READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 1st November 1883, No. 481 :—

I have the honor to submit an estimate, with plan, amounting to Rs. 2,650, for converting a cattle-shed into a latrine at the Lawrence Asylum at Ootacamund, and constructing a covered passage from it to the plateau above on which the asylum stands.

2. This improvement was suggested by the committee of the asylum, and the estimate was called for in G.O., No. 3383, of 21st December 1882.

3. In countersigning the estimate, the Principal has proposed substituting a well-beaten gravelled path instead of the steps proposed by the Executive Engineer, and he has requested that the space of one foot and-a-half left open at the top of the corrugated sides of the covered way may be barred to prevent boys creeping through it. The saving by omitting the steps will probably cover the cost of the bars. This will be attended to in carrying out the work.

No. 2218 C., Public Works.

Forwarded, through the Military Department, for the approval of the Commander-in-Chief, and for such remarks as His Excellency may wish to make in regard to the urgency of this work as compared with others, consideration being given to the limited military grant for next official year, viz., Rs. 6,50,000.

ORDER—dated 22nd January 1884, No. 191 W., Public Works.

The estimate, amounting to Rs. 2,650, for converting a cattle-shed at the Lawrence Asylum, Ootacamund, into a latrine, and for constructing a covered passage is sanctioned.

2. The Government of India having declined* to sanction any further expenditure on the asylum buildings from military funds, and the present work being required on urgent sanitary grounds, the Government resolve to carry it out from Provincial funds. I am directed to acknowledge the receipt of your letter, No. 3677 W., dated the 21st December 1883, applying for an additional grant of Rs. 21,788 for expenditure on certain military works during the current year.

2. In reply I am to state that, with the exception of the public buildings in connection with the native infantry lines at Trichinopoly, the Government of India do not consider the works now put forward require exceptional treatment, and they are unable therefore to allot special grants for them during the current year. They may be brought forward in the usual manner for consideration in the preliminary issue of the military works budget estimate for 1884-85.

3. An additional grant of Rs. 3,750, including the usual percentage for establishment and tools and plant, has been sanctioned for the buildings at Trichinopoly in Military Department letter, No. 27 M.W., dated 8th January 1884.

2. The works to which allusion is made in paragraph 2 of the foregoing letter have been brought forward in the Imperial military works budget for 1884-85, viz. :—

No. 2119 T. J.

Report by the Superintending Engineer, VI Circle, on the estimate for repairing and improving the taluk cutcherry at Mannargudi in Tanjore district, Rs. 3,890.

The building is of an old construction and is in very bad order as it has not been thoroughly overhauled for a very long time. The improvements and repairs estimated for were suggested by the late Collector, Mr. Stokes, and are approved by the present Collector, Mr. Pennington.

2. The improvements are as follows :—

1st. The substitution of iron rails with teak frames in place of the wooden rails in front of the record-room, as the latter is found of an insufficient protection.

2nd. Placing iron-barred windows to the record-room to admit sufficient light.

3rd. Raising the end walls of the kitchen for protecting the room against rain, &c.

4th. Constructing a new drain in front of latrine.

5th. Constructing a new room in the corner of the open space between Police ward and compound wall stores.

3. The roof throughout is said to leak, and the wood work in many places is decayed and has given way. The flooring in many places has broken up and the walls are in need of plastering, &c. On the whole the building is in a very bad condition and requires immediate repairs.

4. The present value of the building is Rs. 10,000, and, as the amount of the estimate is more than $\frac{1}{4}$ of the cost of the building, the early sanction of Government is recommended.

The Government of India regret that no funds can be allotted for these works until the detailed estimates have been approved and sanctioned, when the Government of India would be glad to see the projects, except that for an armourer's shop. Funds for accommodation for a regiment of Native Cavalry at Bangalore are also withheld, pending the receipt of further information as to the nature of the work.

4. The grants noted above, together with the usual percentages for establishment and tools and plant, have accordingly been disallowed.* The final issue of the budget estimate should be prepared for a total grant of Rs. 5,90,600.

Revised Estimate, 1883-84.

5. The revised estimate is passed for Rs. 5,97,400, the amount of the modified grant to date.

6. The local Government is authorised to incur expenditure within the limits of the amounts passed, subject to the condition of a strict adherence to the rules in force regarding the financial regularity of departmental work.

ORDER.—Ordered, that the foregoing be communicated to the Government of Madras, with the request that 45 printed copies of the final issue of

the budget estimate, as now passed, may be submitted, so as to reach the Government of India not later than the 1st May 1884.

Ordered also; that a copy be forwarded to the Accountant-General, Public Works Department, for information.
