Revised scale of — required for the
Cauvery Delta Works, sanctioned.

15TH JANUARY 1883, No. 149 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

No. 149.

READ—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer for Irrigation, dated Trichinopoly, 4th December 1882, No. 1607 T.J.:—

I have, with reference to your memorandum, No. VI-36, dated 6th May, the honor to forward the statement, revised, of the conservancy establishment proposed for the Cauvery Delta Works, and request, if possible, that sanction for it may be obtained without delay, so that it may be entertained by the commencement of the next official year.

2. As ordered by you (paragraph 7 of your memorandum), the Collector was written to regarding the proposed transfer of the Vickramanar head sluice and generally regarding the scheme. I enclose copy of his reply.

3. A properly paid establishment has been for years one of the great wants of Tanjore Delta, and considering the great interests at stake, the monthly cost of Rs. 1,235 proposed, in place of Rs. 808½ as now sanctioned, cannot be considered extravagant. I trust, therefore, it will be sanctioned without further reference.

No. 6 E.W.

Endorsement on the above.

Forwarded to the Chief Engineer, Public Works Department, with a recommendation that the proposed scale of conservancy establishment for the Tanjore District, amounting to Rs. 1,235 per mensem, may be sanctioned in lieu of the present scale, amounting to Rs. 808½.

2. The grounds on which the alterations in the scale have been proposed are shown in the tabular statement.

CHEPAUK,
10th January 1883.

(Signed) A. S. RUSSELL,
for Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

No. 150.

ORDER—dated 15th January 1883, No. 149 W., Public Works.

The proposed scale of conservancy establishment for the Tanjore District, amounting to Rs. 1,235 per mensem, is sanctioned.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

No. 111.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer for Irrigation, dated Trichinopoly, 3rd October 1882, No. 1202 T.J. :—

I have the honor to submit herewith plans and estimates, amounting to Rs. 6,830, for a new dam across the Adyaur and a head sluice for the better supply of the Ariangudi channel in the Negapatam Taluk.

2. The proposed dam is to take the place of one badly damaged by the floods of 1877, and still more by those of 1878-79, rendering entire reconstruction on a new site indispensable.

3. The old dam was only 61 feet long and failed from insufficiency of waterway; the new one will be 98 feet between wings, of which 30 feet would be a plain dam and the rest vents fitted with screw gearing.

4. Owing to the alteration of site found necessary, a new head sluice is needed.

5. The estimate therefore provides for—

Constructing dam	...	...	...	...	...	...	...	Rs.
Do. head sluice	...	...	...	...	...	...	...	5,800
New head to the channel and connecting the new dam with the embankments on either side of the Adyaur	...	...	...	...	...	...	...	840
	...	...	...	...	...	...	...	190
Total	...	...	...	...	...	...	...	6,830

6. The only objection to the scheme is that the vents in the old dam were worked by the Mirasidars, to whom the working of the screw gearing must be entrusted unless a special establishment is provided. On this point I send for your perusal Captain Smart's letter, No. 2470, of 23rd August 1882.

No. 34 I.

Note by the Acting Chief Engineer for Irrigation.

The estimate for constructing a new dam across the Adyaur, in the Tanjore District, is recommended for sanction.

2. It is not considered advisable to have shutters with screw gearing to be worked by the villagers, nor is it desirable to have to call on the villagers to assist the one lascar whom the Executive Engineer proposes to depute from the temporary

establishment to screw the gauge and keep the gearing in order. The Superintending Engineer should consider if, with the conservancy establishment at his disposal, he can arrange that two men should reside on the work, and, if not, he should apply for the extra establishment he requires.

CHEPAUK,
24th March 1883.

(Signed)

J. O. HASTED, Col., R.E.,
Ag. Chief Engineer for Irrigation.

To the Joint Secretary to Government, Public Works Department, Irrigation Branch.

No. 112.

ORDER—dated 31st March 1883, No. 287 I., Public Works.

The estimate which accompanied the above letter is sanctioned as follows:—

Productive Public Works.
Revenue Account.
Canvey Delta System.
Negapatam Division.
Vennar Section.
Extensions and Improvements.
(3) Distributaries.
C. Works.

Constructing a new dam across the Adyaur and a head sluice with
screw shutters, Estimate Rs. 6,830

2. This sanction has been registered as No. 84 I. of 1882-83.
