G.O., 18th Oct. 1883, No. 2963 W.

OCTOBER.

Inspection

Passing orders on the notes of — of the
Bellary division office by the Assistant
Examiner, Public Works Accounts.

7. There have been no stock transactions for some time past. The "house fittings," valued at Rs. 2,621-4-4, referred to in paragraph 11 of last report, are still on hand (*vide* G.O., No. 1407 W., dated 12th May 1883); but the Executive Engineer does not think that there will be an opportunity of disposing of them advantageously.

8. The register of buildings and lands is still in course of preparation.

9. The half-yearly return of tools and plant is up to date. The unserviceable and surplus articles referred to in paragraph 12 of last report have been disposed of.

10. The treasury pass-books differ from the Executive Engineer's cash-book as regards the amounts of letters of credit by Rs. 10,000. The discrepancy is due to a supplementary credit for that amount having been granted on the Bellary instead of the Anantapur treasury.

11. The contractors' ledger is up to date and has been signed by such contractors as have appeared at the divisional office. There is a balance of Rs. 100 shown as due to A. Lutchmana Mudaliar; but this the Executive Engineer states is not really due to the contractor. If there is no doubt in the matter, the balance should be struck off the ledger.

12. Of the outstandings in the miscellaneous advances account referred to in paragraph 13 of last report as requiring adjustment, the third and last still remain unadjusted in part. No difficulty is anticipated in the final adjustment of the balance. There is in addition a sum of Rs. 7 outstanding against Aseervatham Pillay, formerly a temporary overseer, which represents the unadjusted portion of an advance of salary. The amount is stated to be irrecoverable as the man has been dismissed, and must be written off to "establishment."

13. All other books and accounts are complete and up to date, and the points mentioned in last report, which have not been specially referred to here, have received attention. The rents due from Mr. Thorburn and Sub-Conductor Chooet (*vide* paragraph 18 of last report) have since been adjusted.

14. The office is in good order, with the exception of the record section. The records have never been properly arranged since the formation of the division two years ago, and there is great delay in replying to references in consequence.

1st October 1883.

ORDER—dated 18th October 1883, No. 2963 W., Public Works.

Communicated to the Superintending Engineer, Third Circle, for the information and guidance of the Executive Engineer, Bellary division.

2. Steps should be taken for putting the records in a more satisfactory condition.
3. The report is satisfactory.

(True Extract.)

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from D. C. GORDON, Esq., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 9th October 1883, No. 116 W. :—

I have the honor to submit, for information and orders of Government, notes by Mr. Volkers, Assistant Examiner, of his inspection of the office of the Bellary division.

2. The office is in good order. The Executive Engineer's attention is necessary to the remarks and recommendations made, and the Superintending Engineer's attention should be directed to the unsatisfactory state in which the records are at present.

ENCLOSURE.

Notes of Inspection by R. C. F. VOLKERS, Esq., Assistant Examiner of Public Works Accounts, of the office of the Executive Engineer, Bellary Division, on the 28th September 1883.

K. F. Nordmann, Esq., is the Executive Engineer, and the accountant, P. Bashiem Naidu.

2. The office was last inspected on 3rd February 1883 (*vide* G.O., No. 511 W. dated 15th February 1883).

3. The southern, or Anantapur, sub-division still remains in charge of Mr. H. Frankland, supervisor, who now draws against the Executive Engineer's credit in the treasury. The northern, or Bellary, sub-division is under the direct charge of the Executive Engineer, with Sub-Conductor J. Cormac, Sub-Engineer, in special charge of the cantonment. There are four regular imprest-holders under the Executive Engineer, with imprests aggregating Rs. 1,050, and in addition to these the Superintendent of Police, Anantapur, is treated as an imprest-holder for the unaccounted balance (Rs. 252-4-10) of the advance (Rs. 433) made to him for constructing a police-station at Lapatchy. This advance, when first made, should not have been treated as an imprest, inasmuch as it represented the full amount of the estimate for the work, and no recoupment could, therefore, be made for expenditure accounted for from time to time so as to keep the advance at a standing or fixed amount. It should have been debited to the miscellaneous advances account, expenditure accounted for being credited to that account, and debited to the service head concerned. As it is anticipated that the work will not be completed within the next few months, the balance of advance should now be debited to miscellaneous advances.

4. The cash-books and imprest accounts are in good order and up to date.

5. Work in the division is almost entirely done by contract, and there is no difficulty therefore in preparing work abstracts. The southern sub-divisional officer prepares his own work abstracts, those for the northern sub-division being compiled in the divisional office. In addition to work abstracts, *work vouchers* are submitted to the divisional office by the southern sub-division. This is unnecessary, and should be discontinued. There is no objection to their being prepared and filed in the *sub-divisional office*, if it is considered necessary that the sub-divisional officer should know exactly what has been expended on each sub-head of work up to date.

6. The register of works is up to date for all works. In the case of original works and special repairs, where the expenditure is carried on from year to year till the works are fully completed, the entries in the line "total" at end of each month should include the value of work done in previous years, so that the last entries in the register may always show the *total* value of work done *up to date*, and not merely that done during the *current year*.

READ—the following letter from Major S. C. CLARKE, R.E., Officiating Superintending Engineer, Third Circle, to the Chief Engineer for Irrigation, dated Bellary, 4th June 1883, No. 671 :—

I have the honor to inform you that I have been compelled to sanction the entertainment of an extra clerk, Mr. Scott, on a salary of Rs. 25 per mensem, by the Executive Engineer, Kurnool Canal Division, for the express purpose of assisting the Executive Engineer in sorting out all the worthless records in his office, which cannot very well be done by the existing establishment.

2. I have appointed an old clerk of the Canal Company's Office, who was originally an Assistant Accountant, but he is not a passed candidate.

I beg you will confirm the appointment, which is only to last for three months, and authorise the Examiner passing his pay from date of appointment (in May).

Salary Rs. 25 per mensem.

No. 41 E.W.

Forwarded to the Chief Engineer, Public Works Department, with a recommendation that the appointment of Mr. Scott may be confirmed.

(Signed) A. S. RUSSELL,
for Chief Engineer for Irrigation.

9th June 1883.

ORDER—dated 20th June 1883, No. 1738 W., Public Works.

The appointment is confirmed, and an appropriation of Rs. 75 made from the budget grant for Temporary Establishment.

2. This sanction has been registered as Provincial No. 27 W. of 1883-84 and classified as Establishment, Temporary.

(True Extract.)

Sir

With reference to your No. 3188 of the 26th February 1884, I have the honor to forward copies of testimonials for perusal belonging to Mr. D. Scott, late of the Kurnool Canal Irrigation Company who was appointed to assort the old records in the Bellary Executive Engineer's Divisional office for a period of 3 months from the 10th of January/84.

2. No passed candidate was available for employment as far as I could ascertain and as Mr. Scott had just carried out similar duties at Kurnool very satisfactorily in connection with the Kurnool Canal Executive Engineer's office, I thought that he would be the fittest.
