5TH NOVEMBER 1884, No. 2754 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from Lieutenant-Colonel H. M. VIBART, R.E., Superintending Engineer, III Circle, to the Chief Engineer for Irrigation, dated Ráyachóti, 27th October 1884, No. 1495:—

With reference to G.O., No. 935 I., of 15th October 1884, I have the honor to request that an appropriation of Rs. 1,350 may be sanctioned for the C. Project division, under Minor Original Works, Provincial, in order to sanction an estimate for bench marks, stones, &c., along the proposed Bellary canal. The work has been commenced in anticipation of allotment.

No. 90 E.W.

Forwarded to the Chief Engineer, Public Works Department, with a request that the amount required may be allotted from the balance of reserve under Provincial funds.

CHEPÁK,
31st October 1884.

(Signed) A. S. RUSSELL,
for Chief Engineer for Irrigation.

ORDER—dated 5th November 1884, No. 2754 W., Public Works.

The sum of Rs. 1,350, required for preliminary expenses in connection with the proposed Bellary canal in the C. Project division, is appropriated from the reserve with Government under Provincial.

15TH OCTOBER 1884, No. 935 L, PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (Account—Irrigation), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 2nd October 1884, No. 109 A.I.:—

In reply to your letter, No. 721 L, dated 11th ultimo, I am directed to say that the Government of India regret that they are unable to modify the decision conveyed in Public Works Department letter, No. 27 A.I., dated 6th February 1884, that the expenditure in connection with the investigation of all irrigation projects should be met from Provincial funds. The acceptance, in Public Works Department letter, No. 486 L, dated 12th November 1881, of the cost of special survey establishments as an Imperial charge was based on a ruling in Public Works Department Code, chapter XV, paragraph 131; but this has since been altered by standing order No. VI of 1882, and with the alteration the ruling falls. In connection with this matter, I am directed to invite the attention of the Madras Government to the latest ruling on the subject contained in standing order No. lxxviii of 1884 amending paragraphs 163 and 164 of chapter XV of the Code.

ORDER—dated 15th October 1884, No. 935 L, Public Works.

Communicated to the officers concerned, for information and guidance.

2. The existing grant of Rs. 1,500, for expenditure in connection with the investigation of projects in the B. Project division, will be credited to the reserve at the disposal of Government under "Irrigation and Navigation Works for which neither Capital nor Revenue Accounts are kept, Original Works."

3. The Superintending Engineer, IV Circle, will report the amount actually required for expenditure in the B. Project division during the current year, and the Chief Engineer for Irrigation will apply for such allotment as is necessary to meet the preliminary expenses of the Lower Coleroon Irrigation Project. Arrangements will then be made for the necessary provision being made from Provincial funds.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (Account—Irrigation), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 22nd July 1884, No. 86 A.I. :—

With reference to your endorsement, No. 553 I., dated 10th ultimo, I am directed to inform you that the Government of India has been pleased to confirm the transfer of funds ordered in paragraph 2 of the proceedings of the Madras Government, No. 552 I., dated 10th June 1884.

2. From paragraph 18 of the note by the Chief Engineer for Irrigation, forwarded with your endorsement, it appears that the outlay during the current year on the works noted in the margin is to be met from the Imperial grant for minor original works under Irrigation and Navigation Works for which Capital and Revenue Accounts are not kept. The outlay on the works in question must, I am to state, be met from Provincial funds, as it has been ruled in Public Works Department letter, No. 27 A.I., dated 6th February 1884, that the expenditure on investigation of Protective projects should, in the first instance, be charged to the Provincial allotment under 44. Irrigation and Navigation.

ORDER—dated 11th August 1884, No. 720 I., Public Works.

Communicated to the officers concerned for information.

2. With reference to paragraph 2 of the above letter, it is noticed that the outlay on the works therein referred to chiefly represents the cost of special subordinate survey establishments which are accepted by the Government of India as Imperial charges in their letter, No. 436 I., dated 12th November 1881, and are debited to the grant for Minor Original Works under paragraph 194 of the Public Works Code. The Government of India will be requested to permit, on the same principle, the continuance of small amounts required for special survey establishment being charged to Imperial funds under Minor Original Works, the cost of the ordinary establishment employed in the investigation of projects being debited to Provincial funds in consideration of the percentage charges on revenue and expenditure which are debited to Imperial Irrigation, and credited to Provincial funds on account of establishment.
