circle, will proceed with the work at once, and report at an early date the appropriation required for the current year.

3. This sanction has been registered as Provincial No. 210 W. of 1883-84 and classified as Civil Buildings, Original Works.

" Quartermaster-General,		" 21st "	"	" 165-A.

ORDER—dated 24th June 1884, No. 1581 W., Public Works.

With the papers read above, Superintending Engineers and the Consulting Architect submit statements of the estimated requirements for the current official year, in lump sums for minor works and tools and plant for each division; and in detail for the incomplete works of the past year, and for new works recommended to be taken up in 1884-85.

2. Under "Imperial other services," the demands against "Original works" amount to—

	RS.
Postal	5,151
Telegraph	1,000
Salt	553

of which only Rs. 1,404 under Postal have been allotted for the completion of two incomplete works. The balance of the minor works grant, after the above allotment for unfinished works, under Postal, Rs. 10,596, and the whole of the minor works grant under Telegraph, Rs. 6,000, are placed at the disposal of the Director-General of the Post Office, and of the Director-General of Telegraphs, as shown in Statement A. Those officers will allot the requisite funds for work to be undertaken during the year.

3. The sum of Rs. 553 is required under Salt, to permit of the early completion of the head sluice across Mercanam brine supply channel. On receipt of a reply to a

16

reference made to the Revenue Department, the requisite reappropriation statement, reallotting the sum required from the budget provision under Item No. 10, opening and maintaining the Covelong bar, will be submitted for the early sanction of the Government of India.

4. The allotments under Repairs will be found in Statement A.

5. The demands of Superintending Engineers under Imperial Military amount, as shown below, to Rs. 1,31,411 :—

	Rs.
For minor works anticipated to be placed at the disposal of Superintending Engineer in lump sum	28,006
For incomplete minor works	4,875
„ incomplete major works	34,677
„ new minor works	22,080
„ new major works	41,773
Total ...	1,31,411

6. As the minor works grant, Item No. 5, Class B, amounts to only Rs. 22,320, the demands of Superintending Engineer have been greatly reduced, as shown below; and (provision to meet the same having been made) the balance of the minor works grant, Rs. 10,961, has been placed in lump sum at the disposal of officers commanding divisions and districts, to be distributed individually in such proportion as His Excellency the Commander-in-Chief may deem proper :—

	Rs.
For incomplete minor works	1,961
„ incomplete major works	5,103
„ new minor works	1,500
„ new major works	2,795
Total ...	11,359

7. There are several new minor works for which funds have been applied for by Superintending Engineers; but as the balance of the minor works grant, after providing for works now on hand, has been placed at the disposal of the military officers commanding divisions and districts, application should be made to them by Superintending Engineers to meet outlay on such works as are to be carried out during 1884-85.

8. A reference has been made to the Military Department respecting suggestions of the Superintending Engineer, V Circle, to resume the budget grant for "Alterations and additions to wash-house for the British Infantry at Bangalore," and to reduce the budget grant for "Armaments of Fort St. George." On receipt of a reply, the necessary order will issue.

9. The allotment under Repairs will be found in Statement A. The grant to the Coimbatore Division includes the allotment required for special repairs to the European barracks at Cannanore. The demands of Superintending Engineers under this head amount to Rs. 2,95,000, but have been reduced to Rs. 2,75,000 to bring the sum within the provision in the budget.

10. The demands of Superintending Engineers under Provincial, for anticipated outlay on minor works, amount to Rs. 53,180, but have been reduced to Rs. 34,750 as shown in Statement C.

11. On account of incomplete works of last year, exclusive of Police and Registration, the demands amount to—

	Rs.
Major works	2,34,099

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

READ—the following letter from Major J. L. L. MORANT, R.E., Officiating Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepâk, 12th June 1884, No. 403 :—

With reference to paragraph 2 of Public Works G.O., No. 813 W., dated 25th March 1884, I have the honor to submit a plan and two estimates (latter amounting to Rs. 9,745, 5,655 respectively) for constructing a floating latrine for the use of the clerks and others attending the public offices at Chepâk, Madras.

2. The plan and the estimates have been prepared by the Vice-President of the Madras Municipality, who informs me that, from his experience, he has every reason to believe the proposed arrangement will work very satisfactorily.

3. The smaller estimate is made up of the four following items :—

	RS.
Excavation of recess in bank of canal and retaining wall	1,490
Iron boat	1,400
Enclosure over boat	1,616
Two sets of buckets	880
Sundries	269
Total ...	5,655

4. In the boat 18 closets and 8 urinals are provided.

5. The Vice-President of the Municipality recommends that *two* (instead of one) completely fitted boats be entertained at an additional cost of Rs. 4,090 to the above amount, or Rs. 9,745 in all. In this case the monthly working cost will be Rs. 40 to 50 per mensem. If only one boat be used, the monthly working cost will be Rs. 70 to 80 per mensem.

6. The present latrine cost same Rs. 5,000, but has proved unsatisfactory in working and a considerable nuisance. Its monthly working cost is Rs. 35.

7. From a conversation I had with the Vice-President, I learn that the arrangement for moving the buckets on the rails when in the boat will be by ball and socket jointed wheels running in grooved rails. The buckets will thus be capable of being turned and run in any direction. A crane at the sewage farm raises the buckets out of the two ends of the boat.

ORDER—dated 27th June 1884, No. 1624 W., Public Works.

The estimate, amounting to Rs. 5,655, for a floating latrine for the use of the public offices at Chepâk, is sanctioned for immediate execution.

2. The Consulting Architect will place the money at the disposal of the Madras Municipality, to whom it is proposed to entrust the work, and will suggest such reappropriations from existing grants as will make up the amount.

19

3. One boat is sanctioned in the first instance; another can afterwards be added if found necessary.

4. The removal of the existing latrine will follow immediately on the floating latrine being finished.

5. This sanction has been registered as Provincial No. 74 of 1884-85 and classified as Civil Buildings, Original Works.

With reference to G.O., No. 1624 W., dated 27th June 1884, I have the honor to report that the existing grants for the division are all required for the particular works for which they have been appropriated, and to request, therefore, that a fresh appropriation for Rs. 5,655, for the floating latrine in question, may be sanctioned.

ORDER—dated 22nd July 1884, No. 1799 W., Public Works.

There are no funds with Government to meet this application from the Consulting Architect, and there are urgent works in other divisions also for which immediate grants are required.

2. Superintending Engineers will be requested to report at once all surrenders which can be made under Provincial.

READ—the following letter from Major J. L. L. MORANT, R.E., Officiating Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepâk, 17th June 1884, No. 433—Through the Superintending Engineer, VI Circle :—

With reference to paragraph 2 of Public Works G.O., No. 170 W., dated 19th January 1884, I have the honor to submit four plans and three estimates for carrying out all the improvements named in paragraph 6 of the Committee's report printed with that Government order.

2. The estimates have been prepared in conjunction with the Executive Engineer, Madura division.

3. This and all similar works connected with the Madura palace should, I consider, be carried out by the Executive Engineer, Madura division, in the usual way under the Superintending Engineer on the lines of the sanctioned plans and estimates. The Consulting Architect will occasionally visit the work and at all times give his advice and assistance in furnishing any further detailed plans or supplying from Madras any constructive details that may be required. The plans and estimates having been once fixed, and the latter having been prepared by the Executive Engineer, Madura division, there ought to be no difficulty in this arrangement, which is the one adopted by the Bengal Government in works executed from designs by their Consulting Architect.

ORDER—dated 4th August 1884, No. 1885 W., Public Works.

The estimates, amounting to Rs. 15,735, for effecting certain improvements at Tirumal Naick's palace at Madura, are sanctioned.

2. The proposed work is divided as follows :—

	Rs.
(*a*) Constructing a property-room at the south-east corner of the judge's court	320
(*b*) Rebuilding the east aisle and converting the Muhammadan school into a record-room for the judge's court	14,375
(*c*) Locating judge's chambers and bar library in the southern gallery of the judge's court	1,040
Total ...	15,735

3. The sanctions already accorded for work at the palace amount to Rs. 1,64,723. The total sanction will now stand at Rs. 1,80,458. The expenditure on the works to the end of 1883-84 amounted to Rs. 2,31,962, and the current year's budget grant is Rs. 17,498. The outlay is thus greatly in excess of sanctioned estimates, and further estimates to cover the irregular expenditure should be submitted with the least possible delay.

4. The measures proposed by the Consulting Architect for the execution of the work are approved.

5. The sanction accorded in paragraph 1 of this order has been registered as Provincial No. $\frac{108\ W.,}{1,\ 2\ and\ 3}$ of 1884-85, and classified as Civil Buildings, Original Works.
