READ—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 29th January 1884, No. 2145 T.J.:—

With reference to G.O., No. 173 W., of 21st instant, I have the honor to inform you that I have directed the Executive Engineer to have the Tiruturaipundi sub-registrar's office repaired as estimated for, and to make the necessary improvements to the roof of the building.

2. This work was completed in August 1882, and there is no doubt but that there are defects in the building. This the Inspector-General brought to notice in December 1882; but, from the file of letters forwarded, this appears to have been taken no notice of until December 1883, when the Executive Engineer, Mr. Wilks, properly requested the Registration Department to execute the necessary alterations. The delay will be inquired into, it is due probably to the constant changes of officers in the division.

3. The enclosures of the Government Order, except the estimate, are herewith returned.
