9th October 1884, No. 5014

Military Buildings—Offices.

Read the following papers:—

No. From W. H. MOORE, Esq., Superintendent, Lawrence Asylum Press,
 to the Chief Secretary to Government; dated Ootacamund, 27th May 1884.

In continuation of my letter of the 28th April 1884, I have the honor to report that the rooms assigned for the Branch Press are now being occupied by me, though the room intended for the bindery has not been attended to in the same way as those to be occupied by the compositors and pressmen.

2. On the 13th instant, I addressed the Quarter Master General of the Army, copy marked A enclosed for information, pointing out that the room intended for the bindery should be cement-faced, as in the case of others, for the reception of machinery and clean printed sheets. That officer forwarded my letter to the Chief Engineer, Public Works Department, and, in reply, the enclosed memorandum, marked B, was received. Yesterday I waited upon the Executive Engineer and handed that gentleman the memorandum for his perusal, and begged that he would be good enough to cause the flooring of the bindery to be cement-faced (giving my reasons) as in the case of the other rooms. That gentleman positively declined to do anything more; I therefore pray that instructions be issued for the bindery to be cement-faced, as, until then, I am unable to lay down my machinery: these are at present lying about the premises.

N.B.—With regard to para. 2 of the Chief Engineer's memorandum, marked B, I would beg respectfully to submit that, whereas the Revenue Settlement Department is composed of clerks and light furniture, the plant of the Lawrence Asylum Press consists of machinery, types and other heavy articles.

A.

From W. H. MOORE, Esq., Superintendent, Lawrence Asylum Press, to the Quarter Master General; dated Ootacamund, 13th May 1884.

Re premises for the Ootacamund Branch Press.

With reference to previous correspondence, re repairs to premise lately occupied by the Revenue Settlement Department, which are intended for the use of the Branch Press for the execution of military printing, I am informed by those engaged in the repairs that the room at the back, intended as a bindery, the wooden flooring of which was removed and a concrete flooring laid down, is not to be faced with cement as in the case of the other two rooms. If this room is not cement-faced it will be of no use to me as a bindery, as it will not be fit for my machinery, and would not be suitable for the reception of clean printed sheets. I beg that orders may be issued to face the flooring of the small room with cement.

2. Only yesterday I had to write to His Excellency the Commander-in-Chief in reply to his inquiry as to when I would open the Branch Press. I replied that if the Department Public Works would give me over the premises by the end of this week I should hope to start work on or about the 25th instant. When I wrote that letter I was not aware of the difficulty about the flooring of the small room intended as a bindery and for the reception of binders' machinery and clean printed sheets and books in various stages of binding—these requiring great care and cleanliness.

MEMORANDUM.

From the Quarter Master General; dated 30th April 1884, No. 3338.
 From Mr. W. H. MOORE, Superintendent of the Lawrence Asylum Press; dated Ootacamund, 1st May 1884.

The Executive Engineer, Nilgiris, is authorized to undertake all repairs of an urgent nature necessary for the immediate occupation of the building in question, which forms one of those alluded to in G.O., dated 15th February 1884, No. 408-W.

2. But the fact of the building having been just vacated by the Revenue Settlement Office appears to prove conclusively that few, if any, repairs are immediately needed, in view to its occupation by the Lawrence Asylum Press.

Chief Engineer, P.W.D.

To the Executive Engineer, Nilgiris; Mr. W. H. Moore; Copy to the Superintending Engineer, IV Circle.

No. 208-E.

The Chief Engineer has seen no order of Government placing public buildings at the disposal of the Lawrence Asylum Press *free of rent*. Assuming, therefore, that rent will be charged for the accommodation provided, there will apparently be no objection to put the buildings into such a state of repair as will admit of their use by a printing press.

2. The repairs hitherto effected have been done under the authority of G.O., No. 408-W., dated 15th February 1884.

In returning the correspondence received with your reference order, No. 2763, dated 10th June 1884, relative to the rent which should be paid by the Superintendent of the Branch of the Lawrence Asylum Press for premises occupied on Bombay Castle Hill, I have the honor, by order, to state, for the information of Government, that His Excellency the Commander-in-Chief is of opinion that Rs. 50 per mensem will be a fair rent to charge for the buildings referred to.

No. From E. J. FIRTH, Esq., Secretary, Lawrence Asylum Press, to the Chief Secretary to Government; dated Madras, 5th September 1884, No. 147-O.B.

Adverting to the Order of Government, No. 1676 (Miscellaneous), of the 28th July 1884, I have the honor, by order of the Directors of the Press, to request that Government may be moved to reconsider their decision relative to the rent to be paid by the Ootacamund Branch for the premises occupied by the Press on the Bombay Castle Hill, Ootacamund.

2. When the establishment of a Branch at Ootacamund was under consideration it was understood that quarters would be provided by the Military Department, but nothing was said about rent, and when the Military Secretary to His Excellency the Commander-in-Chief, in his letter to the Superintendent of this Press, dated 15th January 1884, No. 287, stipulated that military work, if done at the Branch, should take precedence of all other work and be charged at Madras rates, this fact weighed with the Directors in making the concession asked for.

3. The head office has been put to considerable expense in rendering the premises referred to suitable for a Press. Should therefore Government decide that rent is to be paid, the Trustees would prefer to select other premises for the Press, as the accommodation afforded in the present building is not sufficiently commodious or extensive.
