Civil Works.

READ—the following letter from G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Madras, 1st December 1884, No. 2036 G.:—

When I inspected the sub-registrar's office at Manapárai in the Trichinopoly district on the 27th July 1883 I remarked as follows:—

“The office was last inspected by Mr. Ramiengar in February 1878. It is held in a room *
* As shown in plan 9' x 15'. 8 feet by 12 feet. There are two almirahs, two tables, two chairs, a bench and a box in the room.
There is no space for parties, and it is said that very great inconvenience is experienced from the want of accommodation. A new office is required.”

2. The registrar has submitted several proposals for enlarging the accommodation; the final proposal is to erect a record-room, as shown in red on the enclosed plan, at a cost of Rs. 450.

3. The addition of the record-room would be to the taluk catcherry, from which the sub-registrar may, any day, be required to turn out. I have therefore the honor to request that you will be pleased to obtain the sanction of the Government for the preparation, by the Public Works Department, of plan and estimate for a new office building on the standard terraced design.
