from Ex. Engineer
Wynnaad with
1 Enclosure.

I have the honor to forward for
your information a letter from the Ex-
-cise Engineer, Wynnaad in which he men-
-tions his difficulties in regard to an ex-
-perienced man for the post of Head
Draughtsman.

2. There are the same difficulties in
three of the other Divisions of this Circle,
and I have therefore the honor to request
sanction to employ the person recommended
by Mr. Nordmann, named C. F. An-
-druse as a Temporary Draughtsman

3. This sanction is necessary as
the Examiner would object to pass

To *I*
The Superintending Engineer
IV Circle

Sir,
With reference to para 2 of
your Memo. *No 15* dated 26th ultimo
W. R.
(received by me on the 29th idem) I
have the honor to report that
two surveyors are now at work
on the road from Vythery to Kakat,
viz. Mr. Le Sabour since the 11th
ultimo, and Mr. Antonio since
the 23rd ultimo.

2. One Draftsman, *I*
Mornesawmy Naidu, is at work
in the office, since the 30 January,
drawing plans.

3. I am myself occupied
with

with the preparation of the estimates for the Road and Bridges. I have unfortunately been laid up for the last two weeks with a severe attack of rheumatic fever, which has prevented me from leaving my office, but I am now recovering.

4. I hope to be able to submit the Estimate (with survey, Levels and plans complete) for the Cahoon-Vayiti Road, by the end of this month, provided I get another Draughtsman shortly.

5. I have not been able to secure the services of a 1st Class Draughtsman up to date, among the applications I received there were none that I should have chosen with,

and the 1st Draughtsman's post, with a salary of £675 attached to it, is still vacant.

6. If you could send, from some other office within the Circle, a good draughtsman to do duty here for a month or two, this would materially expedite my work.

7. The most promising of all the applications I received for the draughtsman's post is the one from Mr. Ambrose, which I beg to enclose for your information, but as he has not passed through the C.E. College, I apprehend there would be some difficulty about his appointment, unless special orders were passed in his case. This might be

A circular stamp with the text "SUPG: ENGINEER'S OFFICE" around the top arc and "FOURTH CIRCLE" around the bottom arc. In the center, it says "NO. 38WK" in a cursive script, followed by "6-MAR.84" in a bold, sans-serif font, and "P.W.D." below it. There are small star-like symbols on either side of the date.
