GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 19th March 1884, No. 152.

I have the honor to request your sanction to the head-quarters of the Barur project division being fixed at Hosúr where there are Government buildings in which the office establishment and records of the division can be accommodated. There are no vacant Government buildings in the Krishnagiri taluk.

Office note from the Chief Engineer for Irrigation, dated 24th March 1884, No. 65.

In my opinion it is essential that the officer in charge of the Barur project division should live near the anicut while the anicut, head works and Barur tank are in progress. I consented to the Hosúr and Krishnagiri taluks being added to the division, understanding that the work there could only necessitate occasional absence from the project works. The office must be accommodated in temporary buildings I suppose and run the risk of fire.

Order—dated 31st March 1884, No. 867 W., Public Works.

The foregoing note from the Chief Engineer for Irrigation will be communicated to the Superintending Engineer, IV Circle for information and guidance.

W. In my opinion it is essential that the Office in charge of the Barur Project Divn should have near the ancut office the ancut, Head Sluices and Barur Tank, as in Surveyor. I am told by the Hosur & Krishnagiri Taluq being added to the Divn, understanding that the works here would only require occasional attention from the Project works. The office must be accommodated in temporary buildings & subject to the risk of fire.
