Read—the following Proceedings of the Board of Revenue, dated 13th September 1883, No. 2755 :—

ABSTRACT.—Submitting to Government, with remarks, letter from Accountant-General requesting that sanction may be obtained for the sum of Rs. 3,862-13-10, paid by the Collector of Ganjam as compensation for lands taken up for a road from Aska to Suradá, being charged to Provincial funds in the accounts of Public Works department, and that the Collector be directed not to make any more payments on account of roads taken up in 1875 without previous reference to Board.

Order—dated 27th September 1883, No. 2169, Financial.

The Board of Revenue will report whether all receipts from the road in question have not been credited to Local funds.

2. As the Government understand the case, the Local Fund Boards when taking over this and the other roads accepted all liability, and the past debits to Provincial appear to require reconsideration.

(Signed) J. A. DAVIES,

To the President, Local Fund Boards, Ganjam district.

Read—the following letter from J. G. HORSFALL, Esq., President, Local Fund Boards, Ganjam district, to the Secretary to the Board of Revenue, dated Chatrapur, 31st December 1883, No. 1425 :—

With reference to Government Order, communicated with Revenue Board's reference, dated 16th October last, I have the honor to enclose a copy of the Chatrapur

Circle Board's resolution on the subject of land compensation demanded from them on account of the road from Aska to Suradá.

2. The road was transferred to the Local Fund Board in 1871-72. They have derived no receipts from the road except tolls, which were established in 1879-80; these never reached even a fourth of the usual annual expenditure incurred for the upkeep of the road.

3. It will be seen from the enclosed statement that the receipts from the road during the last twelve years amounted to but Rs. 3,004, whereas the outlay thereon aggregated Rs. 43,662, the annual outlay ranging between Rs. 2,600 and Rs. 3,000. The Circle Board have spent on the road far more than they have received from it; and this disproportionate expenditure must in all probability continue hereafter to meet the needs of the extraordinary traffic passing of late on the road.

4. In regard to paragraph 2 of the Government Order under reference, I beg to refer to paragraph 4 of G.O., dated 7th June 1871, No. 216, wherein it is stated that "it has been decided that, whenever possible, the duty of proposing, providing for, and controlling the expenditure under this head (communications) shall be made over to the Local Fund Boards to whom lump grants-in-aid of such amount as can from time to time be spared will be assigned from Provincial funds." From this it is clear that the Government did not intend that the Local Fund Boards should undertake to discharge liabilities on such Imperial roads, which had arisen some seven or eight years before the date of their order.

5. The Chatrapur Circle Board is already greatly in want of funds to meet its normal expenditure upon communications, and already several much needed works remain sanctioned, but uncommenced from this cause alone; it would be still further embarrassed should it be called upon to meet past liabilities on account of land compensation.

6. To ask the Local Fund Boards to bear all such charges and to make good all past debits against Provincial funds on account of compensation would involve a reversal of the policy recognized and observed by the Government for years together, inasmuch as all land compensation due on Imperial roads transferred to Local Fund Boards has hitherto been paid from Provincial funds—*vide* G.O., 18th September 1875, No. 1378.

7. Under these circumstances, I hope the Government will not require the Local Fund Board to reimburse the Provincial funds in the amount of Rs. 3,863, being compensation for Aska-Suradá road already paid from Provincial funds.

ENCLOSURE No. 1.

Extract from the Proceedings of the Local Fund Board, Chatrapur circle, at a meeting held at Chatrapur on Saturday the 24th November 1883.

4. Read Revenue Board's Proceedings, dated 16th October last, communicating G.O., dated 27th September last, No. 2169, requesting the Board of Revenue to report whether all receipts from Aska-Suradá road have not been credited to Local funds, and observing that Local Fund Boards accepted all liabilities when the roads were taken over by them.

Resolution.—The Local Fund Board observe that if the Imperial Public Works department had paid compensation nearly a quarter of a century ago, when the land was taken up, as it was the duty of that department to do, no claim would now be made upon the Board; this being so, the Board do not understand on what principle they should now be made to suffer for the default of an Imperial department. Tolls were only established on the road in 1878, and the receipts have not been sufficient for the maintenance thereof.

Read—the following official memorandum from J. D. REES, Esq., Acting Under Secretary to Government, Financial department, to the Secretary to the Board of Revenue, dated Fort St. George, 21st January 1884, No. 131:—

ABSTRACT.—Requesting to submit at an early date reply to G.O., No. 2169, dated 27th September 1883, asking for report whether all receipts from the road from Aska to Suradá, Ganjam district, have not been credited to Local funds.

Resolution—dated 29th January 1884, No. 294.

In his letter, dated 10th August 1883, No. 280, the Accountant-General reported that the Collector of Ganjam had paid Rs. 3,862-13-10 from Provincial funds on account of compensation due for lands taken up for the road from Aska to Suradá, and that the Examiner of Public Works Accounts refused to admit the debit on the ground that the road did not belong to the Public Works department. The Board, in their Proceedings, dated 13th September 1883, No. 2755, requested the sanction of Government for admitting the payment made by the Collector, as the road was constructed out of Imperial funds, and as compensation for other lands taken for the same road was sanctioned from Provincial funds. Thereupon Government have in their order read above desired to be informed whether all receipts from the road in question have not been credited to Local funds, and added that the Local Fund Boards when taking over this and other roads accepted all liability and that past debits to Provincial require reconsideration.

2. Under section 8 of the Madras Local Funds Act IV of 1871, all public roads and streets (not being private property) are vested in Local Fund Boards, but it does not appear that they are thereby bound to pay the debts incurred by Government in the construction of those roads. On the other hand, it was contemplated, as pointed out by the President in his letter recorded above, that the assets of the Local Fund Boards would be subsidised by grants from the Provincial revenue in order that the main lines of communication might be maintained in proper order.

3. In paragraph 3 of their Proceedings, dated 23rd August 1875, No. 2364, the Board said that compensation for lands taken up for roads made from Imperial funds must be paid from the Provincial budget and not from Local funds. This view was virtually accepted in G.O., dated 18th September 1875, No. 1378, and in G.O., dated 21st April 1876, No. 518, Government directed the Public Works department to provide the requisite funds. The Board do not understand how the Local Fund Board

Circle Board's resolution on the subject of land compensation demanded from them on account of the road from Aska to Suradá.

2. The road was transferred to the Local Fund Board in 1871-72. They have derived no receipts from the road except tolls, which were established in 1879-80; these never reached even a fourth of the usual annual expenditure incurred for the upkeep of the road.

3. It will be seen from the enclosed statement that the receipts from the road during the last twelve years amounted to but Rs. 3,004, whereas the outlay thereon aggregated Rs. 43,662, the annual outlay ranging between Rs. 2,600 and Rs. 3,000. The Circle Board have spent on the road far more than they have received from it; and this disproportionate expenditure must in all probability continue hereafter to meet the needs of the extraordinary traffic passing of late on the road.

4. In regard to paragraph 2 of the Government Order under reference, I beg to refer to paragraph 4 of G.O., dated 7th June 1871, No. 216, wherein it is stated that "it has been decided that, whenever possible, the duty of proposing, providing for, and controlling the expenditure under this head (communications) shall be made over to the Local Fund Boards to whom lump grants-in-aid of such amount as can from time to time be spared will be assigned from Provincial funds." From this it is clear that the Government did not intend that the Local Fund Boards should undertake to discharge liabilities on such Imperial roads, which had arisen some seven or eight years before the date of their order.

The Board do not understand how the Local Fund Board

can now be made liable for money which should have been paid long before that Board came into existence, and which has remained undisbursed owing to delay on the part of local officers.

4. In reference to the question at paragraph 1 of the Government Order under reply, it would appear from the statement furnished by the President that tolls were levied on the road from 1879-80, and amount for the last four years to Rs. 3,004, while the expenditure on the road from the time it was taken over by the Local Fund Board has been Rs. 43,663.

The Steamer "Prince" was obtained for Service in the Marine Department from the Central Provinces in 1873 when the Upper Godavari works were transferred to Madras. The Marine Dept however declined to take charge of her, as she was not suited for the purposes for which they required her. The steamer was accordingly included

The question of increasing the Establishment grant can

Stand over till later in the official year when more recent and will be available. an additional lapse will probably fall in. At the present moment we have the following Amounts available to me

Excesses.

Works — Rs 27,755
Tools & Plant. 25380 2

There are demands on the net. Grants (in addition to Excesses on Establishment) the details of which are noted on the Receipt balance Statement

This might stand over in connection with C. No 2008. If money is available after adjusting demands under "Public Works. Provincial" an allotment of Rs 5000 might be made to the Local Fund Board. instead of allowing the money to lapse?

A.S

829/14

C.A.W.

I agree to this standing over, as suggested. On grant of Rs 5000 to the L.F. Board could I presume the lapse if not anticipated by end of year, and let a portion of that amount could run to offset in "Repairs to Bungalows" be made effectually the money is wanted.

Money allotted to L.F. Boards due - not to lapse. It is wrongly framed into the following year's accounts.

Note.

The Reserve with Govt. is Rs 38,998. to which if Rs 52,662. the budget Provision under Tools and Plant be added the total under Reserve will amount to Rs 91,660. From this Rs 1564 has to be deducted, being allotments made for the maintenance of the Pottingby Estate, and Govt house Madras / drafts passed, but not yet encashed / this leaves Rs 90,096. and Rs 87,637 are in the accompanying draft attached.

The Reserve with Govt. after these appropriations are made will be Rs 2,459.
