Public Buildings for N. I.
Regiment, Bangalore

Estimates for —, sanctioned with remarks.

Provision for ventilation in
some of the buildings seems to me
desirable, in the Standard plan
of Place of Arms openings all round
also doors which are shown — for admission
of air I presume — but none are shown
in the plan proposed by P.R.

In conveying sanction I think it
may be desired that the terminals of
lightning conductors to magazines are
not in accordance with usually established
requirements, & this item upon revision.

No funds are available during the

 General a sum of Rs 14,610 has
 been proposed for expenditure on
 the work during 1885-86. But the small
 assignment for Military works made
 by the Government of India for that year
 prevents any part being appropriated for
