C No 1413,

Trichinopoly.

The number quoted in the Telegram viz 187 m/m cannot be traced. but the excess over the grant, up to date, is assumed by the C.O.I. as Rs 7,466-

The total anticipated outlay, as per revised estimate forwarded with No 330 W of the 7th February 1884, amounts to Rs 5,98,550, and the total sanctioned grant, including the appropriation for the Native Infantry Lines at Trichinopoly, is Rs 58,400. The probable excess over the grant will be Rs 11,150- Of this sum Rs 2,194 is for charges on account of Establishment and Tarbrand Plant; as noted in the note on the preliminary issue of the Military works Estimate for 1884-85 the excess is due to Anticipated excesses on the grant for Minor Works, and to the outlay on Extending 6" water main piping from the barracks square. to exceeded.

CdC 20/2 — R.S. 20/2/84

R.S. AS 16-2-84

the married quarters at Wellington - The probable outlay on this (latter) work will be Rs 4,500 -

It is probable (the papers are referred to the Examiner) that there will be a saving of about Rs 5,000 on the current years grant for the Garrison at Bellary, on account of a brick kiln from Materials at Site & Stock - This would reduce the probable excess (Rs 11,150 – Rs 5,000) Rs 6,150 -

Wm. H.
15/2/84.

Rs 5,000 having been removed from the Grant for barracks at Madapuram, and Rs 5,000 now to be removed from the Grant for Stables at Bellary, will reduce the anticipated outlay in the year, and bring down the expenditure to about the budget Grant viz Rs 587,400 -

J.D.W.
