GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

No. 2119 T. J.

Report by the Superintending Engineer, VI Circle, on the estimate for repairing and improving the taluk cutcherry at Mannárgudi in Tanjore district, Rs. 3,890.

The building is of an old construction and is in very bad order as it has not been thoroughly overhauled for a very long time. The improvements and repairs estimated for were suggested by the late Collector, Mr. Stokes, and are approved by the present Collector, Mr. Pennington.

2. The improvements are as follows :—

1st. The substitution of iron rails with teak frames in place of the wooden rails in front of the record-room, as the latter is found of an insufficient protection.

2nd. Placing iron-barred windows to the record-room to admit sufficient light.

3rd. Raising the end walls of the kitchen for protecting the room against rain, &c.

4th. Constructing a new drain in front of latrine.

5th. Constructing a new room in the corner of the open space between Police ward and compound wall stores.

3. The roof throughout is said to leak, and the wood work in many places is decayed and has given way. The flooring in many places has broken up and the walls are in need of plastering, &c. On the whole the building is in a very bad condition and requires immediate repairs.

4. The present value of the building is Rs. 10,000, and, as the amount of the estimate is more than $\frac{1}{4}$ of the cost of the building, the early sanction of Government is recommended.

NEGAPATAM,
25th January 1884.

(Signed)

H. R. MEAD, Lieut.-Col., R.E.,
Superintending Engineer, VI Circle.

ORDER—dated 6th February 1884, No. 314 W., Public Works.

The estimate, amounting to Rs. 3,890, for improvements to the taluk cutcherry at Mannárgudi in the Tanjore district, is sanctioned.

2. The Superintending Engineer, VI Circle, will proceed with the work at once, and report at an early date the appropriation required for the current year.

3. This sanction has been registered as Provincial No. 210 W. of 1883-84 and classified as Civil Buildings, Original Works.

W: 2119 TST
Report by the Superintending Engineer
VI Circle on the Estimate for Repairing
and Improving the Talug Cutcherry
at Mannargudi in Tanjore District
Rs. 3890. 314/4

The building is of an old construction
and is in very bad order as it has not
been thoroughly overhauled for a very
long time. The improvements and
repairs estimated for, were suggested
by the late collector Mr. Stokes, and
are approved by the present collector
Mr. Pennington.

2 The improvements are as follows.

1st The substitution of iron rails
with teak frames in place of the wooden
rails in front of the record room as
the latter is found of an insufficient
protection.

2^d Placing iron barred windows
to the record room to admit sufficient light.

3^d Raising the end walls of the
Kitchen for protecting the room against
rain &c.

4th Constructing a new drain in front
of Latrine.

5th Constructing a new room in the
Corner of the open space between Police
Ward and Compound Wall stores.

3 The roof through out is said to leak
and the wood work in many places is
decayed and has given way. The
flooring in many places has broken up
and the walls are in need of plastering.
On the whole the building is in a very
bad condition and requires immediate
repairs.

4 The present value of the building
is Rs 10,000 and as the amount of the estimate
is more than $\frac{1}{4}$ of the cost of the building
the Early sanction of Government is
recommended.
